WRAP UP

The Goliath Frog

A conversation about the largest frog in the world

Listening Strategy

Listening for main idea

Talking About an Opinion

In my opinion, the most interesting animal is the Goliath frog.

Sentence Fragments

Zebras on grass, twigs, and leaves.

*Zebras **survive** on grass, twigs, and leaves.*

Writing Practice Write about animals (WB)

• **Big Question 1**

Panda Bears

An interview about pandas

Listening Strategy

Listening for details

Giving Reasons

I think tigers will survive.

Why do you say that?

People will help tigers because ...

Irregular Past Verbs

*She **caught** a cold.*

Writing Practice Write about animals you've studied (WB)

• **Writing and Presentation**
Write a persuasive e-mail (WB) and share it with the class

• **Big Question 1**

Caring for Your Teeth

Instructions for brushing your teeth

Listening Strategy

Listening for instructions

Talking About Teeth

I think it is important to take care of your teeth.

I agree. We should brush our teeth every day.

Adjective + Preposition

*I'm **interested in** sports.*

Writing Practice Write about your interests when you were little and your interests now (WB)

• **Big Question 2**

Killer Whales

A radio interview with an expert on killer whales

Listening Strategy Listening for details

Comparing Things

I think beavers are more interesting than walruses because they build homes.

Parallel Structure with -ing

*Wei enjoys **playing, singing, and acting**.*

Writing Practice Write about what you or someone you know likes to do (WB)

• **Writing and Presentation**
Write a report (WB) and share it with the class

• **Big Question 2**

The Printing Press

A speaker discusses the importance of wheels in the creation of books

Listening Strategy

Listening for main idea

Planning a Trip

We're going to France. First, we'll take the bus to the airport.

Verb + Infinitive

*I agreed **to go** with him.*

Writing Practice Write about plans with friends and family (WB)

• **Big Question 3**

Guessing Game

One child describes an object, and the other guesses what it is

Listening Strategy

Listening for details

Giving Advice

I missed the bus. What should I do?

You should ask your dad to give you a ride.

More Irregular Verbs

*become → **became***

Writing Practice Write about what you wanted to be when you were a child and what you want to be now (WB)

• **Writing and Presentation**
Write an opinion essay (WB) and share it with the class

• **Big Question 3**

Testing Practice 1

Humpback Whales

An interview with an expert on the singing of humpback whales

Listening Strategy

Listening for details

Asking for Clarification

When I was five, I fell out of a tree.

How did that happen?

Commas and Semicolons

We had a big storm last night, but it cleared up this morning.

We had a big storm last night; it cleared up this morning.

Writing Practice Write about how an animal communicates (WB)

• **Big Question 4**

Echo the Elephant

An interview with an elephant expert

Listening Strategy

Listening for details

Summarizing What You've Learned

What did you learn about bees?

I learned that honeybees communicate by dancing.

Pronoun Agreement

*The **girl** is watching a movie. **She** likes it.*

Writing Practice Write about a place you have seen animals (WB)

• **Writing and Presentation**
Write a descriptive essay (WB) and share it with the class

• **Big Question 4**

UNIT	READING	VOCABULARY	GRAMMAR
BIG QUESTION 5 What do different cultures give to the world? Social Studies: History			
9 Page 88	Journey Back in Time Historical Narrative (Nonfiction) Reading Strategy Main Idea and Details	Reading Text Words <i>culture, civilization, contribution, development, achievement, device, process, tradition, custom, benefit, ceremony, product</i> Words in Context <i>trade, tablets, voyage, ancient, advanced, tools</i> Word Study Word Roots	Asking Questions Questions <i>Who saw Finn?</i> <i>Who did Finn see?</i>
10 Page 98	Choco Choco Boom Boom! Fantasy (Fiction) Reading Strategy Visualizing	Reading Text Words <i>delicious, creamy, spicy, nutty, ladle, sticky, crunchy, runny, smooth, whirring, booming, spot</i> Words in Context <i>square, skidded, dizzy, sniffing, molds, winked</i> Word Study Suffix -ous	Short Answers Affirmative and negative questions <i>Is there a chocolate shop near here? Yes, there is.</i> <i>Do you like my new sneakers? Yes, I do!</i>

BIG QUESTION 1

Why do we protect animals?

In these units you will:

WATCH
a video about animals.

READ
about animals and people who help them.

PRESENT
your e-mail to the class.

LEARN
why animals are important to us.

WRITE
a persuasive e-mail.

- A** Watch the video. Then talk about it with your partner. 
- B** Look at the picture and discuss it with your class.
- 1 What do you think the man is doing?
 - 2 What kind of animal is this? Is it afraid?
- C** Think and answer the questions.
- 1 Can you think of some animals that are in danger?
 - 2 What do you know about these animals?
 - 3 Why are these animals in danger?
 - 4 Why is it important to help these animals?
- D** Discuss this topic with your class. Fill out the **Big Question Chart**.

Big Question Chart

woolly mammoth

extinct

survive

exploit

endangered

habitat

species

sanctuary

- 1 **Dodos** were birds that lived a long time ago and couldn't fly.
- 2 **Elephant birds** were very tall and too heavy to fly.
- 3 **Quaggas** looked like zebras with stripes only on the fronts of their bodies.
- 4 **Sea wolves** lived in the ocean and looked like sea lions.
- 5 **Woolly mammoths** were related to elephants.
- 6 Dodos are **extinct**. None are alive today.
- 7 Tigers still **survive** today, even though there are fewer of them.
- 8 Some people unfairly **exploit** animals for their fur.
- 9 Polar bears are in danger of becoming extinct. They are **endangered** animals.
- 10 African lions live in the grasslands. It is their **habitat**.
- 11 Many different **species** of birds live in nature reserves.
- 12 Endangered animals can live safely in **sanctuaries**.

B Circle the one that doesn't belong.

- | | | | |
|------------------|---------------|------------|-------------|
| 1 woolly mammoth | elephant bird | dodo | human |
| 2 die | survive | exist | live |
| 3 extinct | dead | alive | disappeared |
| 4 take advantage | misuse | respect | exploit |
| 5 endangered | safe | threatened | at risk |
| 6 habitat | home | quagga | sanctuary |

C Circle the correct answer.

- 1 Which animal was a bird that couldn't fly?
quagga sea wolf species elephant bird
- 2 Which animal was related to an elephant?
dodo elephant bird quagga woolly mammoth
- 3 Which animal was similar to a zebra?
quagga tiger sea wolf dodo

Before You Read

Think Answer the questions.

- 1 Why are animals important to us?
- 2 Do you know of any endangered animals?

D Learn **Author's Purpose**

When you read, think about why the author wrote the story.

- How does the author want you to feel?
- What does the author want you to learn?
- How does the author feel about the subject?

Read the paragraphs. Check (✓) what the author wants you to do.

Your city needs your help. What could you do to help?
Your class could start a clean-up project near your school.

- have fun take action learn

All animals need water. Some animals drink from rivers. Other animals drink from rainwater that has landed on leaves. Animals live where they can find water.

- have fun take action learn

"Miko, your father and I are worried about you," said Miko's mother. "You seem to be asleep most of the time."
"Zzzzzz," snored Miko the sloth.

- have fun take action learn

E Words in Context Scan the story on pages 10–11 and circle these words. As you read, try to guess what the words mean.

eventually existed mammals suffered atmosphere rare

F Turn to pages 10–11 again. Look at the pictures and the title. What do you think the story is about? Could it happen in real life?

Dreaming of Dodos

In this *fantasy* story, a girl named Mina has a dream about some animals that no longer exist. A fantasy is a type of story about characters and events that could not happen in real life. As you read, think about why the author wrote the story.

Dreaming of Dodos

Mina was in bed, feeling sleepy. She read the first few words of her book.

“The dodo was a bird that couldn’t fly ...”

Whoosh! The window flew wide open. Mina sat up, and through the window she saw a dodo, a real live dodo, right there in her yard!

“I existed over four hundred years ago,” the dodo said. “But then terrible things happened. Sailors arrived. They cut down the forests, so there was nothing for us to eat, and they had cats that killed us. Dodos didn’t survive. We all died.”

The dodo made a sniffing noise and sat down.

There was a sound of hooves, and into the yard galloped a quagga, missing the dodo’s head by a centimeter.

“I existed 150 years ago,” said the quagga, with a tear in its eye. “Quaggas were a species of zebra, but hunters killed us and made our skins into bags, and farmers ate us. These humans exploited us. Eventually, we all became extinct.”

The quagga stood by Mina’s swing, swishing its tail.

Soon came a sound of water gushing and a flip-flap of flippers. From the bottom of Mina’s pool emerged a sea wolf. It looked like a big seal.

“I’ve been looking for you!” said the sea wolf to the dodo. “Sea wolves haven’t existed for almost 70 years.”

“Why’s that?” asked the dodo.

The sea wolf flopped out of the pool. A puddle of water spread across the grass.

“We were hunted by explorers, fishermen, and hunters who killed and ate us. They made shoes and boots from our skin, and used our fat to cook with. That’s why!”

Think How does the author want you to feel?

“I’m very sorry,” said the dodo. The dodo felt bad that these sea mammals had suffered so much.

Suddenly, a crashing noise made Mina jump. There at the gate was a woolly mammoth. With one big push, it stumbled into the yard.

“Sorry about the noise,” it said. “I’ve been looking for you! I lived thousands of years ago, but now I’m extinct.”

“Why’s that?” asked the quagga.

“No one is sure,” replied the mammoth. “Scientists think the weather changed, changing our habitat. We ate grass, but as the atmosphere grew warmer, forests spread and there was less grass to eat.”

Mina heard wings flapping. Seconds later, an elephant bird came crashing through the trees and landed beside the pool, splashing water over the dodo.

“I weigh half a ton,” the elephant bird said proudly. “I’m the heaviest bird that’s ever existed. You could make 30 omelets from one of my eggs! But I’ve been extinct for over a thousand years.”

Well, the animals all looked miserable, but before they had time to say another word, a tiger came roaring in.

“Ah-hah!” it said, peering around with its bright, fiery eyes. “I have many friends here.”

“Are you extinct, too?” asked the elephant bird.

“Not yet,” replied the tiger, flashing its shiny teeth. “But I’m rare and endangered! Tigers are lucky. They have sanctuaries where they can live.”

The dodo, the quagga, the sea wolf, the woolly mammoth, and the elephant bird all stared at the tiger. “Sanctuaries?” they asked.

“Yes, sanctuaries,” replied the tiger. “They are places where no one can hurt you.”

“What a great idea!” thought Mina. “Maybe if we have sanctuaries, fewer animals will become extinct.”

The window blew shut, and Mina woke up with a start. There was no one and nothing to see, except the book by her bed.

Think What does the author want you to learn?

Understand

Comprehension

Think What did you like about “Dreaming of Dodos”? Tell your partner two things you liked about the story.

A As a class, discuss the author’s purpose for writing “Dreaming of Dodos.” Did the author want you to have fun, take action, or learn something?

B Circle the correct answer.

- 1 Mina was _____
 - a in the yard, playing with extinct animals.
 - b in bed, reading about endangered animals.
 - c in bed, reading about extinct animals.
 - d at the gate, letting in the animals.
- 2 Tigers are lucky because _____
 - a they can live in sanctuaries.
 - b they have big, shiny teeth.
 - c they can eat large animals.
 - d they can live on safe islands.
- 3 Sailors cut down the forests _____
 - a and there was nothing for dodos to eat.
 - b to let cats eat all the food.
 - c so dodos had to move to another country.
 - d and put all the dodos on their ships.
- 4 The author wanted readers to _____
 - a remember every word of the story.
 - b learn about extinct animals.
 - c dream about dodos.
 - d memorize facts about animals.

C Words in Context Look again at the words you circled in the story. Write them in the correct places in the paragraph.

Many _____₁_____, as well as many marine animals and birds that _____₂_____ long ago, were unfairly exploited by humans. _____₃_____, some of these animals died out. Even today, many animals face the threat of extinction. Pandas, for example, are increasingly _____₄_____ in the wild. Some of these animals have _____₅_____ from the fact that our _____₆_____ has become warmer. Others have been hunted and killed.

Grammar in Use

D Listen and read along. Then answer the questions.  1-04

- | | | |
|--|-----|----|
| 1 Is Finn painting now? | Yes | No |
| 2 Has Charlie painted anything before? | Yes | No |

E Learn Grammar Present Perfect and Present Perfect Continuous

Use the **present perfect** to say what you've done in your life up to now.

I have read books about dodos. (I read these books in the past.)

Use the **present perfect continuous** to say that you started doing something in the past and you're still doing it now.

I have been reading this book for an hour. (I'm still reading it.)

Read the sentences. Which sentences say that the action is still happening?

- 1 They've been playing basketball since three o'clock.
- 2 We've read books about mountains and oceans.
- 3 I haven't eaten my breakfast.
- 4 Maria and I have been doing our homework for an hour.
- 5 Have you been to the new store yet?
- 6 I've been learning English for four years.

I've been playing outside all day.

I've played tennis before.

F Work with your partner. Take turns stating two facts about you using the present perfect and the present perfect continuous.

Listening

Think What are some reasons that people hunt animals?

A Listen. What is the main idea the speaker wants you to learn about Goliath frogs?  1-05

B Listen again. Then check (✓) the correct box.  1-06

- | | | | | |
|--------------------------------------|--------------------------|--------------------|--------------------------|--------------------|
| 1 Goliath frogs can grow up to ... | <input type="checkbox"/> | 33 meters. | <input type="checkbox"/> | 33 centimeters. |
| 2 They can weigh as much as a ... | <input type="checkbox"/> | baby. | <input type="checkbox"/> | cat. |
| 3 Goliath frogs live in ... | <input type="checkbox"/> | Asia. | <input type="checkbox"/> | Africa. |
| 4 Goliath frogs have existed for ... | <input type="checkbox"/> | 250 million years. | <input type="checkbox"/> | 25 thousand years. |
| 5 People hunt these frogs for ... | <input type="checkbox"/> | food. | <input type="checkbox"/> | their skin. |
| 6 Some people keep Goliath frogs ... | <input type="checkbox"/> | as pets. | <input type="checkbox"/> | as decorations. |

Speaking 1-07

C Learn Talking About an Opinion

When you give an opinion, it's a good idea to give reasons. Use **because**, **I say that because**, or **in my experience**. To ask someone reasons, use **Why do you say that?** or **Why do you think that?**

Work with your partner. Choose a topic and take turns giving and asking about your opinions.

- most interesting animal
- most dangerous animal
- most endangered animal
- most important animal to protect

In my opinion, the most interesting animal is the Goliath frog.

Why do you say that?

I say that because ...

I agree / disagree.
In my opinion, ...

Why do you say that?

I say that because ...

Word Study

D Learn Suffix *-able*

Remember: A suffix is added to the end of a word. The suffix **-able** is sometimes added to a noun or a verb to make it an adjective.

comfort + **able** = comfortable

I enjoy the **comfort** of my home. My home is very **comfortable**.

Listen and say the words. Look them up in the dictionary. Write the words by adding *-able*. If a noun or verb ends in an *e*, cross out the last letter. 1-08 page 192

BIG QUESTION 1 Why do we protect animals?

A Watch the video.

B Think about the Big Question. Talk about it with a partner.

The dodo and his friends were sad because they weren't protected.

What are some ways that we protect animals?

Words

A Listen and say the words. Then read and listen to the sentences.  1:09

diverse identify tracker protect naturalist poaching
damaged conservation preservation inspire population reserve

- 1 Wildlife in the mountains is **diverse**. There are many kinds of animals.
- 2 Can you **identify** the animal in this picture?
- 3 A **tracker** is trained to find animals.
- 4 We need to **protect** our forests so animals can survive there.
- 5 **Naturalists** study living things.
- 6 **Poaching** is illegal. A poacher kills animals.
- 7 When a habitat is **damaged**, animals can't live there.
- 8 **Conservation** of animals' habitats is important for their survival.
- 9 Sanctuaries help the **preservation** of endangered animals.
- 10 The beauty of the mountains often **inspires** artists to paint.
- 11 The **population** of mountain gorillas has recently gone down.
- 12 Animals that are endangered sometimes live in a **reserve**.

B Write the words in the correct columns.

preservation protect tracker conservation identify naturalist inspire

<p>People's Jobs</p> <p>_____</p> <p>_____</p> <p>_____</p>	<p>Good Ideas</p> <p>_____</p> <p>_____</p> <p>_____</p>	<p>Actions</p> <p>_____</p> <p>_____</p> <p>_____</p>
--	---	--

C Work with your partner to complete the sentences.

- 1 The number of animals in a group is the _____.
- 2 When a habitat is _____, animals can't live there.
- 3 A _____ is a place for endangered animals to be safe.
- 4 There are lots of species here. There's a _____ group.

diverse

population

damaged

reserve

Before You Read

Think Answer the questions.

- 1 What do you know about tigers?
- 2 Why do we protect them?

D Learn Monitor and Clarify

Make sure you understand what you're reading.

- **Monitor** your understanding. Good readers re-read sentences they don't understand.
- Read ahead. You can find new clues to help you understand what you're reading.
- Look at the pictures, charts, and diagrams. They may **clarify** what you're reading.

Read the paragraph about sloths. Answer the questions.

Sloths have existed for about 60 million years. They live in the rainforests of South and Central America. They live in trees, where they hang upside down, and they rarely visit the ground. There are several species of sloths. Some have three toes and some have two toes. They mostly eat insects, small birds, and leaves.

- 1 Did you re-read sentences you didn't understand?
- 2 Did you read ahead?
- 3 Did the picture help clarify what you read?

E Words in Context Scan the article on pages 18–19 and circle these words. As you read, try to guess what the words mean.

jungles wildlife hunter injuries mission national park

F Look at the article on pages 18–19.

- 1 How many sections are there? Read the titles.
- 2 Write down two things you think the article is about.

SAVE OUR TIGERS!

In this *article*, you will learn about India, tigers, and a man who helped save tigers.

Part of the article is *biographical*.

A biography gives information and facts about a person.

As you read, monitor your understanding of the article.

**Social Studies:
History**

SAVE OUR TIGERS!

The Foothills of the Himalayas

The Himalayas are the highest range of mountains on Earth. Below this range, there are foothills containing jungles, forests, rivers, and lakes. These hills once provided a home to many **diverse** types of wildlife: tigers, leopards, rhinoceroses, and deer. In the last 75 years, however, many of those animals have disappeared. People have cleared the forests to grow crops, and the animals' habitat has suffered.

Think What part of the world is the article about? Look at the map.

Man-Eaters

Usually, it's humans who scare and kill animals, but it can be the other way around. About a hundred years ago, a few starving tigers and leopards terrified the people who lived in the foothills. Instead of eating other animals, like buffalo and antelopes, some of these big cats started killing and eating people! The cats had names like the Tiger of Chowgarh, the Thak Man-Eater, the Champawat Tigress, and the Panard Leopard.

Jim Corbett

Corbett, the Hunter

As a small boy, Jim Corbett was fascinated by wildlife. He taught himself to identify animals and birds by the sounds they made. Later, Jim became a tracker and hunter. The government asked him to track and shoot the man-eating tigers to protect people.

Between 1907 and 1938, Corbett shot and killed nineteen tigers and fourteen leopards. He did this on foot, sometimes accompanied by his dog, and he took many risks to save people's lives. The first tiger he shot was the Champawat Tiger, a tiger that killed more than 436 people. Jim was a hero!

Corbett, the Naturalist

Jim wondered why the tigers and leopards were killing people. When he examined the cats that he had shot, he made an important discovery. They all had injuries. Some had gunshot wounds from poachers who hunted them illegally. Poaching was common because people could sell tiger skins for decoration and tiger bones for medicine. One tiger had a gunshot wound in its mouth, and its teeth were damaged. It could no longer attack buffalo and antelopes. Other tigers had injuries and infections from porcupine quills getting stuck in their skin. The reason they were eating people was that they couldn't hunt other animals.

Corbett National Park and Corbett's Tiger

After his discoveries, Jim became interested in conservation. He had a new mission: the preservation of tigers. He gave lectures and inspired people to respect wildlife—especially the big cats, which he loved and respected. Two years after he died in 1955, the oldest national park in India got a new name: Corbett National Park. It's a sanctuary for tigers, leopards, and other endangered animals. There's even a species of tiger named after Jim, called Corbett's Tiger. No one is sure what the total population of Corbett's Tigers is, but there may only be 350 worldwide.

Think What do you know about Jim Corbett?

Saving the Tiger

In the early 20th century, there were about 40,000 tigers in India. Now there may be as few as 2,000. But thanks to conservationists like Jim Corbett, there are now more than 35 tiger reserves in India. Saving the tiger means preserving the entire food chain. First, we need to save the tigers' food, and that means protecting deer and other animals. Next, we need to save plants, trees, and grasses so that these animals can eat. By saving the plants, trees, and grasses, we protect our forests and rivers and all the birds, animals, and insects that live there. Very importantly, this means we are saving our water because, as you know, nothing on Earth can live without water.

Understand

Comprehension

Think Talk about “Save Our Tigers!” What did you learn that you didn’t know before? Tell your partner about three things you learned from the article.

A Work in groups. Re-read the article and look at the pictures to help you answer the questions. As you read, monitor your understanding.

- 1 Why are there fewer animals in the foothills today than there used to be?
- 2 Why did Jim Corbett change from a hunter into a conservationist?
- 3 Why is it important to save tigers?

B Match the statements to the headings from the article. Look back at the article if you need to.

- | | | | |
|---|---|---|----------------------------------|
| 1 Many different types of animals used to live in the hills. | ● | ● | a The Foothills of the Himalayas |
| 2 The government wanted to protect people, so it hired a hunter. | ● | ● | b Man-Eaters |
| 3 There are fewer tigers today than there were in the last century. | ● | ● | c Jim Corbett |
| 4 People gave the man-eating tigers names. | ● | ● | d Saving the Tiger |

C **Words in Context** Look again at the words you circled in the article. Write them in the correct sentences.

- 1 Corbett _____ is a sanctuary for tigers and other endangered animals.
- 2 _____ are very hot and humid habitats.
- 3 Jim Corbett was a _____ who became a conservationist.
- 4 The poor tiger died from its _____.
- 5 Jim Corbett’s _____ was to protect tigers from poachers.
- 6 Sharks, rabbits, snakes, and birds are all types of _____.

Grammar in Use

D Listen and read along. Then circle *True* or *False*.  1-11

- 1 Lions live in natural habitats. **True** **False**
- 2 Sonya has a clean bedroom. **True** **False**

E Learn Grammar Review of Tenses

Simple Present Tigers **go** to the river every day.

Present Continuous Tigers **are going** to the river to drink.

Simple Past Tigers **went** to the river yesterday.

Use the **Present Perfect** to:

- talk about things that have happened up to now
People have cleared forests to grow crops.
- say that something happened in the past, but has an effect in the present
The animals' habitat has suffered.
- say that something started in the past, but is still happening now
Tigers have always lived in thick jungles.

Identify and write the correct tense.

- 1 How long have you lived here? _____
- 2 My day is going well. _____
- 3 I went to the park last weekend. _____
- 4 I go to school every day. _____

I have studied English
for five years.

F Talk with your partner. Make statements using the four tenses.

Listening

Think Look at the picture. What do you know about this animal? What do you want to know?

A Listen to the conversation. Circle *True* or *False*. 1-12

- 1 The giant panda is rare.
- 2 The giant panda isn't a member of the bear family.
- 3 There are about 16,000 wild pandas left.
- 4 A panda can weigh 150 kilograms.
- 5 Pandas spend 20 hours a day eating bamboo.
- 6 A panda can eat 37 kilos of bamboo in a day.
- 7 The bamboo pandas eat flowers every 30 to 80 years.
- 8 There are 100 panda reserves in China.

True	False
True	False
True	False
True	False
True	False
True	False
True	False
True	False

B Listen again. Correct the false answers in exercise **A**.
Then compare with a partner. 1-13

Speaking 1-14

C Think of possible answers to these questions. Give reasons using words like *I think it is or was because* and *it might be because*. Ask questions using *who*, *when*, *why*, *what*, *where*, and *how*.

Answer the questions.

- Will tigers survive?
- How did Jim Corbett help tigers?

I think tigers will / won't survive.

Why do you say that?

People will help tigers because ...

I think Jim Corbett ...

How did he ...

I think it's because ...

Word Study

D Learn Synonyms

Adjectives help you write in a more interesting way, but **synonyms** add variety to your vocabulary. Synonyms are words that mean almost the same thing.

Tigers are very **fast**.

You have to be **quick** to catch a rabbit.

Listen, say, and number the words. Then look them up in the dictionary. 1-15

page 192

_____ starving

_____ bright

_____ timid

_____ tale

_____ error

_____ preserve

_____ provide

_____ injure

E Work with your partner. Take turns saying a synonym for each word in D.

Writing Study

F Learn Irregular Past Verbs

Some verbs in the past are **irregular**. They don't follow the usual pattern.

Present	Past	
catch	caught	She caught a cold.
give	gave	He gave me a gift.

Complete the sentences with the correct verb forms.

feel	hear	leave	sell	stand
felt	heard	left	sold	stood

- 1 Suddenly, I was all alone. When I saw the lion in the woods, I _____ scared.
- 2 The animals were struggling. The zebras couldn't find any water, so they _____.
- 3 Our class wants a tour. Does the animal sanctuary _____ tickets for tours?
- 4 The buffalo began to run. The tracker _____ up and walked toward the buffalo.
- 5 The animals in the jungle make lots of noise. I can _____ the tigers roaring.

Write Now practice writing in the **Workbook**. page 17

Wrap Up

Writing

A Read the persuasive e-mail.

From: Nidia Romero

To: Amazon Bird Sanctuary

Subject: Please Save Golden Parakeets!

Salutation — Dear Bird Sanctuary,

Body — I'm writing to you about golden parakeets. They belong in your bird sanctuary. They need your help because they're endangered. These beautiful birds live in the rainforests in northern Brazil. Naturalists say that there are only about two thousand golden parakeets still alive!

Golden parakeets have become endangered because people have been destroying the rainforests. When the birds' habitats are damaged, they can't live there. Since these parakeets are so beautiful, people also want them as pets. Many birds are captured and sold in pet markets.

I know that the dodo and elephant bird populations became extinct. It would be terrible for golden parakeets to become extinct, too. If they lived in your sanctuary, they would have a better chance of surviving because their habitat would be safe and people couldn't have them as pets.

Closing — Best wishes,

Signature — Nidia

B Answer the questions.

- 1 How does the writer open and close the e-mail?
- 2 What statements does the writer make at the beginning of the first paragraph?
- 3 How does the writer organize the information in the e-mail?

C Learn Writing a Persuasive E-mail

- Start your e-mail with a salutation.
- Make a clear statement in your first paragraph.
- Organize the information so that the reader knows why you're writing. Give reasons for writing and explain what you want the reader to do.
- End your e-mail with a closing.

Write Now go to the **Workbook** to plan and write your own e-mail. page 19

D Present your e-mail to the class.

- 1 Tell the class who you decided to write to.
- 2 Tell why you chose this person.
- 3 Explain what it is you want to persuade this person to do.
- 4 Read your e-mail to the class.
- 5 Remember to read your e-mail with expression. Try to persuade your classmates.
- 6 Use gestures to help make your point.

I wrote to the manager at my local zoo. I want her to make bigger spaces for the elephants.

BIG QUESTION 1

Why do we protect animals?

- A Watch the video. What endangered animals do you see?
- B What are some answers to the Big Question? Talk about them with your partner.
- C Complete the **Big Question Chart**. Then discuss it with the class.

A template for a 'Big Question Chart' with the title 'Why do we protect animals?'. The chart is divided into three columns. The first column is labeled 'What do you know?' and has a yellow smiley face icon. The second column is labeled 'What do you want to know?' and has a red gear icon. The third column is labeled 'What did you learn?' and has a green leaf icon. Each column contains several horizontal lines for writing.

BIG QUESTION 2

What are teeth for?

In these units you will:

WATCH
a video
about
teeth.

READ
about teeth
in humans
and
animals.

PRESENT
your report
to the
class.

LEARN
about how
teeth are
used.

WRITE
a report
about
teeth.

- A** Watch the video. Then talk about it with your partner. 
- B** Look at the picture and discuss it with your class.
- 1 What is the family doing?
 - 2 How are they using their teeth?
- C** Think and answer the questions.
- 1 How many teeth do humans have?
 - 2 What do you use your teeth for?
 - 3 How do animals use their teeth?
 - 4 What animals have sharp teeth?
- D** Discuss this topic with your class. Fill out the **Big Question Chart**.

Big Question Chart

Words

A Listen and say the words. Then read and listen to the sentences.  1-16

incisor

canine

molar

carnivore

herbivore

omnivore

slice

grip

crush

cavity

gums

jaw

- 1 Humans have eight **incisor** teeth in their mouths.
- 2 **Canine** teeth are good for ripping food apart.
- 3 **Molars** are useful for grinding the food that we eat.
- 4 Lions, tigers, and leopards are all **carnivores**.
- 5 Cows, rabbits, and sheep are all **herbivores**.
- 6 Many people are **omnivores**. They eat meat, vegetables, and fruit.
- 7 Use that sharp knife to **slice** through the tomatoes.
- 8 You can **grip** things with your hands and your teeth.
- 9 Let's **crush** some ice for our sodas.
- 10 Ouch! I think I have a **cavity** in my tooth!
- 11 It's important to keep your **gums** and teeth healthy.
- 12 When the lion roared, I saw its huge **jaws** open wide.

B Look at the picture and number the words.

- _____ jaw
- _____ canine
- _____ incisor
- _____ molar
- _____ gums
- _____ cavity

C Work with your partner to complete the sentences.

crush omnivores herbivores slice grip carnivores

- | | |
|-------------------------------|---|
| 1 _____ eat meat. | 4 _____ the hard candy into small bits. |
| 2 _____ eat plants. | 5 Knives are used to _____ apples. |
| 3 It's hard to _____ a snake. | 6 _____ eat meat and vegetables. |

Before You Read

Think Answer the questions.

- 1 When did you last go to the dentist?
- 2 Why did you go?
- 3 How did you feel?

D Learn Looking for Sensory Details

When you read, look for details that tell about the senses. Ask yourself what the character is seeing, smelling, hearing, feeling, or tasting.

Read the passage. What details do you notice about the five senses? Fill in the chart.

Mimo stepped into the dark garden. He could barely see a thing, but he felt a cold, sharp wind brush the side of his face. There was something strange in the night air. It smelled like a peach or maybe a mango. Mimo wondered if it was coming from the trees nearby, since he could hear a faint movement of leaves around him. All of a sudden, there was a cracking noise, like someone stepping on a dry tree branch. Mimo was scared. He pulled his jacket tight around him and walked on very quickly.

Hearing	Smell	Feeling	Sight

E Words in Context Scan the poems on pages 30–31 and circle these words. As you read, try to guess what the words mean.

detective dental gravity filling treat munch

F Look at the poem on page 30 and read the first stanza. What do you think the poem is about?

“The Cavity” and “Have You Any Idea?”

In these poems, you’ll read about a boy who goes to the dentist and three different types of animals. Poetry is written in lines or stanzas, not in paragraphs like a story. It often rhymes and has a rhythm. As you read, look for details that tell you what the characters are sensing.

The Cavity

It started late one night.
I felt a nasty ache
Just after a big bite
Of yummy chocolate cake.

"It's dentist time for you,"
Dad told me the next day.
And since I couldn't chew,
I said, "I guess, OK."

My **canines** are bright white
Like tigers' teeth, I'd say.
I scrub my **gums** noon and night
And at the break of day!

My **molars** are all shiny.
I brush them hard and long!
Maybe the hole is tiny.
Maybe Dad is wrong.

I sat in the big chair.
My **jaws** were open wide.
I told the dentist where
I had a pain inside.

Is my tooth defective?
Dear dentist, please explain!
You are the great detective
Who cures all dental pain.

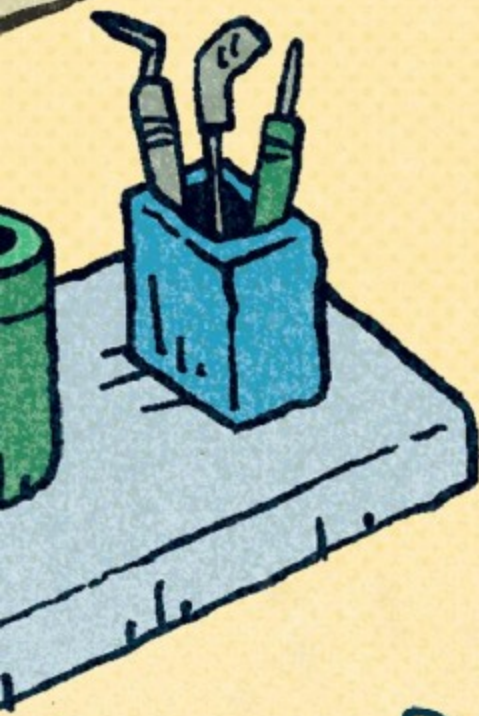

He said I had a **cavity**
Right inside my tooth.
He said so with such gravity
It had to be the truth!

"Is it in my **incisor**?"
I asked him with a smile.
I should have been much wiser
And kept quiet for a while.

"You'll need a little filling,"
The dentist softly said,
And then he started drilling
Right inside my head!

I heard a funny buzz,
Like an angry bee,
But that's what the drill does.
It didn't worry me!

And when the hole was filled,
I jumped down off the chair,
For I was really thrilled
To get right out of there!

Think How does the boy in the poem feel? Have you ever felt like that?

Have You Any Idea?

Have you any idea
What the **carnivore** saw
Scurrying through the trees?
A snack, a snack, a snack, a snack
That's tastier than cheese!

Have you any idea
What the carnivore did
When it **gripped** its prey?
Attack, attack, attack, attack
Before the prey could stray!

"I have canine teeth, you see, dear prey,
And they will tear you up!"

Have you any idea
What the **herbivore** saw
Growing towards the sun?
A treat, a treat, a treat, a treat,
Big and green and fun!

Have you any idea
What the herbivore said
When it saw the grass?
"No meat, no meat, no meat, no meat,
Just grass that is first class!"

"I have incisor teeth, you see, dear grass,
And they will **slice** you up!"

Have you any idea
What the **omnivore** saw
Reaching up to the skies?
A lunch, a lunch, a lunch, a lunch,
A mountain of tasty pies!

Have you any idea
What the omnivore said
When it saw all kinds of food?
"I'll munch, I'll munch, I'll munch, I'll munch
Because I'm in the mood!"

"I have molar teeth, you see, dear food,
And they will **crush** you up!"

Understand

Comprehension

Think Which poem did you like more? Tell a partner about three things you liked.

A What sensory details are in the poems? Fill in the chart.

Hearing	Smell	Feeling	Sight	Taste

B Answer the questions.

“The Cavity”

- 1 Which teeth does the boy talk about?
- 2 Does the boy brush his teeth regularly?
- 3 What does the dentist say the boy needs?
- 4 Is the boy happy at the end of the poem?

“Have You Any Idea?”

- 5 Who has to chase food?
omnivore herbivore carnivore
- 6 Who finds food growing?
herbivore omnivore carnivore
- 7 Who eats all types of food?
carnivore herbivore omnivore

C **Words in Context** Look again at the words you circled in the poems. Then use them to complete the sentences.

- 1 Police Captain Marcos was world-famous for being a very clever _____.
- 2 He ate a tasty _____ at the party held at his police station.
- 3 Unfortunately, he woke up with terrible _____ pain.
- 4 One of his molars was hurting so badly he couldn't _____ on anything.
- 5 “The _____ of this situation is clear,” said the dentist.
- 6 “You have a large cavity, so you’ll need a _____.” Captain Marcos did not feel very clever that day!

Grammar in Use

D Listen and read along. Then circle the correct answer.  1-18

Did Finn ride a bike when he was 9?

Yes No

E  **Learn Grammar** Modals of Ability

Remember: Use **could** and **couldn't** to say that you did or didn't know how to do something in the past.

I **could** read by the time I was four.

I **couldn't** chew after I got a cavity.

The future of **can** / **can't** is **will** / **won't be able to**.

Next year, I **will be able to** ride my bike to school. I **won't be able to** drive a car.

Match the sentence halves.

- | | | | |
|------------------------|---|---|--------------------------------------|
| 1 Next year, I'll | ● | ● | a couldn't ride a bike. |
| 2 We won't be | ● | ● | b can speak Spanish and English. |
| 3 Could you | ● | ● | c able to go to the party tomorrow. |
| 4 Last year, my sister | ● | ● | d use a computer when you were 4? |
| 5 Right now, I | ● | ● | e be able to join the baseball team. |

Ten years ago, I could crawl, but I couldn't walk.

F Look at the times. Talk with your partner about what you could or couldn't do in the past and what you will be able to do in the future.

Past: ten years ago five years ago a year ago

Future: five years from now ten years from now

Listening

Think Why is following instructions important?

A Learn Listening for Instructions

When you listen, listen for instructions. Instructions are things people tell you to do, usually to help you do something better.

Listen. What kind of instructions is the woman giving? 1-19

B Listen again. Then number the steps in the correct order. 1-20

- _____ Brush the chewing surfaces of your teeth.
- _____ Squeeze out a pea-sized bit of toothpaste.
- _____ Brush the outside surfaces of your teeth.
- _____ Brush the inside surfaces of your teeth.

Speaking 1-21

C Think about these questions. Then discuss them with a partner.

- Is it important to take care of your teeth?
- Why is it important to go to the dentist?
- What could happen if you don't take care of your teeth?

Word Study

D Learn Prefix *in-*

Remember: A prefix is added to the beginning of a word. It changes the meaning of the word. The prefix **in-** means “not” and makes an opposite.

If your brushing is **inadequate**, you could get a cavity.

Listen and say the words. Write the opposites by adding *in-*.  1-22 

- 1 visible _____
- 2 complete _____
- 3 accurate _____
- 4 credible _____

E Work with your partner. Write a sentence for each word in D and its opposite.

Writing Study

F Learn Adjective + Preposition

Some adjectives always have a preposition after them.

I'm **interested in** sports.

He's **afraid of** heights.

Are you **good at** math?

Write sentences about you.

- 1 I'm bad at _____.
- 2 I'm excited about _____.
- 3 I'm careful with _____.
- 4 I'm interested in _____.

 **Write** Now practice writing in the **Workbook**.  page 29

BIG QUESTION 2 What are teeth for?

- A Watch the video. 
- B Think about the Big Question. Talk about it with a partner.

Animals use their teeth to attack and to eat.

What are some other uses for teeth?

Words

A Listen and say the words. Then read and listen to the sentences.  1-23

fang

tusk

venom

shelter

dam

prey

gnaw

pierce

fend off

wear down

lap up

create

- 1 The cobra has huge **fangs** in its mouth.
- 2 Both elephants and walrus have **tusks**.
- 3 Be careful! Many snakes carry **venom** in their fangs.
- 4 The hikers built a **shelter** in the woods.
- 5 A **dam** across a river stops water from flowing.
- 6 The lion caught its **prey**, an antelope.
- 7 A mouse **gnawed** through our telephone wire!
- 8 **Pierce** the potatoes before you bake them.
- 9 Some animals **fend off** predators by making noise.
- 10 My sneakers were **worn down** from all the walking.
- 11 The cat **lapped up** the milk.
- 12 I like to **create** pictures and poems.

B Circle the one that doesn't belong.

- | | | | |
|----------|---------|---------|-----------|
| 1 tooth | fang | tusk | lip |
| 2 home | yard | shelter | house |
| 3 gnaw | nibble | chew | drink |
| 4 attack | exhaust | tire | wear down |

C Circle *True* or *False*.

- 1 You can lap up water, but not bread.
- 2 All animals carry venom.
- 3 You can create a song, a story, and a painting.
- 4 A dam allows water to flow quickly down the river.
- 5 *Fend off* means "to scare away a predator."
- 6 Being prey is a good thing.
- 7 Snakes use fangs to pierce their prey.

True	False
True	False
True	False
True	False
True	False
True	False

Before You Read

Think Answer the questions.

- 1 Do all animals have the same kinds of teeth?
- 2 What kinds of teeth do carnivores need?
- 3 What kind of teeth do snakes have?

D Learn Using Visuals

Visuals can help you understand the meaning of what you're reading, especially in nonfiction texts. When you read, remember to look at any pictures, graphics, diagrams, or other visuals. Think about how each visual relates to what you're reading. Be sure to read any captions, too.

Read the paragraph and look at the diagram. Talk with your classmates about how the visual helps you understand the text.

A Horse's Mouth

A horse has two sets of teeth in its lifetime, just like you do. It loses its baby teeth during the first few years of its life, and then it gets a permanent set.

Unlike you, a horse has 40 teeth (you have 32). They have 24 premolars and molars to grind down food, 12 incisors for tearing grass, and 4 canines.

E Words in Context Scan the text on pages 38–39 and circle these words. As you read, try to guess what the words mean.

powerful intruders supply seal toppling lodge

F Look at the visuals on pages 38–39. What animals will you learn about in the text?

TEETH: Not Just for Eating

In this *informational text*, you'll discover what various animals use their teeth for. Informational texts include facts and are often used in schoolbooks, magazines, and on the Internet. As you read, use the visuals to understand the text.

Life Science

Author Amy Fernando wrote this science article for *Boys' Quest* magazine.

Teeth:

Not Just for Eating

By Amy Fernando

What are teeth used for? “That’s easy,” you say. “Teeth are for eating.” You’re partially right. For people, that’s the purpose of teeth: biting off and chewing food (and occasionally ripping into that package of cookies). For animals, teeth are good for more than just eating. They might be used for fighting, communicating, or even building a home.

Some animals have a continuous supply of teeth. The shark has two sets of teeth, so a missing tooth is automatically replaced. Many reptiles, like lizards, also have a constant supply of new teeth replacing the old ones.

Many animals use their teeth to battle. Walruses have two ivory teeth called **tusks** that can grow up to almost a meter long. Male walruses fight each other over females, and the one with the longest tusks usually wins. Elephants also have tusks, though theirs can grow to be over three meters long! They use them to protect mates and young, even **fending off** lions if necessary.

Think Look at the pictures to help you understand the text.

Other animals may attack **prey** with their teeth. Alligators and crocodiles don’t use their teeth to chew, but to seize prey, which they swallow whole. They may lose teeth, but backups are waiting to move up and fill the empty spots.

Some animals have sharp front teeth called **fangs**, which kill. A poisonous snake can push **venom** through its fangs, leaving its victim helpless. Vampire bats use fangs to **pierce** holes in their prey's fur and skin. Then they **lap up** the blood (their food) with their tongues. Hyenas' small teeth are set in powerful jaws that can crush the bones of a much larger animal.

Some animals use their teeth to send a message. Horses show teeth to express different feelings. They might talk tough, welcome others, or show respect. Porcupines click their teeth to warn others to stay away, while hippos yawn to threaten. Baboons scream and show a mouth full of huge, pointed teeth to both frighten intruders and make their young behave. Angry bison grind their teeth, making a squeaky sound. Stay away!

A few animals use their teeth to supply **shelter**. Naked mole rats use four razor-sharp teeth to dig tunnels, which serve as a home. (Their lips seal behind their teeth so that soil doesn't enter their mouths.) Their teeth are constantly growing, but **wear down** as the top and bottom teeth scrape together while digging through hard soil. Beavers also have four front teeth that continually grow. These teeth wear down from **gnawing** through trees. After toppling a tree, beavers use their teeth to drag logs to the water. They use these logs to build a home, or lodge, and also to **create** a **dam**, which protects the lodge.

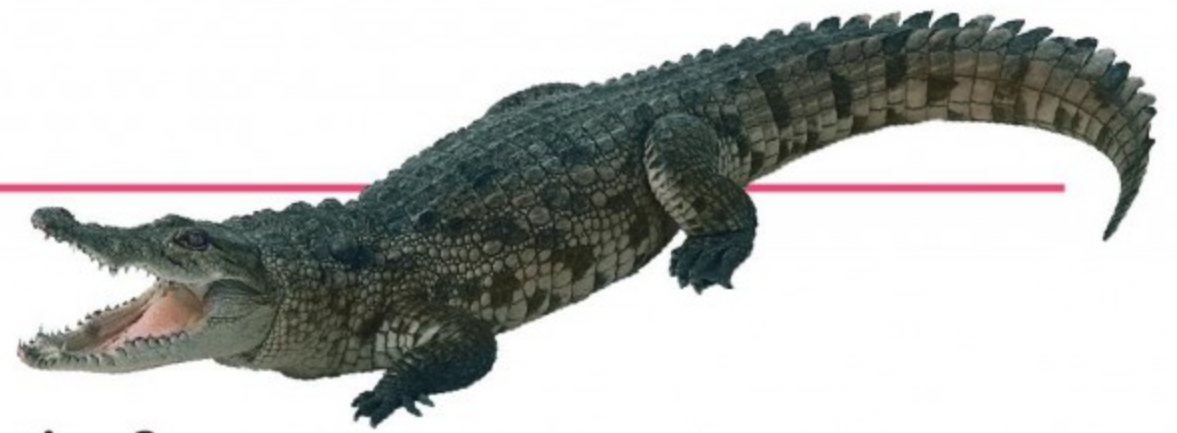

Some animals also use their teeth to groom, or clean, themselves. For example, there is a group of animals called *prosimians*, which means "before the monkeys." They're monkey-like creatures, but they aren't monkeys. There are about 50 animals in this group, including lemurs, aye-ayes, and lorises. The type of teeth and the way they use them tell us that they must be prosimians. Almost all prosimians have comb-like lower front teeth that they use to clean the fur on their bodies.

Think Have the pictures helped you understand the text?

So, as you can see, teeth are not only used for eating. They're also useful for building shelters, digging holes, warning off predators, catching and killing prey, fighting, and keeping clean!

Understand

Comprehension

Think Tell your partner about three new things you learned about how animals use their teeth. Which animal's teeth do you think are the most interesting?

A Write three sentences describing the ways the visuals helped you to understand the text. Then compare your sentences with your partner's.

B Circle *T* (True) or *F* (False).

- | | | |
|--|----------|----------|
| 1 Sharks and lizards have teeth that replace themselves. | T | F |
| 2 Walruses have fangs. | T | F |
| 3 Alligators and crocodiles use their teeth to catch prey. | T | F |
| 4 Some snakes have venom in their fangs to kill prey. | T | F |
| 5 Horses use their teeth to kill other animals. | T | F |
| 6 Beavers topple trees with their teeth. | T | F |

C **Words in Context** Look again at the words you circled in the text. Match the sentence halves.

- | | | | |
|--------------------------------------|---|---|--|
| 1 Unlike humans, some animals have a | ● | ● | a the bag before you put it away. |
| 2 In the storm, we saw a tree | ● | ● | b continuous supply of teeth. |
| 3 My friends stayed at a | ● | ● | c "Intruders stay away!" |
| 4 The notice said, | ● | ● | d powerful jaws that can crush bones. |
| 5 Hyenas have very | ● | ● | e lodge in the mountains. |
| 6 Please seal | ● | ● | f topple over in the wind. |

Grammar in Use

D Listen and read along. Then circle the correct answer.  1-25

- 1 Charlie thinks it's a giraffe because it has **a long neck** / **spots**.
- 2 Sonya thinks it isn't an ostrich because it doesn't have **stripes** / **feathers**.

E Learn Grammar Modals of Certainty

Use **must** or **has to** to say you're sure that something is true.

It must be a prosimian. **It has comb-like lower teeth.**

It has to be a spider. **It has eight legs.**

Use **can't** to say you're sure that something isn't true.

That can't be a spider! **It only has four legs.**

Use **might** if you're not sure that something is true.

It might be a spider, but **I'm not sure.** **I can't see how many legs it has.**

Read the descriptions. Write what you think each animal must be.

- 1 It's big and gray, with long tusks and a trunk.

- 2 It has long, poisonous fangs.

- 3 This type of animal uses its teeth for grooming.

- 4 This animal clicks its teeth as a warning.

F Take turns describing an animal. Guess what animal it is. Use *might*, *has to*, *must*, and *can't*.

Listening

Think What do you think this whale eats?

- A** Listen to the conversation. Are killer whales carnivores or omnivores?  1-26
- B** Listen again and circle the correct answer. There may be more than one correct answer.  1-27

- 1 Killer whales are _____
 - a the biggest predators of warm-blooded animals.
 - b the top predators in the ocean.
 - c the biggest predators of cold-blooded animals.
 - d the largest mammals on Earth.
- 2 Killer whales eat _____
 - a seaweed.
 - b fish.
 - c seals, sea lions, and walruses.
 - d pods.
- 3 Killer whales hunt _____
 - a alone.
 - b in pairs.
 - c in groups.
 - d with other killer whales.
- 4 Killer whales have _____
 - a small teeth.
 - b large teeth.
 - c over 40 teeth.
 - d bad teeth.

Speaking 1-28

C Learn Comparing Things

Compare things using comparative adjectives + **than**.

I think killer whales are **more dangerous than** dolphins because dolphins don't hurt people.

Work with a partner. Think of animals you've learned about in this module and compare them.

- Which is more dangerous?
- Which is more interesting?

I think beavers are more interesting than walruses because they build homes.

I believe snakes are more dangerous than lions because ...

I believe alligators are faster eaters than ...

I think baboons are ... than ...

Word Study

D Learn Suffix *-ment*

The suffix **-ment** is sometimes added to a verb to make it a noun.

achieve + **ment** = achievement

I have no cavities! That's quite an **achievement**.

Listen and say the words. Write the words, adding *-ment*.  1-29 

1 assess

2 treat

3 improve

4 agree

5 encourage

6 govern

7 measure

8 punish

E Work with your partner. Use each verb in D in a sentence. Then use each noun you made by adding *-ment*.

Writing Study

F Learn Parallel Structure with *-ing*

Use the same pattern of words to show that two or more ideas are equally important.

Wei enjoys **playing**, **singing**, and **acting**.

Write sentences about you.

1 I like _____, _____, and _____.

2 I sometimes go _____, _____, and _____.

3 I don't like _____ or _____.

4 In school, I like _____, _____, and _____.

5 _____, _____, and _____ are my favorite foods.

 **Write** Now practice writing in the **Workbook**. 

Writing

A Read the report.

Title — **A Day in the Life of a Tiger's Teeth**

Introduction — The tiger is a carnivore from the cat family. It hunts other animals for food. The tiger only eats animals that it has caught by itself. It has a very wide mouth with big jaws and strong teeth. Besides catching prey with its teeth, it also carries its cubs (baby tigers) around in its mouth. It does that very gently so that the cubs don't get hurt.

Heading — **1. Canines**

The tiger has large canines. The tiger's upper canines are the largest of all the big cats, like lions and leopards. They're up to 6 centimeters in length, or the size of a man's finger! The tiger uses these sharp, pointed teeth to bite and kill its prey.

Illustration —

Caption — **A Tiger's Mouth**

2. Incisors

Incisors are strong enough to cut through tough skin. These are the smaller, sharp teeth that the tiger uses to seize its prey and to tear flesh from bones.

3. Molars

The molars are the teeth that grind up the food. They chop up the food to make it easier to swallow.

Unlike the lion, the tiger only hunts at night. During the day, it sleeps. Tigers need strong, healthy teeth to catch and eat their prey.

B Answer the questions.

- 1 How does the writer start the report?
- 2 What visual does the writer use to help us understand the report?
- 3 How does the writer organize the information?

C Learn Writing a Report

- Include a good title to get people interested.
- Start your report by giving some background information about the topic.
- Use visuals (pictures or diagrams) to help show the information in your report.
- Organize your report into sections with headings so it's easier to understand.

Write Now go to the **Workbook** to plan and write your own report. page 39

D Present your report to the class.

- 1 Explain what your topic is and why you chose it.
- 2 Tell the class what you find most interesting about your topic.
- 3 Read your report to the class.
- 4 If you've included an illustration to go along with your report, show it to the class.

I chose to write about a day in the life of our teeth.

BIG QUESTION 2

What are teeth for?

- A Watch the video. What kinds of teeth do you see?
- B What are some answers to the Big Question? Talk about them with your partner.
- C Complete the **Big Question Chart**. Then discuss it with the class.

What do you know?	What do you want to know?	What did you learn?

BIG QUESTION 3

Why are wheels important?

In these units you will:

WATCH
a video about wheels.

READ
about wheels throughout history.

PRESENT
your essay to the class.

LEARN
about the many uses for wheels.

WRITE
an opinion essay.

- A** Watch the video. Then talk about it with your partner. ▶
- B** Look at the picture and discuss it with your class.
- 1 What wheels do you see in the picture?
 - 2 How would this picture be different if there were no wheels in our lives?
- C** Think and answer the questions.
- 1 What is a wheel?
 - 2 What things have wheels?
 - 3 What wheels do you use?
 - 4 What wheels do people use just for fun?
- D** Discuss this topic with your class. Fill out the **Big Question Chart**.

Big Question Chart

Why are wheels important?

What do you know?	What do you want to know?	What did you learn?

Words

A Listen and say the words. Then read and listen to the sentences.  1-30

transportation

transfer

haul

axle

rotate

spoke

rim

traction

gear

grind

technology

rod

- 1 Cars, trains, and planes are forms of **transportation**.
- 2 The bus broke down, so we **transferred** to another one.
- 3 People can **haul** goods with carts and horses.
- 4 Wheels on cars are connected by **axles**.
- 5 The Earth **rotates** around the sun.
- 6 The **spokes** on my bicycle wheels are made of thin metal.
- 7 The **rim** is the outer part of a wheel.
- 8 Our car lost **traction** when we drove on the ice.
- 9 **Gears** work with the chain on my bike to make it go.
- 10 You have to **grind** coffee beans before making coffee.
- 11 Computers and MP3 players are types of **technology**.
- 12 We used metal **rods** to hold up the tent.

B Look at the pictures and number the words.

- _____ axle
- _____ spoke
- _____ rim
- _____ rod
- _____ gear

C Write the words in the correct columns.

transportation haul traction technology grind rotate transfer

Verbs	Nouns

Before You Read

Think Answer the questions.

- 1 How long ago do you think the wheel was invented?
- 2 Why do you think it was invented?

D Learn Re-reading

As you read, stop and think about what you just read. Did you understand it? If you did, keep reading. If you didn't, take your time. Go back and read it again.

Read the passage. Re-read anything you don't understand.
Write notes in your notebook identifying the sections you re-read.

The London Eye

The London Eye is a giant Ferris wheel that was built in the year 2000. In 1993, a newspaper, *The Sunday Times*, organized a competition to see who could design the best monument to celebrate the turn of the century. A company called Marks Barfield won the competition with its design for the London Eye. The company noticed that there weren't many places in London where people could see the skyline, and that's why they created this gigantic monument. Since it was built, over 60 million people have ridden on it and seen amazing views of the city.

Talk with your partner. What sections did you re-read? Use your notes.

E Words in Context Scan the text on pages 50–51 and circle these words. As you read, try to guess what the words mean.

platform vehicle durable mill mechanical inspiring

F Look at the pictures on pages 50–51. What things with wheels do you recognize?

A Revolution in History

In this *informational text*, you'll learn how the wheel was invented and developed over time. Informational texts present facts about a subject. You can find them in books, magazines, and on the Internet. As you read, remember to re-read anything you don't understand.

Social Studies: History

Elizabeth Cody Kimmel is an award-winning author of over 30 books for children. She lives in a quiet, pretty town near New York City.

A Revolution in History

What would your world be like without wheels? Think of all the things you do every day that use a wheel or wheels. Wheels help you get to many places where you want to go. But did you know that we depend on wheels for much more than just

transportation? We need wheels for the presses that print our magazines and books. We need them for the washers and driers that clean our clothes, the mills that make flour for our bread. And of course, we need them to have fun on skateboards and roller coasters. The oldest wheels that we know about are potter's wheels. A potter's wheel looks like a small, round table without legs. To make a pot, a piece of clay is placed on the center of the wheel. The potter rotates the wheel while the clay is shaped. Potter's wheels make it easier and faster to shape the round objects that you use every day, such as bowls, plates, and vases.

Before the invention of the wheel, it was difficult to transport heavy things, such as building stones. These stones had to be hauled on a platform. The platform was rolled forward on top of logs. It was hard work, and it took a long time. However, about 5,000 years ago, someone living in Sumer, which is the place we now call southern Iraq, had a great idea. What if pegs were used to hold the rolling logs in place? And what if wooden disks were fastened to the end of each log to make them stronger? That way, animals such as oxen could easily pull a heavy load on the new wheeled cart. Today, we call this a wheel and axle system, and it works really well.

The first wheel and axle system was invented in Sumer.

Think Do you understand everything? If not, re-read the paragraphs you aren't sure about.

Early wheels were made out of solid disks of wood. They were heavy and didn't turn fast. Then the Egyptians found a solution to this problem by making ring-shaped wheels, which were lighter and turned faster. They discovered that adding metal to the **rim** made the wheel more durable and gave it better **traction**. They attached straight **rods** called **spokes** to the center of the wheel to make it strong. These new wheels were used in light horse-drawn carts called *chariots*. Chariots were like the first cars. People used them to get around, but they also became popular for racing.

The wheel didn't just change the way people got from place to place. In Syria and Asia, people started using the running water of a river to turn large water wheels. When the wheel turned, it created the power to operate a simple machine called a *mill*. A water mill could **grind** wheat into flour much faster than a person could. This invention means that millions of loaves of bread are made all around the world every single day!

In time, wheels became lighter and more durable.

Lots of machines of every size and shape, from watches to printing presses, wouldn't work without wheels. Many machines depend on small wheels that fit together, called **gears**. This is great because when one wheel turns, the next wheel turns. The energy is **transferred** from one gear to another. That is the same mechanical movement that keeps a watch ticking, a car engine running, a bicycle's wheels turning, and a press printing.

Think Do you understand everything? If not, re-read the paragraphs you aren't sure about.

Even today, the wheel is still inspiring new **technology**. Did you know that there's an electric unicycle and an automatic suitcase that will move by itself? There's even a new metal wheel that is designed especially for vehicles that are going to explore the surface of the planet Mars. Wheels will always be a central part of life, and the need for them is going to grow as long as humans think, invent, and change.

Today, we use wheels of all shapes and sizes. Wheels continue to make our lives easier.

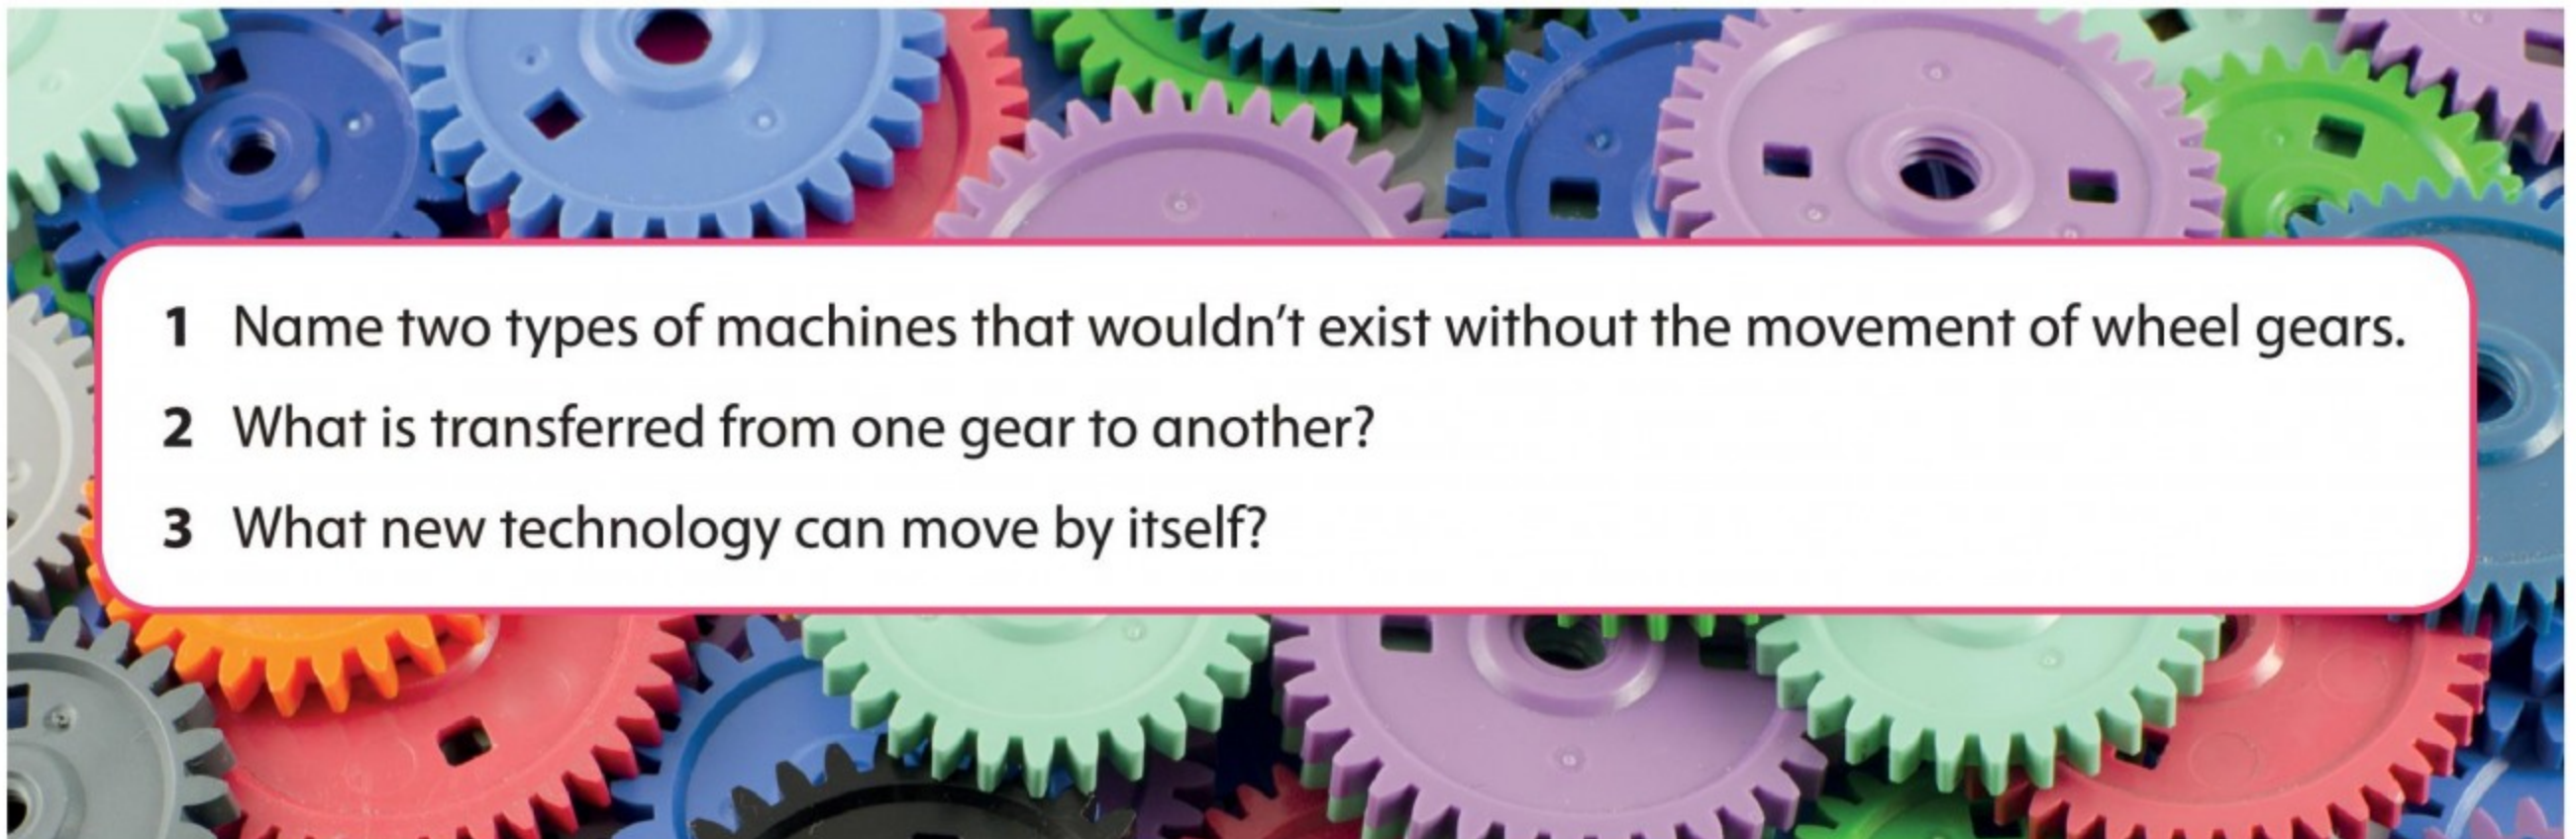

Understand

Comprehension

Think Talk with your partner about three new things you learned from “A Revolution in History.” What did you already know?

A Re-read the last two paragraphs on page 51. Answer the questions.

- 1 Name two types of machines that wouldn't exist without the movement of wheel gears.
- 2 What is transferred from one gear to another?
- 3 What new technology can move by itself?

B Read the questions and discuss them in small groups. Compare your answers with the other groups.

- 1 What does a potter's wheel do?
- 2 Where was a wheel first attached to an axle?
- 3 What change did the Egyptians make to the wheel?
- 4 How were wheels used in a mill?
- 5 What is the most important use of wheels? Give your reasons.

C Words in Context Look again at the words you circled in the text. Then write them in the correct sentences.

- 1 Many people think the London Eye is an _____ sight!
- 2 Metal is a very _____ type of material.
- 3 A _____ is used to transport things from one place to another.
- 4 The train stopped because of a _____ problem.
- 5 You can grind pepper with a pepper _____.
- 6 The principal stood on a _____ and spoke to the whole school.

Grammar in Use

D Listen and read along. Then circle the correct answer.  1-32

Who do you think wins the race? **a** Finn **b** Charlie

E  **Learn Grammar** Future with *Will* and *Going To*

Use **will** to talk about facts in the future or to make predictions about things you believe will be true.

Future fact: The sun **will rise** at 6:05 tomorrow.

Prediction about belief: Wheels **will always be** a central part of life.

Use **going to** to talk about future plans or to make predictions about things you see.

Future plan: I'm **going to visit** my uncle next week.

Prediction about what you see: Look at those big, black clouds. It's **going to rain**.

Read the sentences. Write *prediction (seen)*, *prediction (belief)*, *future fact*, or *future plan*.

- 1 Vacation will begin on July 3 and end on September 1. _____
- 2 It's very windy. There's going to be a big storm tonight. _____
- 3 He's going to travel to Spain this summer. _____
- 4 Someone will find a cure for cancer someday. _____

F Choose a topic and discuss it with your partner. Use *will* and *going to* to talk about the future.

vacation	university	weather
technology	jobs	age

I'll be 21 in ten years.

I'm going to be a doctor one day.

Listening

Think What type of wheel do you think is the most important?

A Listen to someone speak about the printing press. Then check (✓) the main idea.  1-33

- Books used to be copied by hand.
- Rollers spread ink over paper.
- There would be no books and no education without wheels.
- The printing press gave us cheap books.
- The printing press is a machine that prints books.

B Listen again. Then tell your partner two facts you heard while you were listening.  1-34

Speaking 1-35

C Plan two trips with your partner. Talk about where you are going and how you will get there.

- school trip
- another country
- the beach

- car
- bicycle
- airplane
- train
- bus

Boy 1: We're going to France. First, we'll take the bus to the airport.

Boy 2: Then we'll take ...

Boy 1: Our class is taking a school trip. First, we'll ...

Boy 2: Then we'll take ...

Boy 1: To go to the beach, we should first ...

Boy 2: Then we can ...

Word Study

D Learn Compound Nouns

Make compound nouns by putting two nouns together.

skate + board = **skateboard**

Without wheels, there would be no **skateboards**.

Listen and say the words. Then match the words to make compound nouns. 1-36

1 space 2 wheel 3 hand 4 day 5 ear 6 door 7 suit 8 foot

a chair b writing c time d ship e print f case g bell h ring

E Work with your partner. Make a list of the compound words you matched in D. Then find five other compound nouns to add to your list. Try words with *snow*, *sun*, *rain*, and *star*.

Writing Study

F Learn Verb + Infinitive

Some verbs have an infinitive after them. An infinitive is a verb with **to** in front of it.

I agreed **to go** with him.

We decided **to watch** a movie.

He hopes **to travel** abroad one day.

He wanted **to learn** about history.

Complete the sentences with your own ideas. Use an infinitive after the verb.

- 1 I decided _____.
- 2 I promise _____.
- 3 I hope _____.
- 4 I plan _____.

Write Now practice writing in the **Workbook**. [page 49](#)

BIG QUESTION 3 Why are wheels important?

A Watch the video.

B Think about the Big Question. Talk about it with a partner.

How was life changed by the wheel?

The wheel made transporting things much easier.

Words

A Listen and say the words. Then read and listen to the sentences.  1-37

obedient

fortunate

tedious

exciting

fragile

determined

daring

foolish

thrilling

courageous

risky

fascinated

- 1 Kiko is **obedient**. He always listens to his parents.
- 2 I'm very **fortunate**. My family and friends are great.
- 3 This game is **tedious**! Let's play a less boring game.
- 4 Action movies are always **exciting**.
- 5 Do you think it's safe to cross the bridge? It looks **fragile**.
- 6 Joey was **determined** to pass the test, so he studied hard.
- 7 My brother is **daring**. He'll try anything!
- 8 Mom thinks I'm **foolish** for wearing T-shirts in the winter.
- 9 The roller coaster ride was **thrilling**!
- 10 You have to be **courageous** to be a firefighter.
- 11 It's too **risky** to cross the flooded river.
- 12 I was **fascinated** by the painting. I couldn't look away.

B Circle the correct word.

- 1 If you want to succeed, you have to be **exciting** / **determined**.
- 2 Being lucky is very similar to being **fortunate** / **risky**.
- 3 Some dangerous activities, like skydiving, are also **thrilling** / **tedious**.
- 4 People who have risky jobs need to be **obedient** / **courageous**.
- 5 When crossing a street, children need to be **obedient** / **foolish**.
- 6 Mountain climbers must be **fragile** / **daring** to make it to the top.
- 7 Some scientists are **fascinated** / **determined** by life under the sea.

C Match. Then work with your partner to think of other answers to the questions.

- | | | |
|---------------------------|---|---|
| 1 What thing is risky? | ● | ● a riding a bike without a helmet |
| 2 What thing is exciting? | ● | ● b fighting fires |
| 3 What thing is tedious? | ● | ● c a flower |
| 4 What thing is daring? | ● | ● d waiting a long time |
| 5 What thing is fragile? | ● | ● e graduating from school |

Before You Read

Think How would your daily life be different without wheels?

D Learn Drawing Conclusions

Drawing conclusions helps you understand a story. To draw conclusions, think about these questions:

- What has happened so far?
- What do you know from your own life?
- What do you think will happen next?

Read the story. Then fill in the chart.

Jeff and his family were driving from the city to go camping in the mountains. Jeff had never been to the mountains and couldn't wait to swim in the lake at the base of the hill. He wanted to dive right in!

For two hours, the car traveled on the steep mountain road. Finally, they arrived. First, they had to set up camp and have lunch. "Will I ever get to swim?" Jeff thought.

At last, Jeff jumped into his swimming gear and ran down the hill to the lake. He ran faster and faster toward the lake far below. "Oh, no," Jeff thought. "I've got to slow down!"

What has happened so far?	What do I know from my own life?	What will happen next?

E Words in Context Scan the story on pages 58–59 and circle these words. As you read, try to guess what the words mean.

settlement longed for blurry propelling adjusted figures

F Look at the pictures on page 58 and find the pogo stick. What's it for?

Planet SinRota

In this *science fiction* story, you'll read about life on another planet. Science fiction is often about other worlds and different ways of life. Like other stories, a science fiction story has a plot, characters, and a setting. Draw conclusions about the story as you read.

Planet SinRota

“Zoog, hurry!” yelled Zoog’s dad. “Your grandmother is sick. She has a fever and purple spots. Take your pogo stick and fetch Doctor P721.”

The obedient Zoog bounced off to the doctor’s house as fast as his pogo stick would carry him. The doctor and his four assistants came and carried Zoog’s fragile grandmother away on a special bed to make her better. Fortunately, people always got better on planet SinRota, where illness rarely lasted more than 15 hours.

Zoog was tired. Earlier, he’d taken his pogo stick and hopped to school and back, a distance of 5.36 kilometers each way. He went up to his bedroom and looked through the brand-new telescope he’d received for his birthday the previous week. Zoog’s life was tedious. His planet had no books, no clocks, no computers, and no TV. Far away in another settlement, Zoog had cousins, but there was no mail, so he couldn’t communicate with them. Although he longed for a more exciting life, he felt fortunate that he had good friends and no serious problems.

It was dark 17.7 hours a day on SinRota. Zoog searched the night sky. He was determined to find the magical planet he’d seen many nights in a row. Suddenly, there it was! The blue planet! Zoog gazed at it. The picture was blurry, but he could see areas of water, distant mountains, and patches of bright light. “Who lives there,” he wondered, “and what do they do?”

If he looked hard at one spot for a long time, he occasionally glimpsed small figures with strange, circular objects propelling them along.

Not only did Zoog have to go to school on a pogo stick, but it was also his job to do the shopping for his parents every evening. This meant dragging a heavy sled behind him to and from the store. At the store, he stacked up delicious orange munchballs and green yumsters

Think Why do you think there are no books, clocks, computers, or TVs on SinRota?

SinRotan Language animoog: a SinRotan animal, **munchball:** a SinRotan fruit, **yumster:** a SinRotan vegetable

on the sled and pulled it home before darkness fell. Everything he bought was grown in his settlement because it was too **risky** to bring food from other parts of Planet SinRota. Nobody could drag sleds further than a few kilometers, and the food would be spoiled long before it could reach another settlement. Even the animoogs couldn't drag sleds very far, so it was **foolish** to attempt long journeys. Zoog had never left the area he lived in: 5.36 kilometers was his limit, but he was **courageous**, and dreamed of exploring further.

Zoog looked through his telescope again. He adjusted it slightly, and he was **fascinated** to see activity on the blue planet. The blurry figures he'd seen before suddenly came into sharp focus! There were figures driving around in vehicles of all shapes, sizes, and colors. There were figures riding bicycles. There were huge airplanes zooming fast up runways and flying into the air. It was **thrilling**! He also saw figures sitting on buses and trains, moving fast from one city to another. In a park, he could see small figures, children, playing on skateboards and in-line skates. They were leaping through the air. It looked incredibly **daring**. It was then that he had his big idea.

"I know what I'm going to do!" said Zoog. He began to draw pictures of everything he could see, these wonderful machines with circles that made them move! Trains, planes, bicycles, skateboards, cars, buses, wheelchairs, ambulances, taxis, carts, wheelbarrows, motorcycles, trucks, roller coasters, Ferris wheels, helicopters, strollers, windmills ... Zoog drew all night long.

In the morning, Zoog ran downstairs and showed his parents the pictures. And in just a few short days, the history of SinRota changed completely and forever.

Thanks to Zoog and his telescope, planet SinRota now has wheels! Things will never be the same again.

Think Why does Zoog use a sled to bring the groceries home?

Understand

Comprehension

Think Write two things you found interesting about "Planet SinRota" and talk about them with your partner.

A What conclusions did you draw about "Planet SinRota"? Work with your partner to fill in the chart.

What has happened so far?	What do I know from my own life?	What will happen next?

B Circle the correct answer.

- Zoog goes to school _____
 - by bus.
 - on his bike.
 - on a pogo stick.
 - in his dad's car.
- SinRota's history changes because _____
 - Zoog draws pictures of people.
 - Zoog has a pogo stick.
 - Zoog sees oceans.
 - Zoog sees wheels.
- On the blue planet, Zoog can see _____
 - figures.
 - animals.
 - munchballs.
 - rivers.
- The blue planet is _____
 - Mars.
 - Earth.
 - Venus.
 - Jupiter.

C Words in Context Look again at the words you circled in the story. Match each word to its definition.

- | | |
|----------------|--------------------------------|
| 1 longed for ● | ● a not sharply in focus |
| 2 figures ● | ● b wished for strongly |
| 3 blurry ● | ● c moving something forward |
| 4 settlement ● | ● d changed something slightly |
| 5 adjusted ● | ● e a place where people live |
| 6 propelling ● | ● f shapes of bodies |

Grammar in Use

D Listen and read along. Then circle the correct answer.  1:39

Sonya and April are talking about the **present / future**.

E **Learn Grammar** Future with Present Continuous

You can use the **present continuous** to talk about future arrangements, especially when you mention a specific time or place.

Arrangement: We **are meeting** our friends at 2:00 on Friday.

Remember: Use **will** for future facts and predictions about things you believe will be true. Use **going to** for future plans and predictions about things you see.

Future fact: The moon **will rise** at ten o'clock tonight.

Prediction about belief: Things **will never be** the same again.

Future plan: I'm **going to take** a music class next year.

Prediction about what you see: Look at those clouds. We're **going to get** wet.

Circle the best choice for each sentence.

- 1 Arrangement: Tomorrow at ten, we **are meeting** / **will meet** our friends in the park.
- 2 Fact: On December 20, I **am being** / **will be** twelve.
- 3 Prediction (belief): Someday, the whole world **will** / **is going to** use solar power.
- 4 Plan: They **are going to** / **will** hike in the mountains.
- 5 Prediction (seen): Look! There are big, gray clouds. It **will** / **is going to** snow.

F Take turns asking and answering the questions with the **present continuous**, **will**, and **going to**.

- 1 What are you doing after school?
- 2 How old will you be in five years?
- 3 What are you going to do this weekend?

I'm meeting my friends at the pizza place tomorrow.

Listening

Think What do animals use wheels for?

A Listen to the conversation. Circle the correct answer.  1.40

- 1 The object is made of _____.
 - a wood.
 - b metal.
 - c plastic.
- 2 The object is _____.
 - a small and light.
 - b big and heavy.
 - c wide and long.
- 3 The object _____.
 - a is blue.
 - b is noisy.
 - c can be many colors.
- 4 The object is used by _____.
 - a people.
 - b animals.
 - c teachers.

B Listen again. Write a sentence that tells what the object is used for.  1.41

Speaking 1.42

C **Learn** Giving Advice

When you give advice, use **should** and **why don't you?**

You **should** ride a bike. It's good for your health.

Why don't you borrow my skateboard? I'm not using it.

Work with your partner. Choose a problem from the list and take turns offering advice.

- You missed the bus.
- Your bicycle has a flat tire.
- You want new skates.

I missed the bus. What should I do?

You should ask your dad to give you a ride.

Oh, no! My bicycle ...

Why don't you ... ?

I really want ... !

You should ...

Word Study

D Learn Prefix *mis-*

Remember: A prefix is added to the beginning of a word. It changes the meaning of the word. The prefix **mis-** means "bad" or "wrong."

mis + behave = misbehave

Zoog was a good boy. He didn't **misbehave**.

Listen and say the words. Write the words by adding *mis-*.  1.43 

- | | | | |
|---------------|-------|-------------|-------|
| 1 treat | _____ | 5 read | _____ |
| 2 trust | _____ | 6 remember | _____ |
| 3 communicate | _____ | 7 calculate | _____ |
| 4 direct | _____ | 8 judge | _____ |

E Work with your partner. Write sentences with each word in D and the word you made by adding *mis-*.

Writing Study

F Learn More Irregular Verbs

Remember: Some verbs are irregular when they are in the past tense.

become	→	became	feel	→	felt	light	→	lit
dig	→	dug	draw	→	drew	give	→	gave

Zoog **drew** all night long.

Write the correct form of the verb in parentheses.

- I _____ (draw) a picture of a car for our project last week.
- The weather _____ (become) rainy last night.
- Sam _____ (feel) very happy yesterday.
- Yesterday, I _____ (dig) holes in the garden for seeds.
- The waiter _____ (light) the candle at our table.

 **Write** Now practice writing in the **Workbook**. 

Writing

A Read the opinion essay.

Cars of the Future

In my opinion, the car of the future will be very exciting. I think that by 2025, we'll have cars that don't have a steering wheel. Instead, the car will have computer technology on board and it'll drive itself. People will be passengers instead of drivers. The software in the computer will guide the car along the road and even help it to park. Cars will be much safer because drivers make mistakes, but computers usually don't.

Opening
statement
and
opinion

Second
paragraph

Conclusion

These cars will be bigger than the cars we have today. In fact, they'll be more like buses than cars. This will be good for us, because the cars will be able to carry a lot of passengers. That's a good thing, because we won't need to use so much gas and we won't have as much pollution. If we don't have as much pollution, Earth will be a better place to live!

Finally, I think the new cars will have special TV screens inside them so people can work or play while they're riding on transportation to their offices or to school. That will save time for people who work in offices because they'll be able to read e-mails while they're going to work. And it will be fun for kids because they'll be able to watch programs or do their homework. The car of the future will be thrilling!

B Answer the questions.

- 1 How does the writer start the opinion essay?
- 2 Whose opinion is the writer giving?
- 3 How does the writer organize the essay?

C Learn Writing an Opinion Essay

- Start an opinion essay with a statement that clearly gives your opinion.
- Use **in my opinion**, **I think that**, or **I believe that** to write about your opinion.
- Organize your essay into paragraphs and give information that explains your opinion.
- In your conclusion, write a final sentence that restates your opinion.

Write Now go to the **Workbook** to plan and write your own opinion essay. page 59

D Present your opinion essay to the class.

- 1 Tell the class what you're going to talk about.
- 2 Tell the class why you chose to write about this topic.
- 3 Read your essay to the class.
- 4 As you read, remember to smile and try to look up from your paper from time to time.
- 5 Stress the most important parts of your essay by choosing two or three places to use gestures.

BIG QUESTION 3

Why are wheels important?

- A Watch the video. What kinds of wheels do you see?
- B What are some answers to the Big Question? Talk about them with your partner.
- C Complete the **Big Question Chart**. Then discuss it with the class.

What do you know?	What do you want to know?	What did you learn?

Reading and Writing

A Read Anna's letter. Circle the best word (a, b, or c) to complete the sentences.

Tip

Try all three choices before you mark your answer.

Dear Lucia,

Last Saturday, I visited my brother Carlos, the horse trainer. He teaches young horses to be

(1) _____. It's a (2) _____ job because young horses can be wild. Carlos gets thrown off a lot, but he gets back on the horse right away. He is very (3) _____. He isn't scared at all. I think Carlos is lucky to have such an (4) _____ job.

Yours,

Anna

- | | | |
|----------------|------------|-------------|
| 1 a inspiring | b obedient | c fortunate |
| 2 a durable | b blurry | c risky |
| 3 a courageous | b extinct | c rare |
| 4 a durable | b exciting | c foolish |

B Read the e-mail from your friend Matt.

📎 ✉️ 🔍

From: Matt

Date: January 4

Hi! What are you going to do this weekend? I'm going to a national park. It's a sanctuary for bald eagles. Bald eagles were endangered until 2007. They are protected now. Do you like birds? What's your favorite animal?

Write an e-mail to Matt. Answer his questions in your notebook. Write 25–30 words.

Listening

C You will hear two short conversations. You will hear each conversation twice. There are two questions for each conversation. Put a check (✓) by each right answer.  1.44

Tip
Don't mark your answer until you have heard each conversation twice.

1 Where do some sharks live?

2 What do sharks eat?

Now listen to the second conversation.  1.45

3 What do the boys see?

4 What happens to the man?

Speaking

Part 1 Work with a partner. Ask and answer questions about school.

- 1 What school do you go to?
- 2 What grade are you in?
- 3 What's your favorite subject?
- 4 Why is it your favorite subject?

Tip
Speak in a loud, clear voice.

Part 2 Your teacher will give you a sheet of paper with some information on it. One of you will get questions and one of you will get answers. Ask and answer with your partner.

BIG QUESTION 4

How do animals communicate?

In these units you will:

WATCH
a video about communication.

READ
about animal communication and a helpful dolphin.

PRESENT
your essay to the class.

LEARN
how animals communicate.

WRITE
a descriptive essay.

- A** Watch the video. Then talk about it with your partner. 
- B** Look at the picture and discuss it with your class.
- 1 What is the penguin doing?
 - 2 What do you think it's trying to communicate?
- C** Think and answer the questions.
- 1 How do you communicate?
 - 2 Why do you communicate?
 - 3 How do you think animals communicate?
 - 4 Can you think of some examples of animals that communicate?
- D** Discuss this topic with your class. Fill out the **Big Question Chart**.

How do animals communicate?		
What do you know?	What do you want to know?	What did you learn?
<hr/> <hr/> <hr/>	<hr/> <hr/> <hr/>	<hr/> <hr/> <hr/>

Words

A Listen and say the words. Then read and listen to the sentences.  2:02

- race drift glide wade paddle dive
splash propel float sprint jog plod

- 1 He **raced** to school because he was late.
- 2 The clouds **drift** slowly across the sky.
- 3 The fish **glides** smoothly through the water.
- 4 The boy **waded** into the shallow water in the lake.
- 5 She **paddled** her rowboat down the river.
- 6 My sister can **dive** into the deep water, but I can't.
- 7 The kids **splashed** water on each other.
- 8 The whale uses its tail to **propel** itself through the water.
- 9 He **floated** on his back in the pool.
- 10 She **sprinted** to the finish line to win the race.
- 11 For exercise, Jen **jogs** every morning in the park.
- 12 The old horse **plodded** slowly down the road.

B Write the words in the correct columns. Use some words more than once.

wade race paddle jog float sprint drift splash dive

On a Path	In the Air	In the Water

C Choose the best word to complete each sentence.

- 1 The tired runner _____ toward the finish line.
- 2 She used a pair of oars to _____ the boat forward.
- 3 The ice skater _____ over the frozen lake.

glides
plodded
propel

Before You Read

Think What do you know about oceans? What stories have you read about oceans?

D Learn Character

When you read a story, pay attention to:

- the character's name
- how he or she feels
- what he or she looks like
- what the character says and does

You can use a character web like the one below to help you understand a character better.

Read the story and fill in the character web.

Marta brushed her long brown hair. She tried to smile as she glanced at herself in the mirror, but she knew it wasn't going to work. She was not looking forward to another day at school. Marta was a good student and her parents were very proud, so why was it so difficult to go to school? Marta was shy. Now it was worse, because she was in a new school with new people. Some days, she even tried to convince her father that she was too ill to go to school. "Everyone looks at me like I don't belong," she would tell her father.

<p>How she feels:</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p>	<p>Character's name:</p> <p>_____</p>	<p>What she says or does:</p> <p>_____</p> <p>_____</p> <p>_____</p>
	<p>What she looks like:</p> <p>_____</p> <p>_____</p>	

E Words in Context Scan the story on pages 72–73 and circle these words. As you read, try to guess what the words mean.

fishing rod chuckled hook beamed paddles grinning

F Answer the questions before you read.

- 1 What is a storm?
- 2 How can a storm affect us?

Magdi and the Dolphin

In this *narrative fiction* story, a friendly dolphin saves a boy named Magdi during a storm. Narrative fiction narrates or tells a story. It has characters, a plot, and a setting.

As you read, think about Magdi's character and how it can help you understand the story.

Magdi and the Dolphin

Magdi looked out of the window and saw clear blue skies. “Yes!” he shouted. “It’s a beautiful day! I can go fishing.”

“Hi, Dad! Bye, Dad! It’s a beautiful day! See you later!” shouted Magdi. He was so excited that he was speaking very, very fast. He **sprinted** out of the house with his fishing rod.

“What did he say?” asked his sister as she **plodded** slowly towards the window to look out at him.

“He said that it was a beautiful day for fishing,” chuckled Magdi’s dad with a big smile on his face.

“He’s always happy when he goes fishing.”

Magdi **raced** to the beach and untied his little red fishing boat. *Maybe today I’ll catch a fish for dinner!* he thought. He **waded** out into the warm, blue water, pushing the boat until it **floated**. Then he jumped into it and **paddled** toward some rocks.

Magdi looked over the side of the boat and saw a lion fish. He knew that lion fish were very dangerous; they could sting you. Magdi sat and watched quietly as it dove under the boat and disappeared under a rock. Next, he saw a parrot fish, with its shiny blue, purple, and green scales, gliding through the water. *Parrot fish are tasty, he thought. Maybe today I’ll catch a parrot fish.* Magdi put a piece of bread on the hook of his fishing rod and threw the fishing line into the water. Then he threw more bread into the water to attract the fish. Suddenly, hundreds

of fish swam up to the boat. There were bright yellow fish, black-and-white fish that looked like zebras, fish with long noses, and big, fat puffer fish. Magdi knew all their names. He beamed with delight. *Maybe I won’t catch any fish today, he thought. They’re beautiful! Maybe today I’ll just watch them.* Magdi pulled his paddles into the boat, turned onto his stomach to watch the fish, and fell asleep in the warm sun.

Think Who is the main character? How does he feel?

Magdi woke up feeling chilly. Looking up, he saw black skies. Big waves were shaking his little red fishing boat, and it was drifting out to sea.

Two of Magdi's friends, Malik and Ali, were jogging along the beach. They looked scared. "Hey, Magdi! Magdi!" they shouted. "Come back! There's a storm!" Their words floated across the water, carried by the wind.

"What did you say?" Magdi yelled.

"We said there was a storm!" shouted Malik and Ali. "Come back!"

Uh-oh! thought Magdi. He tried to paddle towards the beach, but the waves pushed him further away. A huge wave crashed onto his boat, throwing him into the water.

"Oh, no! Help! Help!" Magdi cried. But just at that moment, he felt something under the water.

A *very big* something! Then, to his surprise, he was moving through the waves at high speed, heading straight for the beach. He looked down and saw a beautiful, grinning face. It was a dolphin! The dolphin splashed and jumped through the water, carrying Magdi on its back. The dolphin used its powerful tail to propel its body through the water.

When they got to the shallow water, the dolphin dropped Magdi on the sand and then swam up and down in front of him.

"Thank you, my friend," whispered Magdi.

Every day afterward, Magdi and the dolphin played in the ocean. The dolphin taught Magdi tricks, such as how to dive deep down to the ocean floor, how to float, how to glide through the water, and how to stay away from a storm!

Think How do you think Magdi feels when he sees the dolphin?

Understand

Comprehension

Think Talk with your partner about two or three things you liked in the story "Magdi and the Dolphin."

A Fill in the character web with information about Magdi. Then discuss it with your partner.

A character web diagram set against a background of a tropical beach with palm trees and turquoise water. The web consists of four colored boxes connected by lines to a central point. The boxes are: a red box on the left labeled 'What he looks like:', a yellow box at the top labeled 'Character's name:', a green box at the bottom labeled 'How he feels:', and a blue box on the right labeled 'What he says and does:'. Each box contains several horizontal lines for writing.

B Answer the questions.

- 1 Why did Magdi decide to go fishing?
- 2 Why was Magdi chilly when he woke up in the boat?
- 3 Why did Magdi whisper "thank you" to the dolphin?
- 4 What did you learn about Magdi?
- 5 How do Magdi and the dolphin communicate with each other?

C **Words in Context** Look again at the words you circled in the story. Write them in the correct sentences.

- 1 To catch fish, you need a _____.
- 2 To propel a canoe, you have to learn how to use _____.
- 3 I _____ when I heard my friend's joke.
- 4 You must be very happy. You're _____.
- 5 The girl _____ a big smile when she saw her quiz results.
- 6 Put some bread on the _____ and throw it into the water.

Grammar in Use

D Listen and read along. Then check (✓) the correct answer.  2:04

- 1 Who says that he's going fishing? Finn Charlie
- 2 Who tells Mom? Finn Charlie

E Learn Grammar *Reported Speech with Said That*

Reported speech tells what someone said by using the words **said that**. If the direct speech is in the present tense, the reported speech changes to the past tense.

Direct Speech

"It's a beautiful day," said Magdi.
"I'm working," said Tom.

Reported Speech

Magdi **said that it was** a beautiful day.
Tom **said that he was** working.

Work in groups of three to practice reported speech.

Step 1:

Student A, think about an animal you like. Whisper it to **Student B**.

Student B, think about an animal you don't like. Whisper it to **Student C**.

Student C, think about a bird you like. Whisper it to **Student A**.

Step 2:

Use reported speech.

Student A, tell your friends what bird **Student C** likes.

Student B, tell your friends what animal **Student A** likes.

Student C, tell your friends what animal **Student B** doesn't like.

She said that she didn't like cats!

Listening

Think What kind of sound do you think a whale makes?

A Listen and circle the words you hear. Compare your answers with a partner.  2.05

fifteen an hour Atlantic Ocean 50 years eighteen eight

B Listen again. Circle *True* or *False*.  2.06

- | | | |
|---|-------------|--------------|
| 1 Humpback whales live in oceans all over the world. | True | False |
| 2 Scientists discovered the humpback whale's song about 50 years ago. | True | False |
| 3 A humpback whale's song is between 50 minutes and an hour long. | True | False |
| 4 Humpback whales in different oceans sing different songs. | True | False |
| 5 Male and female humpback whales sing. | True | False |
| 6 A humpback whale's song can travel thousands of kilometers. | True | False |

Speaking 2.07

C Learn Asking for Clarification

When you're listening and speaking, you can ask someone to explain things. Use questions such as **What do you mean?** **Can you explain that?** **What happened?** and **How did that happen?** to ask for more information.

Think about something that happened to you. Take turns telling stories and asking for clarification.

Word Study

D Learn Letter Combination *gh*

Some words have a silent **gh**, as in **caught** and **right**. Sometimes **gh** has the sound of **f**, as in **laugh** and **tough**.

The dolphin glided **through** the water.
Rough waves tossed Magdi's boat.

Listen and say these words. Underline the silent *gh* sounds.  2:08 

- | | | | |
|---------|-----------|----------|----------|
| 1 cough | 3 though | 5 fought | 7 enough |
| 2 tough | 4 through | 6 rough | 8 high |

E Work with your partner. Make lists of the words with silent *gh*, and *gh* with the *f* sound. Then try to find three more words to add to each list.

Writing Study

F Learn Commas and Semicolons

There are two ways to join two independent clauses:

- 1 Use a comma (,) and a conjunction (**and, or, but, for, yet**).

We had a big storm last night, **but** it cleared up this morning.
independent clause 1 conjunction independent clause 2

- 2 Use a semicolon (;) and no conjunction.

We had a big storm last night; it cleared up this morning.
independent clause 1 semicolon independent clause 2

Rewrite the sentences in your notebook by joining them in two different ways.

Humpback whales in the Pacific Ocean sing one kind of song.

Humpback whales in the Atlantic Ocean sing another kind of song.

 **Write** Now practice writing in the **Workbook**. 

BIG QUESTION 4 How do animals communicate?

- A Watch the video. 

- B Think about the Big Question. Talk about it with a partner.

What are some ways that animals communicate?

The dolphin in the story splashed and jumped to communicate with Magdi.

Words

A Listen and say the words. Then read and listen to the sentences.  2:09

communicative

locate

collaborate

imitate

behave

indicate

attract

threaten

defend

approach

express

produce

- 1 Dolphins are **communicative** animals. They use sounds and movement.
- 2 Whales **locate** each other by singing songs.
- 3 I **collaborate** with my classmates on projects.
- 4 Parrots often **imitate** human words.
- 5 We're always very good. We **behave** well in class!
- 6 Can you **indicate** on the map where you live?
- 7 Some birds **attract** a mate by building colorful nests.
- 8 The rattlesnake **threatens** its enemies by rattling its tail.
- 9 Animals have ways of **defending** their territory.
- 10 The lion **approaches** its prey silently.
- 11 People **express** themselves with their hands when they talk.
- 12 The sound a tiger **produces** is a growl.

B Match. What other answers can you think of?

- | | | |
|---|---|---------------------------------|
| 1 What animals are dangerous to approach? | ● | ● a in a doctor's office |
| 2 How can you locate things you lose? | ● | ● b lions |
| 3 Who are kids communicative with? | ● | ● c a kitten |
| 4 What baby animal can a person imitate? | ● | ● d look very carefully |
| 5 Where do patients behave well? | ● | ● e a snake |
| 6 What long animal threatens its prey? | ● | ● f friends |

C Work with your partner to complete the sentences.

indicate collaborate attracted express defend produces

- | | |
|--|--|
| 1 Do you _____ with other students on school projects? | 4 We can _____ that we are happy with words. |
| 2 I can _____ where I live on a map. | 5 A scared animal will _____ itself. |
| 3 Bees are _____ to flowers. | 6 A tiger _____ a loud growl. |

Before You Read

Think Which animals have you learned about so far? How do they communicate?

D Learn Asking Questions

When you read, it's good to ask yourself questions. Questions help you understand what you're reading. Here are some examples:

- What is the main idea?
- Why do animals communicate?
- How does an elephant use its trunk?

Read the text and ask questions about it. Use *why*, *what*, and *how*.

People communicate in many different ways. We use words to say how we feel. Sometimes we use words to say what we know and to give other people information.

We often communicate with our gestures. The next time you're talking to a friend, look at your hands. What are you doing with them?

People also communicate the way they feel through their faces. Look at the pictures. How do these people feel?

E Words in Context Scan the article on pages 80–81 and circle these words. As you read, try to guess what the words mean.

underwater decibels territory alarm signals difficulty

F Look at the pictures on pages 80–81. Make a list of the animals you already know. Say what other animals you think you will learn about.

Chatterboxes

In this *article*, you will learn that animals communicate to defend territory, find food, and for many other reasons. An article provides interesting facts about a topic. Articles often appear in magazines and newspapers. As you read, ask questions about the text. This will help you to understand what you're reading.

Life Science

Chatterboxes

Do you think animals can communicate? No? Think again! There are three main types of animal communication, and they all happen for different reasons.

Communication Between Animals of the Same Species

Defending Territory and Attracting a Mate

Many animals are **communicative**. Hippos, for example, communicate underwater and on land, but mostly they communicate underwater, by making noises called *grunts* and *bellows*. On land, the volume of their bellows can reach 115 decibels. That's as loud as thunder or a jet plane! They communicate with each other to **defend** their territory, which is their own space. Hippos bellow when they fight other hippos and when they want to attract a mate.

Food

Honeybees do a special kind of dance called the *waggle dance* when they find nectar, water, or pollen. The dance is like a map of their journey. The dance helps other bees **locate** the nectar, water, or pollen.

Honeybees dance to communicate.

Danger!

Most animals have predators that want to kill and eat them. Lions, cheetahs, and eagles prey on **vervet monkeys**, so the monkeys have alarm signals for each predator. Rabbits thump their powerful back paws on the ground to warn other rabbits of danger. Beavers slap their tails hard against the water to scare away any foxes and alligators that **approach**.

When vervet monkeys hear the lion or cheetah signal, they climb trees to protect themselves. When they hear the eagle signal, they hide on the forest floor.

Think What are two reasons that animals communicate?

Communication Between Animals of Different Species

Warning!

Predators threaten their prey, so what animals need is a warning sign. Rattlesnakes have a rattle on the end of their bodies that they shake when they feel threatened. The loud noise scares away predators. Similarly, wolves growl and show their teeth to warn enemies that they will fight.

Food

A type of lizard, called a *gecko*, and an insect, called a *treehopper* cooperate with each other. They both eat honeydew, a sweet, sticky liquid that trees produce. The gecko sees the treehopper vibrating its stomach, so it knows that the treehopper is eating honeydew. The gecko shakes its head to indicate to the treehopper that it wants honeydew.

The treehopper throws honeydew toward the gecko, which catches it in its mouth.

Why does the hopper behave like this?

It's possible that the gecko protects the hopper from predators.

The honeyguide is a bird that eats beeswax and helps honey badgers find honey. Although it is good at finding beehives, the honeyguide has difficulty getting into the hives. The honey badger eats honey, but it has trouble finding hives, and so these two animals collaborate. The honeyguide expresses itself by making noises and flapping its wings to attract a honey badger. Once the honey badger has climbed a tree and broken open the hive, it eats the honey, and the honeyguide gets to eat, too!

Think What are two more reasons that animals communicate?

Communication Between Humans and Animals

Dolphins, apes, and parrots are the animals that have communicated the most with humans. A famous bonobo ape, Kanzi, was the first non-human to learn language the way a child does, by listening and observing. A scientist said that Kanzi had learned

450 words using a keyboard. He also told us that Kanzi was learning new things every day.

Alex was a grey parrot who, like most parrots, could imitate words, but he could also identify objects, colors, and shapes. He died when he was 31. His last words to his trainer, Dr. Pepperberg, were: "You be good. I love you." Dr. Pepperberg said Alex had started to learn the alphabet. Every time Alex got a letter right, he told Dr. Pepperberg that he wanted a nut!

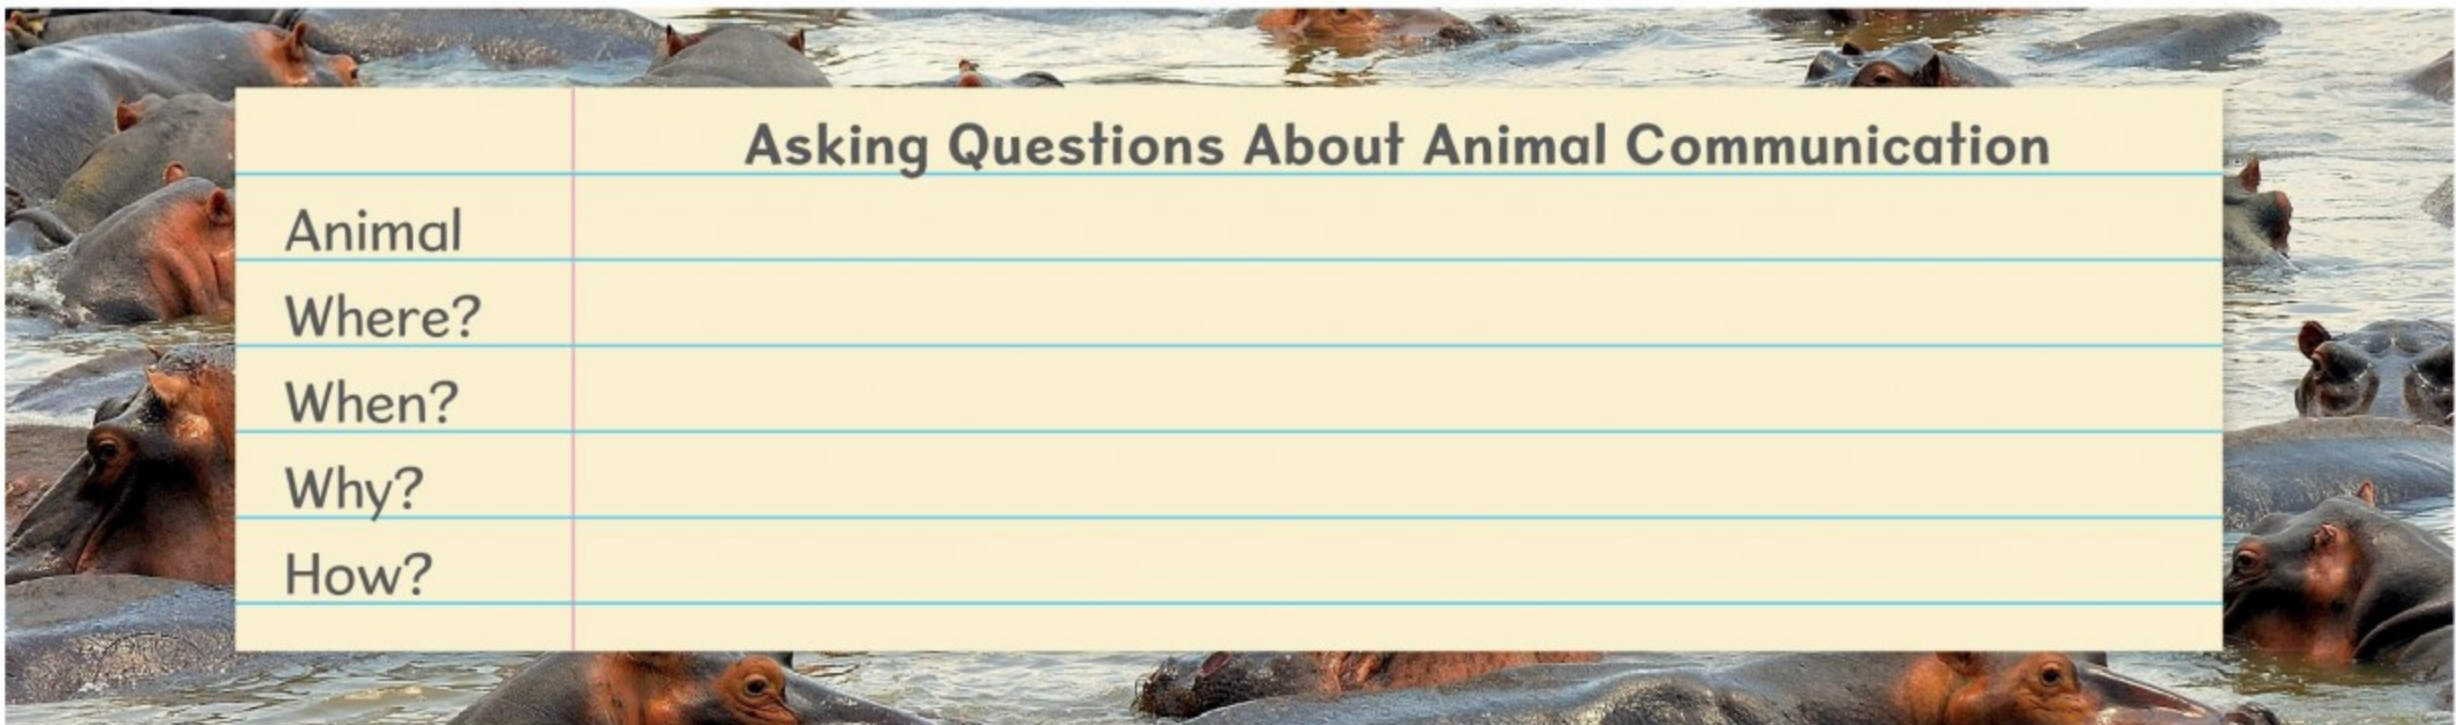

Understand

Comprehension

Think Were you surprised by any of the information in “Chatterboxes”? Tell your partner two surprising facts you learned.

A Choose an animal from the article. Fill in the chart.

Asking Questions About Animal Communication	
Animal	
Where?	
When?	
Why?	
How?	

B Circle the correct answer.

- Hippos communicate ____
 - underwater and on land.
 - only underwater.
 - only on land.
 - only with people.
- Honeybees communicate with ____
 - grunts and bellows.
 - growls and roars.
 - a dance.
 - a song.
- Vervet monkeys have alarm signals to ____
 - tell each other about the weather.
 - tell each other about food.
 - tell each other about their territory.
 - tell each other about danger.
- Kanzi the ape and Alex the parrot worked with ____
 - honey badgers.
 - scientists.
 - snakes.
 - rabbits.

C Words in Context Look again at the words you circled in the article. Match the words to the definitions.

- territory ●
- decibel ●
- signal ●
- alarm ●
- difficulty ●
- underwater ●
- a an area that an animal has as its own
- b a situation that is hard to deal with
- c something used to share information
- d below the surface of water
- e to make something feel afraid or worried
- f a measurement of how loud sound is

Grammar in Use

D Listen and read along. Then write the letter of the correct answer.  2.11

- 1 Which sentence is in direct speech? _____
 - a I asked how many words Kanzi was learning.
 - b How many words is Kanzi learning?
- 2 Which sentence is in reported speech? _____

E **Learn Grammar** Reported Speech with *Told* or *Asked*

Remember: Use **said that** to report what someone said. You can also use **told** or **asked**.
 After *told* or *asked*, you need to add an object pronoun or someone's name.

Don't forget, if the direct speech is in the present tense, the reported speech changes to past tense.

Reported Speech

He **told us that** Kanzi **was** learning new things every day.
 A classmate **asked the scientist** what Kanzi **was** learning.

Rewrite the sentences in your notebook. Change direct speech to reported speech.
 Change reported speech to direct speech.

- 1 She said that she was learning about animal communication.
- 2 "I'm going to the park," she said.
- 3 "I'm studying about crocodiles in school," he told me.
- 4 I asked my father what time it was.

F Follow the instructions and write each person's name.

Walk around the classroom and find someone who ...

- 1 is interested in wild animals.
- 2 wants to know more about snakes.

Wei told me that he's interested in wild animals.

G Use reported speech to share what you learned with your partner.

Listening

Think What are the biggest mammals you can name? Can you guess what animal weighs between 4 and 7 tons?

A Listen. What animal do you think makes this sound?  2-12

B Listen again and circle the correct answers. There is more than one correct answer for each question.  2-13

- 1 Elephants use their trunks to ____
- a listen and clap.
 - b hide from other elephants.
 - c know where other elephants are.
 - d touch and smell.

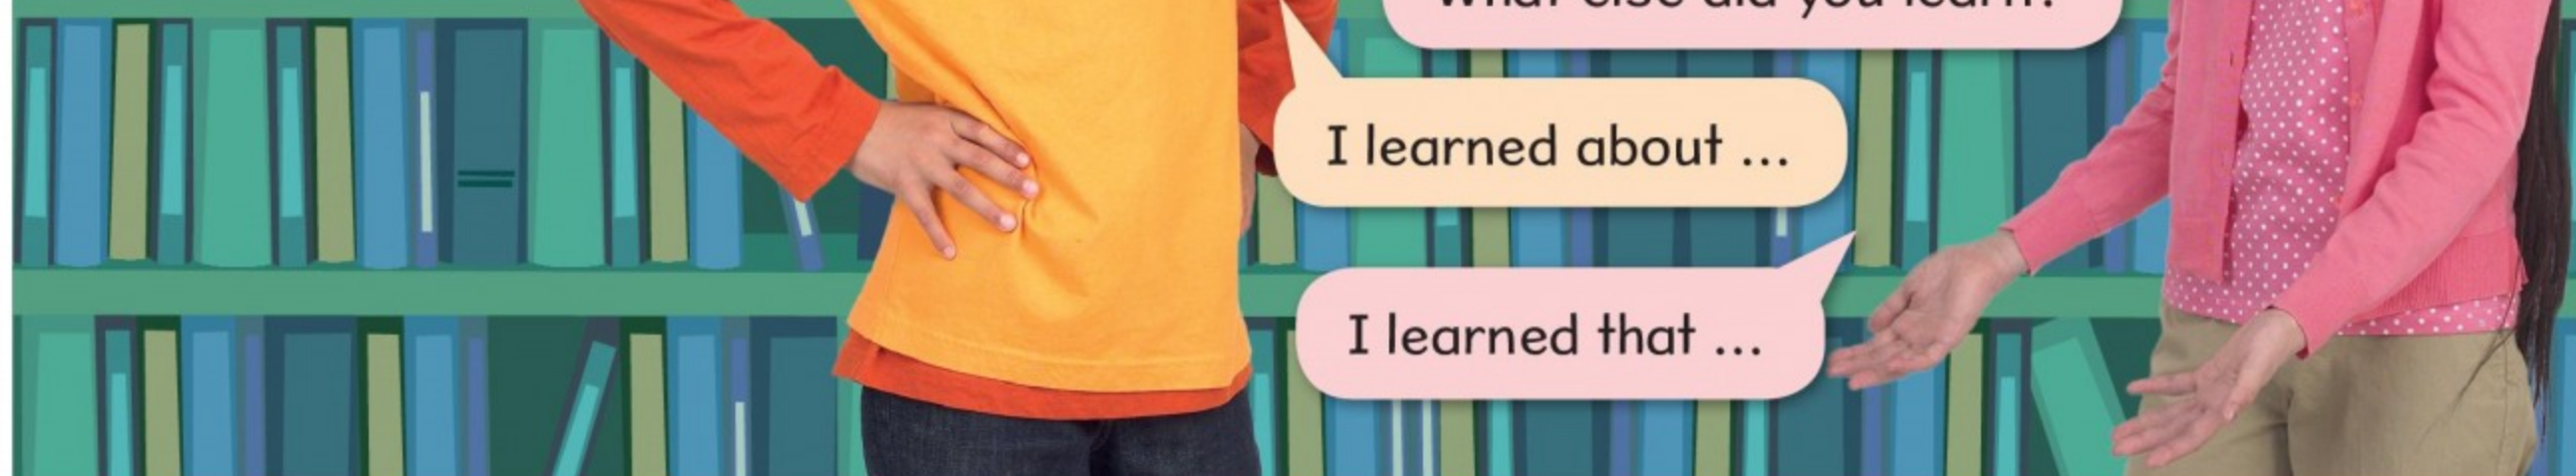

- 2 Elephants use their ears to ____
- a show excitement or happiness.
 - b touch and smell.
 - c cool down.
 - d make sounds.

- 3 Elephants use their voices to ____
- a make sounds that humans can't hear.
 - b communicate over several kilometers.
 - c communicate over 1,000 kilometers.
 - d make sounds that humans can hear.

Speaking 2-14

C Summarize what you've learned.

Write five or six facts you learned about animals in this unit. Talk about what you've learned.

What did you learn about bees?

I learned that honeybees communicate by dancing.

I learned that apes / lizards / monkeys ...

What else did you learn?

I learned about ...

I learned that ...

Word Study

D Learn Suffix *-ion*

Remember: A suffix is added to the end of a word. It can change the part of speech from a verb to a noun.

Elephants **communicate** in many different ways. (verb)

Animal **communication** is fascinating. (noun)

Listen and say the words. Write the words by adding *-ion*. If a verb ends in an *e*, cross out the last letter.  2•15 

1 connect _____

5 decorate _____

2 locate _____

6 collaborate _____

3 prevent _____

7 migrate _____

4 educate _____

8 protect _____

E Work with your partner. Write a sentence using each verb in D. Then write a sentence with each noun you made by adding *-ion*.

Writing Study

F Learn Pronoun Agreement

Remember: A pronoun matches its noun. If the noun is singular, the pronoun and the verb are singular. If the noun is plural, the pronoun and the verb are plural.

The **girl is** watching a **movie**. **She likes it**.

The **boys are** playing music. **They are** making a lot of noise!

The words **everybody**, **anybody**, **nobody**, and **somebody** are singular.

Everybody **likes** chocolate. (Not: Everybody **like** chocolate.)

Complete the sentences. Use the correct form of the verb in parentheses.

1 _____ (do) anybody want to go to the movies with me?

2 Everybody _____ (like) the new teacher.

3 Nobody _____ (want) to go out in the rain.

 **Write** Now practice writing in the **Workbook**.  page 77

Writing

A Read the descriptive essay.

Interesting
starting
sentence

Introduction
with
descriptive
adjectives

Last year, I saw a huge octopus in a tank at the zoo. It had a large head and eight long arms with round suckers on them. While I was watching, the octopus changed its skin color. At first, it was brown with white spots. Then it moved near some pink coral, and it changed its color to pink. It almost disappeared into the coral. A scientist at the zoo said that the octopus is a very intelligent animal.

Body

When I got home, I read more about octopuses. Most octopuses live on the bottom of the ocean or in coral reefs. They eat crabs, shrimps, and lobsters. An octopus uses its suckers to hold its prey and pull it into its mouth. If an octopus loses an arm, it can grow a new one. When it wants to move fast, it propels itself by making jets of water with its body. An octopus has good eyesight and can see colors.

An octopus changes its skin color to communicate with other octopuses. Its skin color can attract a mate or warn other octopuses to stay away. Some octopuses use colors to express their moods. When they're white, they're afraid. When they're red, they're angry. When they're brown, they're relaxed.

Conclusion

I think octopuses are very smart and can do many interesting things! I want to go back to the zoo to see the octopus again. I hope that one day, I can see an octopus in the ocean.

B Answer the questions.

- 1 How does the writer start the essay?
- 2 How does the writer finish the essay?
- 3 What words does the writer use to describe the octopus?

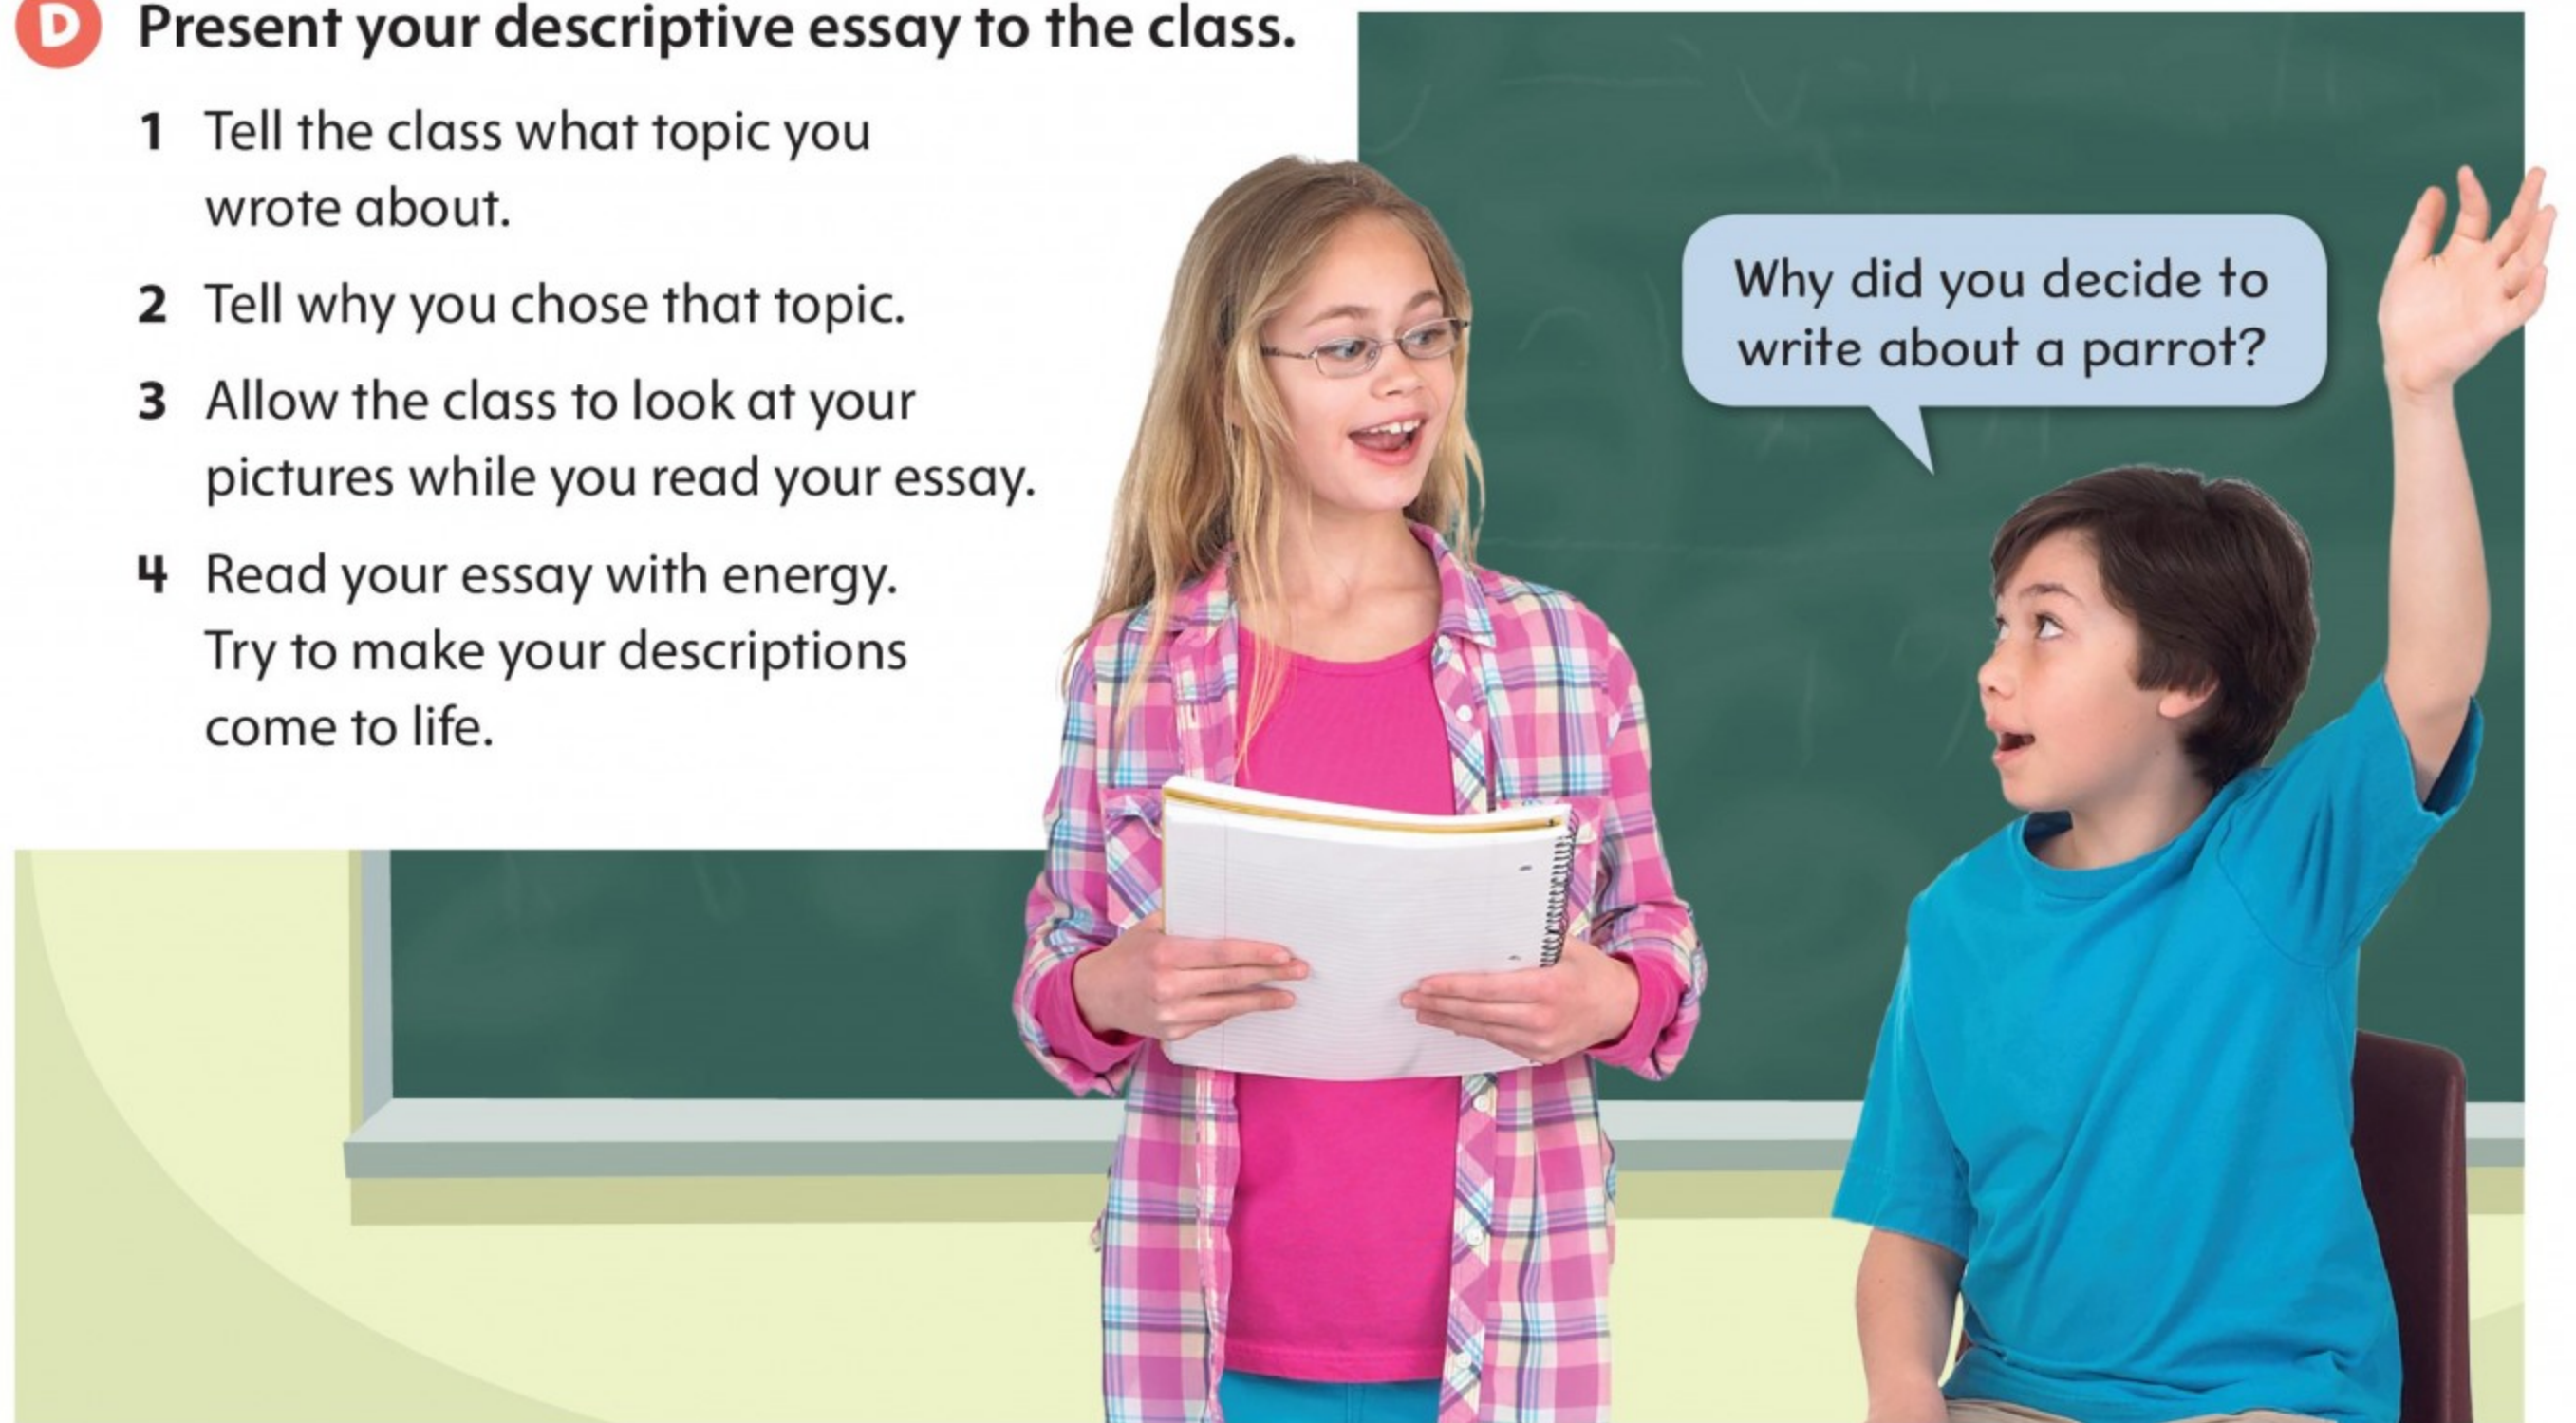

C Learn Writing a Descriptive Essay

- Choose a topic that interests you for your essay.
- Write a sentence in your first paragraph to clearly state your topic.
- Use adjectives to describe people, animals, or things.
- Draw and label some pictures to share with the class. It will help make your descriptions more interesting.
- Finish your essay with something that reminds the reader of how you started it.

Write Now go to the **Workbook** to plan and write your own descriptive essay. page 79

D Present your descriptive essay to the class.

- 1 Tell the class what topic you wrote about.
- 2 Tell why you chose that topic.
- 3 Allow the class to look at your pictures while you read your essay.
- 4 Read your essay with energy. Try to make your descriptions come to life.

BIG QUESTION 4

How do animals communicate?

- A Watch the video. How do you see animals communicating?
- B What are some answers to the Big Question? Talk about them with your partner.
- C Complete the **Big Question Chart**. Then discuss it with the class.

A template for a 'Big Question Chart'. At the top, it says 'Big Question Chart' and 'How do animals communicate?'. Below this, there are three columns. The first column is labeled 'What do you know?' and has five horizontal lines for writing. The second column is labeled 'What do you want to know?' and has five horizontal lines. The third column is labeled 'What did you learn?' and has five horizontal lines. There are small icons of a bee, a flower, and a leaf next to the column headers.

BIG QUESTION 5

What do different cultures give to the world?

In these units you will:

WATCH
a video about
different
countries.

READ
about cultures
and a
girl in a new
country.

PRESENT
your brochure
to the class.

LEARN
what different
cultures give
us.

WRITE
a travel
brochure.

- A** Watch the video. Then talk about it with your partner. 
- B** Look at the picture and discuss it with your class.
- 1 What was this place used for long ago?
 - 2 How old do you think the building is?
- C** Think and answer the questions.
- 1 Where do you live?
 - 2 Have you ever been to another country? Where?
 - 3 What is your country famous for?
 - 4 What things do you use that come from other countries?
- D** Discuss this topic with your class. Fill out the **Big Question Chart**.

Big Question Chart		
What do different cultures give to the world?		
What do you know?	What do you want to know?	What did you learn?
		
<hr/> <hr/> <hr/>	<hr/> <hr/> <hr/>	<hr/> <hr/> <hr/>

Words

A Listen and say the words. Then read and listen to the sentences.  2•16

culture

Before You Read

Think Why do people invent things?

D Learn **Main Idea and Details**

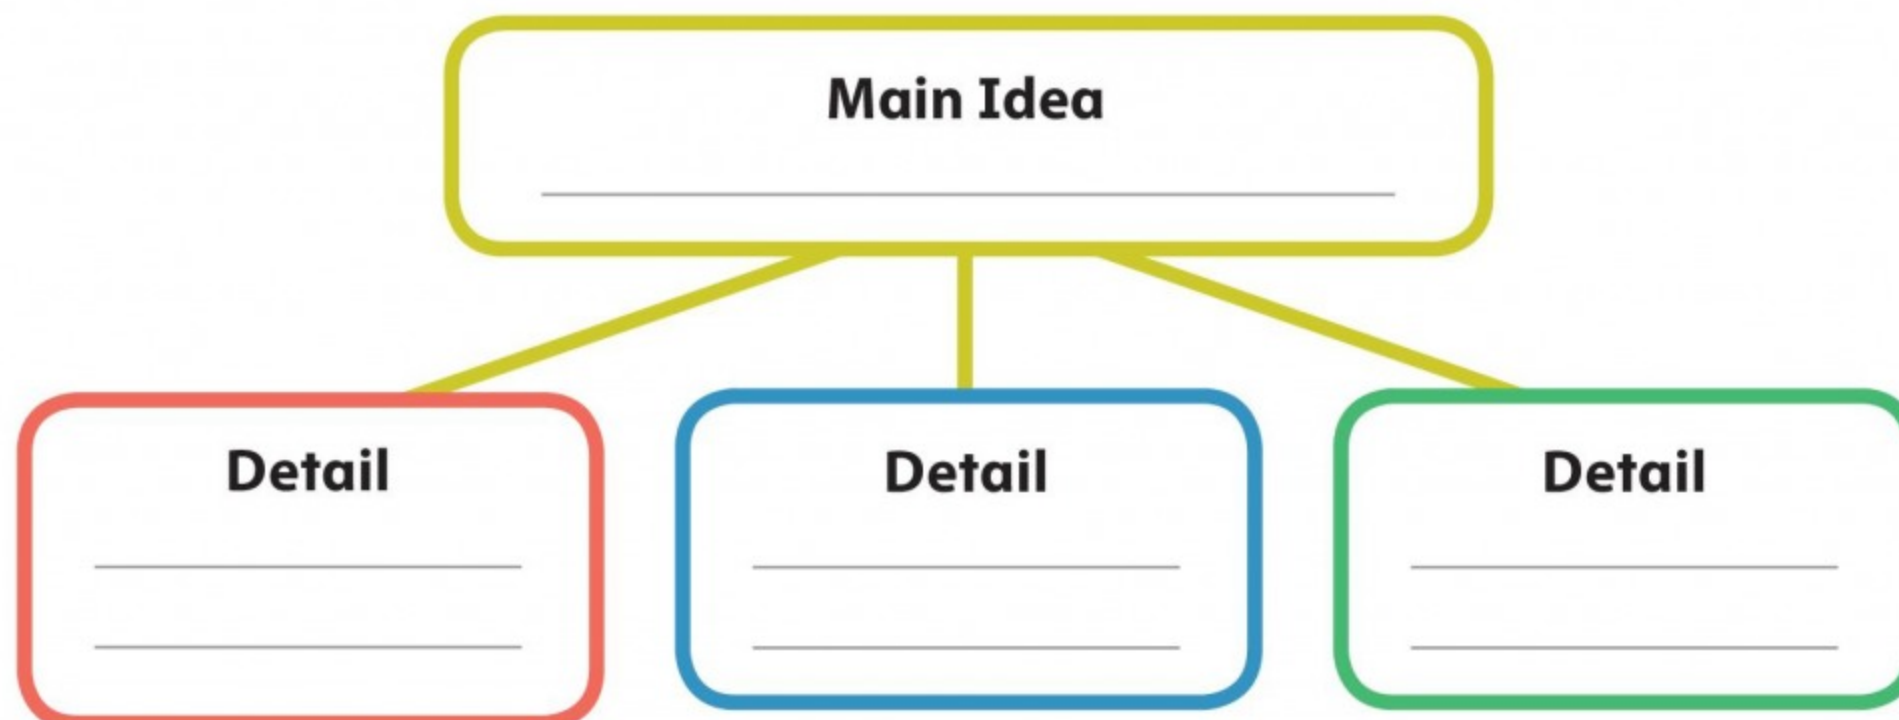

When you read a text, think about the **main idea**. The main idea is the most important point of the text. Then think about the **details**. Ask yourself these questions:

- What is the main idea in the text?
- What details support the main idea?

Read the paragraph. Then fill in the organizer.

Whiteboards

Do you ever wonder where the things you use every day come from? For example, think about the dry-erase whiteboard. This simple device is a very important invention. The whiteboard has been used since the 1960s. It became more popular in the 1990s, and today whiteboards are in thousands of offices, meeting rooms, and classrooms around the world. What would we do without whiteboards?

E Words in Context Scan the narrative on pages 92–93 and circle these words. As you read, try to guess what the words mean.

trade tablets voyage ancient advanced tools

F Answer the questions before you read.

- 1 Do you know where chocolate came from?
- 2 How do people get from one place to another?

Journey Back in Time

In this *historical narrative*, you'll learn about things that came from different countries. A historical narrative tells the true story of things that happened. It always has facts and sometimes has pictures and maps. As you read, think about the main idea and details.

Social Studies:
History

Journey Back in Time

Imagine traveling back in time! Who do you see? Who sees you? Where would you go? What amazing things might you discover there? Many countries have made contributions to our modern life. Some have invented things; others have given us art, music, and stories.

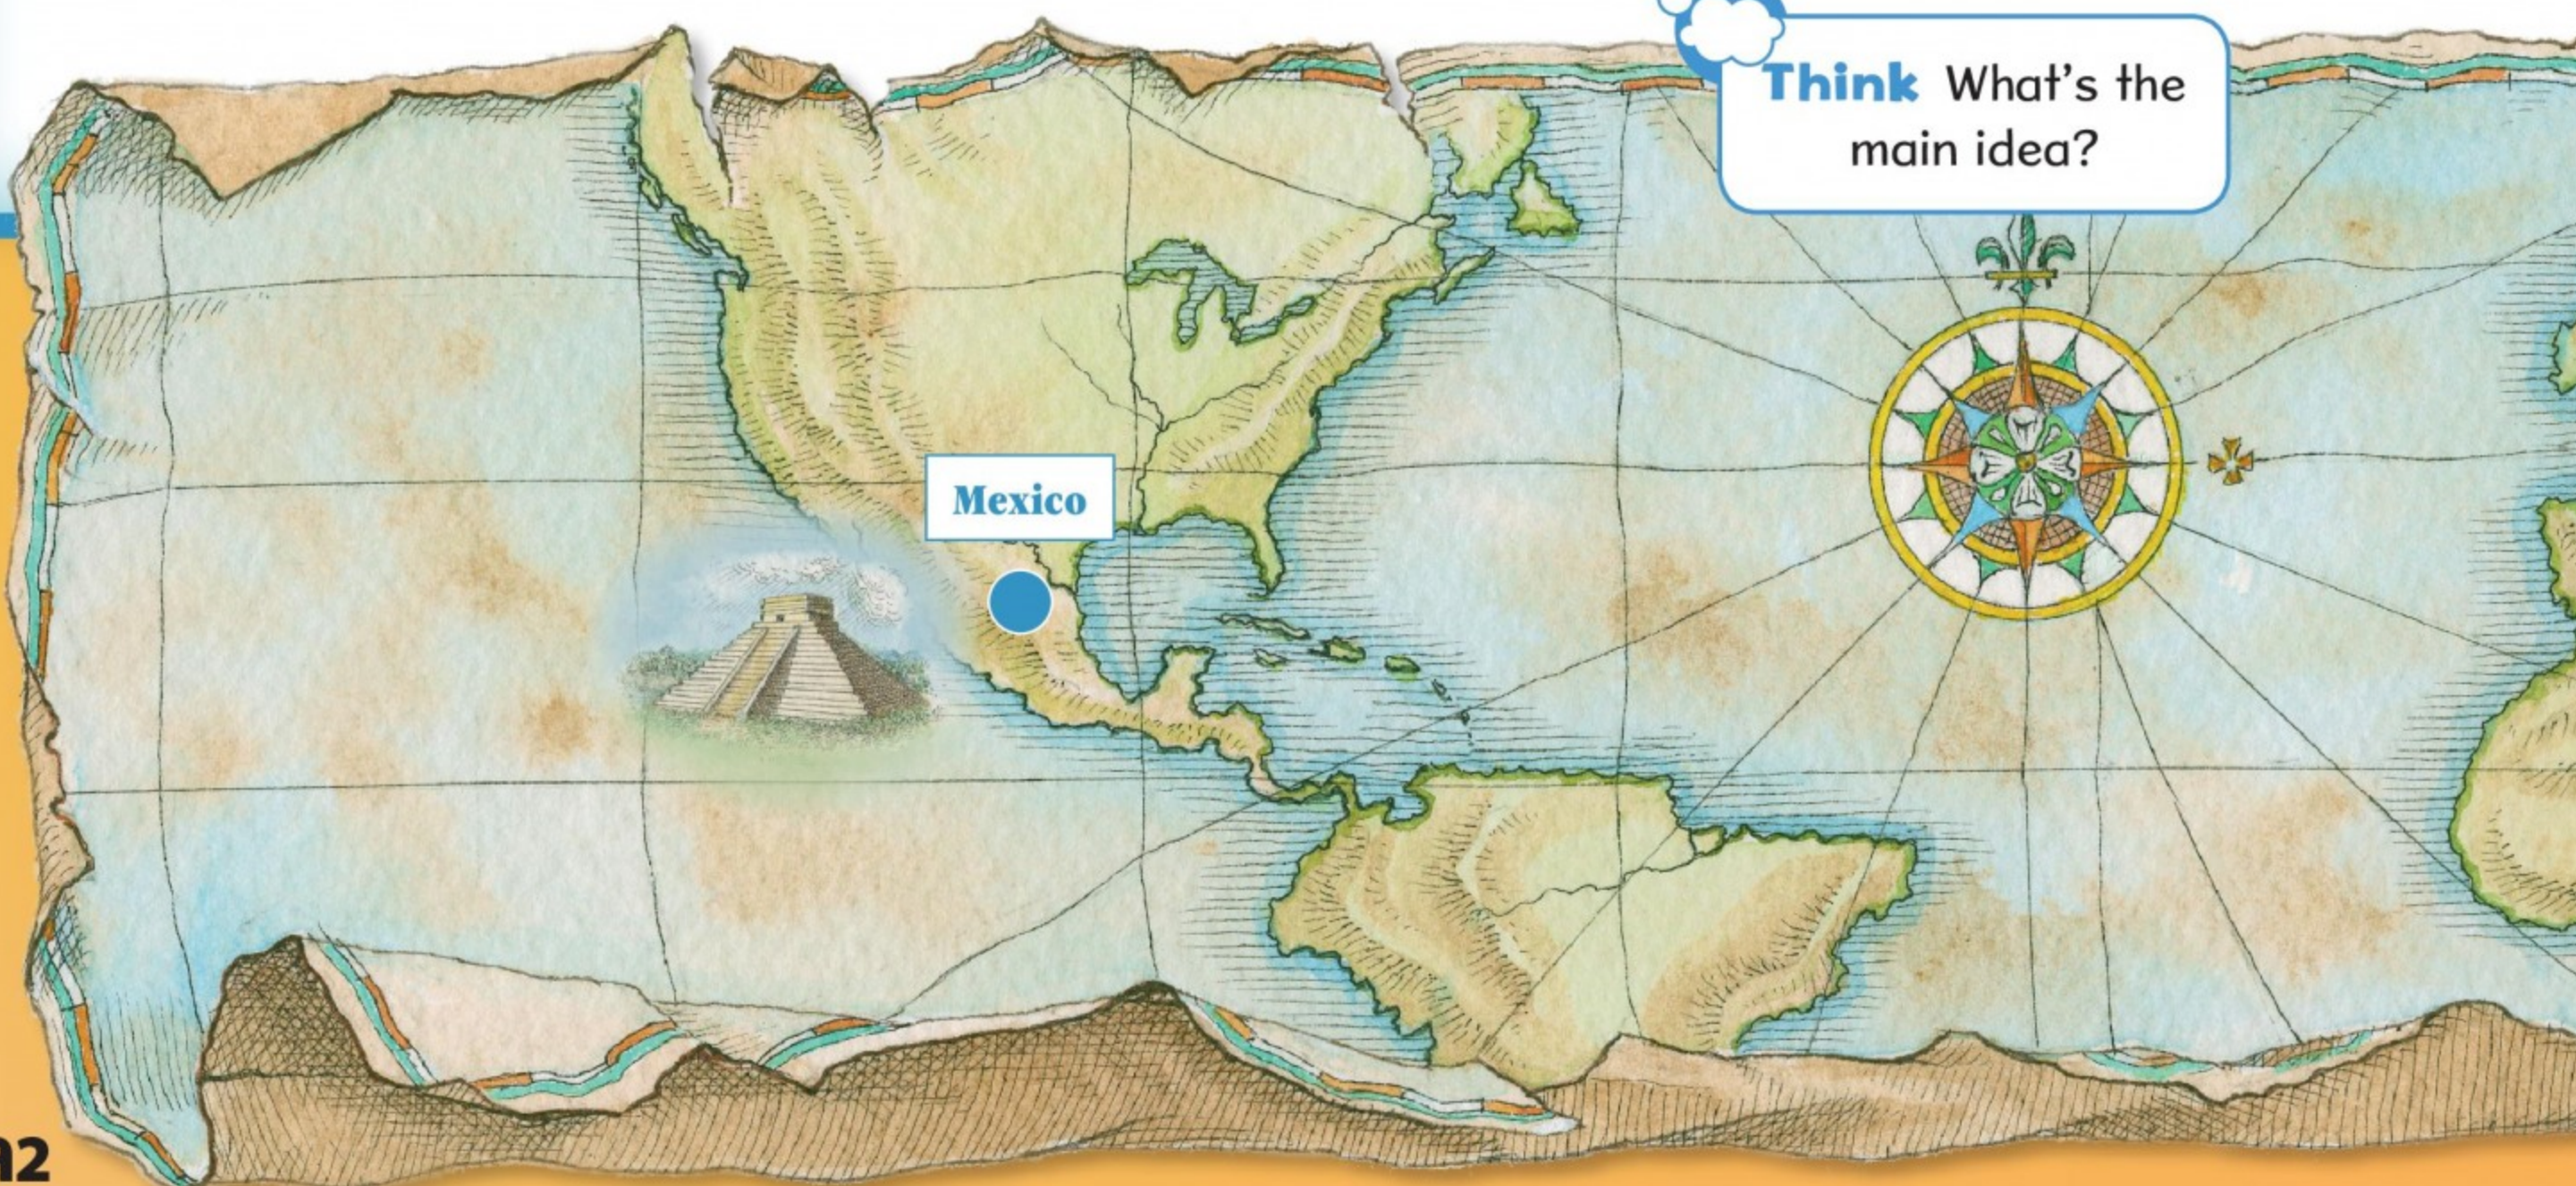

● Mesopotamia

You start your journey in ancient Mesopotamia. That's a place we now call Iraq. Mesopotamia was between two huge rivers: the Euphrates and the Tigris. The people there needed good boats to travel on these rivers so they could explore and trade. So, five thousand years ago, the Mesopotamians invented a new type of sailboat. Their design is still being used today!

One of these sailboats can take you to many different places along the route of your journey. Before you leave Mesopotamia, be sure to visit a city called Sumer. Many things were invented there. What Sumerian invention can you take on your journey? Their most important invention was something you can take with you anywhere: writing! The Mesopotamians in Sumer found a way to make pictures on clay tablets (flat pieces of clay) to tell a story.

Think What's the main idea?

● Egypt

From the Tigris River, you sail all the way to the Mediterranean Sea. Now you can see the coast of Egypt. The Egyptians were very good at math, medicine, architecture, and sculpture. They had a rich culture of art, music, and a form of writing called *hieroglyphics*. They learned to make paper from a plant called *papyrus*. This development means that today, we benefit from the invention of paper in books, magazines, and newspapers.

● China

The next country you visit cannot be reached by sailboat. China is over 5,000 miles away from Egypt. You will be tired when you reach China, but your trip is not finished. You have one more long voyage to make, across the Pacific Ocean. Luckily, the Chinese have invented a device called a *compass*. This is a very important invention. It helps you find your way on land or sea by always pointing to the north. It was originally invented to help Chinese sailors navigate. Now we have compasses in many products we use, like our cell phones and in our cars, so no one needs to get lost.

● Mexico

Using your compass, you can sail all the way across the Pacific Ocean to Mexico. Take a look at a map. That's quite an achievement! There, you will explore another ancient civilization: the Maya. This was a very advanced civilization, with many interesting customs and traditions. The Maya created and discovered many important things using only very simple tools. They were excellent astronomers and mathematicians. They developed a written language using hieroglyphs, and they built huge pyramids and sculptures. The Maya produced many different goods, including tools, jewelry, and cloth. They also made a new kind of drink by mixing cocoa beans with spices, water, and chilies. They used the drink in special ceremonies and to make people healthy. Though the special Mayan drink tasted bitter, what they made using this process was actually a kind of chocolate. Until the Maya made this contribution, no one had ever tasted chocolate before.

You have sailed on a Sumerian boat, found your way with a Chinese compass, and you can write all about your journey on some Egyptian papyrus!

Think What details support the main idea?

Understand

Comprehension

Think Talk with your partner about three things you learned from “Journey Back in Time.” Which countries did you already know about?

A Fill in the organizer with information from the historical narrative. Then discuss what you wrote with your partner.

Main Idea

Detail

Detail

Detail

Detail

B Answer the questions.

- 1 What two things did the ancient Mesopotamians invent?
- 2 Where was paper invented?
- 3 Why is a compass important?
- 4 What ingredients do you need to make Mayan hot chocolate?
- 5 What do you think is the most important invention in the narrative? Why?

C **Words in Context** Look again at the words you circled in the narrative. Then write them in the correct sentences.

- 1 Telescopes and microscopes are good _____ for studying things.
- 2 Archeologists found an _____ statue in the desert.
- 3 A _____ usually takes a long time, especially on the sea.
- 4 Before there was paper, people carved letters on wooden or clay _____.
- 5 Countries all around the world _____ with each other.
- 6 Modern compass systems are much more _____ than the early compass.

Grammar in Use

D Listen and read along. Then circle the correct answer.  2•18

- 1 Who did Finn see? **a** nobody **b** many people
2 Who saw Finn? **a** nobody **b** Finn's mom

E Learn Grammar Asking Questions

Remember: Ask questions with **who**, **where**, **when**, **why**, **what**, **which**, and **how**.

Be careful! There's a difference between these two questions:

Question	Answer
Who saw Finn? (<i>Who</i> is the subject.)	Finn's mom saw Finn.
Who did Finn see? (<i>Who</i> is the object.)	Finn didn't see anybody.

Read the situations. Check (✓) the best question to ask the person.

- 1 Your brother or sister wrote an e-mail.
 Who did you write to? Who wrote to you?
- 2 You go to a friend's house, and your friend is watching TV.
 Who's watching you? What are you watching?
- 3 Your classmate got help with a difficult math problem.
 Who did you help? Who helped you?
- 4 Your friend tells you he's going to travel with his family.
 Who are you traveling with? Where are you going?

Who did you see yesterday?

I saw my grandfather.

F Work with your partner. Take turns asking and answering questions about what you did yesterday. Use all of the question words.

Listening

Think Where did the Olympic Games start?
What do you know about the Olympics?

A Learn Listening for Facts

Listen for facts. **Facts** are things that are true.

Greece is a country in Europe.

An **opinion** is how you feel or think about someone or something.

I think running is fun.

Listen. What country does the girl come from? 2-19

B Listen again. Circle **Yes** or **No**. 2-20

- 1 The Olympic Games started in Athens.
- 2 The Olympic Games are named after a city in Greece.
- 3 The Olympic Games started 1,000 years ago.
- 4 The race in the Olympic Games was 170 meters.
- 5 The runners wore shoes for the race.
- 6 The Greeks added jumping to the Olympic Games.

Yes	No
Yes	No
Yes	No
Yes	No
Yes	No
Yes	No

Speaking 2-21

C Take turns asking and telling about an invention you think is important. Remember to ask using all of the question words.

- who
- what
- when
- where
- why
- which
- how

What invention do you think is important?

I think the ... is a very important invention.

Who invented it?

It was invented by ...

Why did he / she / they invent it?

I think it might be because ...

Word Study

D Learn Word Roots

Some words in English have **roots** from Latin or Greek.

Root	Meaning	Example
cent (Latin)	one hundred	centimeter
circum (Latin)	around	circumstance
bio (Greek)	life	biology
tele (Greek)	far away	telephone

Listen and say the words. Circle the word roots. Then work with a partner to use each word in a sentence.  2:22 

- | | | | |
|--------------|---------------------|--------------|----------------|
| 1 centipede | 3 antibiotic | 5 centimeter | 7 circumstance |
| 2 centigrade | 4 telecommunication | 6 biologist | 8 telephone |

Writing Study

E Learn Using Parentheses

You can use parentheses to give extra information in a sentence. The information in parentheses isn't necessary to understand the sentence.

Jorge (**Luke's friend**) is coming over to our house tonight.

Put parentheses in the correct places in the sentences.

- 1 Beethoven 1770–1827 was a famous German composer.
- 2 We saw the black vehicle a truck leaving at high speed.
- 3 Mr. Sonn my math teacher lives near my house.
- 4 Madrid the capital of Spain is a beautiful city.

 **Write** Now practice writing in the **Workbook**. page 89

BIG QUESTION 5 What do different cultures give to the world?

- A Watch the video. 
- B Think about the Big Question. Talk about it with a partner.

The Greeks gave us the Olympics.

What are some other things that countries gave the world?

Words

A Listen and say the words. Then read and listen to the sentences.  2-23

delicious creamy spicy nutty ladle sticky
crunchy runny smooth whirring booming spot

- 1 Bananas are **delicious**. I could eat them every day.
- 2 This ice cream is very **creamy**.
- 3 Chilies and peppers are **spicy**. They make food taste hot.
- 4 Mom made some **nutty** cookies. They had walnuts in them.
- 5 The baker **ladled** milk into the flour and butter mixture.
- 6 My hands are **sticky** from eating candy.
- 7 When someone bites a **crunchy** apple, you can hear the noise.
- 8 The butter is **runny** because it's been in the sun.
- 9 Mix the ingredients until they're **smooth**.
- 10 What's that **whirring** noise? It sounds like a washing machine.
- 11 The captain's **booming** voice can be heard all over the ship.
- 12 Did you **spot** any mistakes in my homework?

B Write the words in the correct sentences.

spicy smooth booming whirring nutty ladle spot

- 1 My father has a _____ voice. You can hear him from far away!
- 2 Mix the chocolate until it's _____ and then add some almonds to make it _____. _____ the mixture into a bowl.
- 3 The car is making a strange _____ noise. Help me _____ a gas station.
- 4 The food was so hot and _____ that I burned my tongue!

C What answers can you think of?

1	What foods are crunchy?	
2	What foods are runny?	
3	What foods are creamy?	
4	What foods are delicious?	
5	What foods are sticky?	

Before You Read

Think What countries have you learned about so far? What did they contribute to the world?

D Learn Visualizing

When you read, make pictures in your mind. This helps you understand what you're reading. It also helps you remember stories more easily. Ask these questions:

- What do the characters look like?
- Do any characters remind you of someone you know?
- Where is the story set? What does it look like there?
- Have you ever been to a place like this?

Read the short story. Tell your partner what you see in your mind. Then answer the questions.

Ricky was small and thin. He didn't like being in the strange house all alone. He decided to leave. He tiptoed slowly down the dark corridor. He was breathing hard and felt very anxious. Suddenly, there was a small scratching noise. Ricky's heart began to beat loudly. Then he saw a huge insect. It had enormous eyes, long, hairy legs, and a pink tongue as long as Ricky's arm.

- 1 What does Ricky look like?
- 2 Where is he?
- 3 What does the insect look like?
- 4 Is the insect scary or funny?

E Words in Context Scan the story on pages 100–101 and circle these words. As you read, try to guess what the words mean.

square skidded dizzy sniffing molds winked

F Answer the questions before you read.

- 1 What is your favorite sweet?
- 2 What do you know about chocolate?
- 3 Look at the pictures on pages 100–101. Where do you think this story takes place?

Choco Choco Boom Boom!

In this *fantasy* story, you'll read about a girl who goes back in time. A fantasy is a story that couldn't happen in real life. Like other stories, it has a plot, characters, and a setting. As you read, make pictures in your mind to help you understand and remember the story.

Choco Choco Boom Boom!

The wheels on the train seemed to be talking to Akiko. They made a rhythmic, **whirring** noise: choco boom boom, choco choco boom boom, choco boom boom.

“Brussels. Capital of Belgium. Next stop!” said the guard in a **booming** voice. “Is this your stop?” he asked.

“Yes, it is,” replied Akiko excitedly. “Chocolate City!”

Akiko loved chocolate, but what she wanted to taste most of all was Belgian chocolate. Everyone said that it was the best chocolate in the world.

Akiko glanced quickly at her map and ran down a long street. The air was full of **delicious** smells, **creamy**, **nutty** smells. Akiko breathed deeply. Soon, she thought, she would find a store and she would buy a selection of Belgian chocolates.

Akiko turned a corner. In front of her, there was a palace belonging to the King and Queen of Belgium. Looking up at the roof, Akiko **spotted** a black, yellow, and red flag, and beyond the palace, a big town square. *Maybe I’ll find my chocolate there*, she thought.

As Akiko skidded into the square, she couldn’t believe her eyes. All around her, there were massive buildings decorated with statues, and flower sellers were selling red, yellow, and white flowers.

“Excuse me,” Akiko said to a man selling French fries and **spicy** sausages. “Is there a chocolate store near here?”

“Yes, there is,” laughed the man. “There’s one right down that street. It makes **crunchy** chocolate, **smooth** chocolate – all kinds of chocolate!”

Akiko zoomed straight into the store. Her heart was pounding: choco boom boom, choco choco boom boom.

Think Visualize what the city square looks like.

“May I please have five of your best chocolates?” Akiko asked the man behind the counter.

“Of course,” he replied, selecting the chocolates. “And this extra one,” he said, handing her a perfectly round chocolate, “is extremely special. It’s called a praline.”

Akiko closed her eyes and bit the chocolate exactly in half. Everything went dark and she felt slightly dizzy. Her heart was racing again: choco boom boom, choco choco boom boom. She opened her eyes, and to her astonishment, she saw a strange kitchen with a large stove, a wooden table, and shiny pots and pans everywhere. Stirring hot, sticky, runny chocolate in one of the pots was a man who looked just like the man in the store, but he was wearing strange, old-fashioned clothes. “Welcome,” he said softly. “I’ve been expecting you.”

Akiko approached the man, sniffing the delicious smells around her.

“Do you smell that?” he whispered. “It’s a praline, my latest invention. People will love it!”

Akiko was confused. Pralines had been invented in 1912 by someone called Jean Neuhaus. Unless ... that was it! The special praline she’d bitten in half had taken her back in time! And the man standing before her was the famous Jean Neuhaus.

“Let’s make some,” said Jean. Together, Jean and Akiko mixed butter, sugar, chocolate, and almonds, and ladled it into small molds to set. Akiko was the happiest she’d been in her life. Not only had she tasted Belgian chocolates, but now she knew the recipe for pralines.

“Time to go now,” said Jean as he poured out the last drop of chocolate. “You know what to do, don’t you?”

“Yes, I do,” said Akiko. And she swallowed the other half of the praline she’d been given.

Everything went dark again, and the dizziness Akiko had felt earlier returned. Choco boom boom, choco choco boom boom went her heart, and suddenly there she was, back in the store. The man behind the counter winked at her, and with a big smile, he said, “Never forget. Belgian chocolate is the very best in the world.”

Understand

Comprehension

Think Choose two things you liked about “Choco Choco Boom Boom!” and discuss them with your partner.

A Talk with your partner about the pictures in the story. Were the pictures the same or different from what you visualized? What else can you visualize that is not in the pictures?

B Circle the correct answer.

1 Akiko travels to Belgium by _____

- a car.
- b bus.
- c train.
- d plane.

3 When Akiko bit the praline in half, she felt _____

- a sick.
- b dizzy.
- c hungry.
- d tired.

2 Akiko finds chocolate _____

- a in a store.
- b in a square.
- c in a palace.
- d on a statue.

4 Jean Neuhaus invented _____

- a Belgian pralines.
- b almonds.
- c French fries.
- d molds.

C Words in Context Look again at the words you circled in the story. Then match each word to its definition.

- | | | |
|------------|---|--|
| 1 square | ● | ● a moved or slid sideways |
| 2 skidded | ● | ● b feeling as if everything is spinning |
| 3 sniffing | ● | ● c containers that you pour a liquid in to set |
| 4 dizzy | ● | ● d making a sound by breathing in through your nose |
| 5 molds | ● | ● e closed and opened one eye quickly |
| 6 winked | ● | ● f an open space in a city that has buildings all around it |

Grammar in Use

D Listen and read along. Then circle the correct answer.  2:25

Which answer is more polite?

a Yes.

b Yes, I do!

E  **Learn Grammar** Short Answers

Remember: Short answers include **Yes, I am**; **No, he didn't**; **Yes, they can**; **No, we won't**; and **Yes, there is**. Using a short answer is more polite than answering only **Yes** or **No**. Some examples of short answers are:

Question	Short Answer
Is there a chocolate shop near here?	Yes, there is.
Do you like my new sneakers?	Yes, I do!
Has it stopped raining?	No, it hasn't.

Work with your partner. Take turns asking and answering with short answers.

- 1 Do you like sports?
- 2 Did you have pizza for dinner last night?
- 3 Can you snowboard?
- 4 Are you 15 years old?
- 5 Did your family ever go to Belgium?
- 6 Did you ever act in a play?
- 7 Is your favorite color blue?
- 8 Have you ever made chocolate?

F Work with your partner. Ask questions about your daily lives. Use short answers.

Listening

Think Why do we have umbrellas? Which country do you think invented the umbrella?

A Listen to the conversation. Circle the correct answers.  2.26

- 1 Umbrellas first came from _____.
 - a Japan.
 - b Korea.
 - c China.
- 2 They were invented _____.
 - a 1,700 years ago.
 - b 700 years ago.
 - c 17 years ago.
- 3 A(n) _____ can make its own umbrella.
 - a donkey
 - b monkey
 - c elephant
- 4 The Chinese made umbrellas out of _____.
 - a wood and paper.
 - b plastic and paper.
 - c paper and bamboo.

B Listen again. What do monkeys use to make umbrellas?  2.27

Speaking 2.28

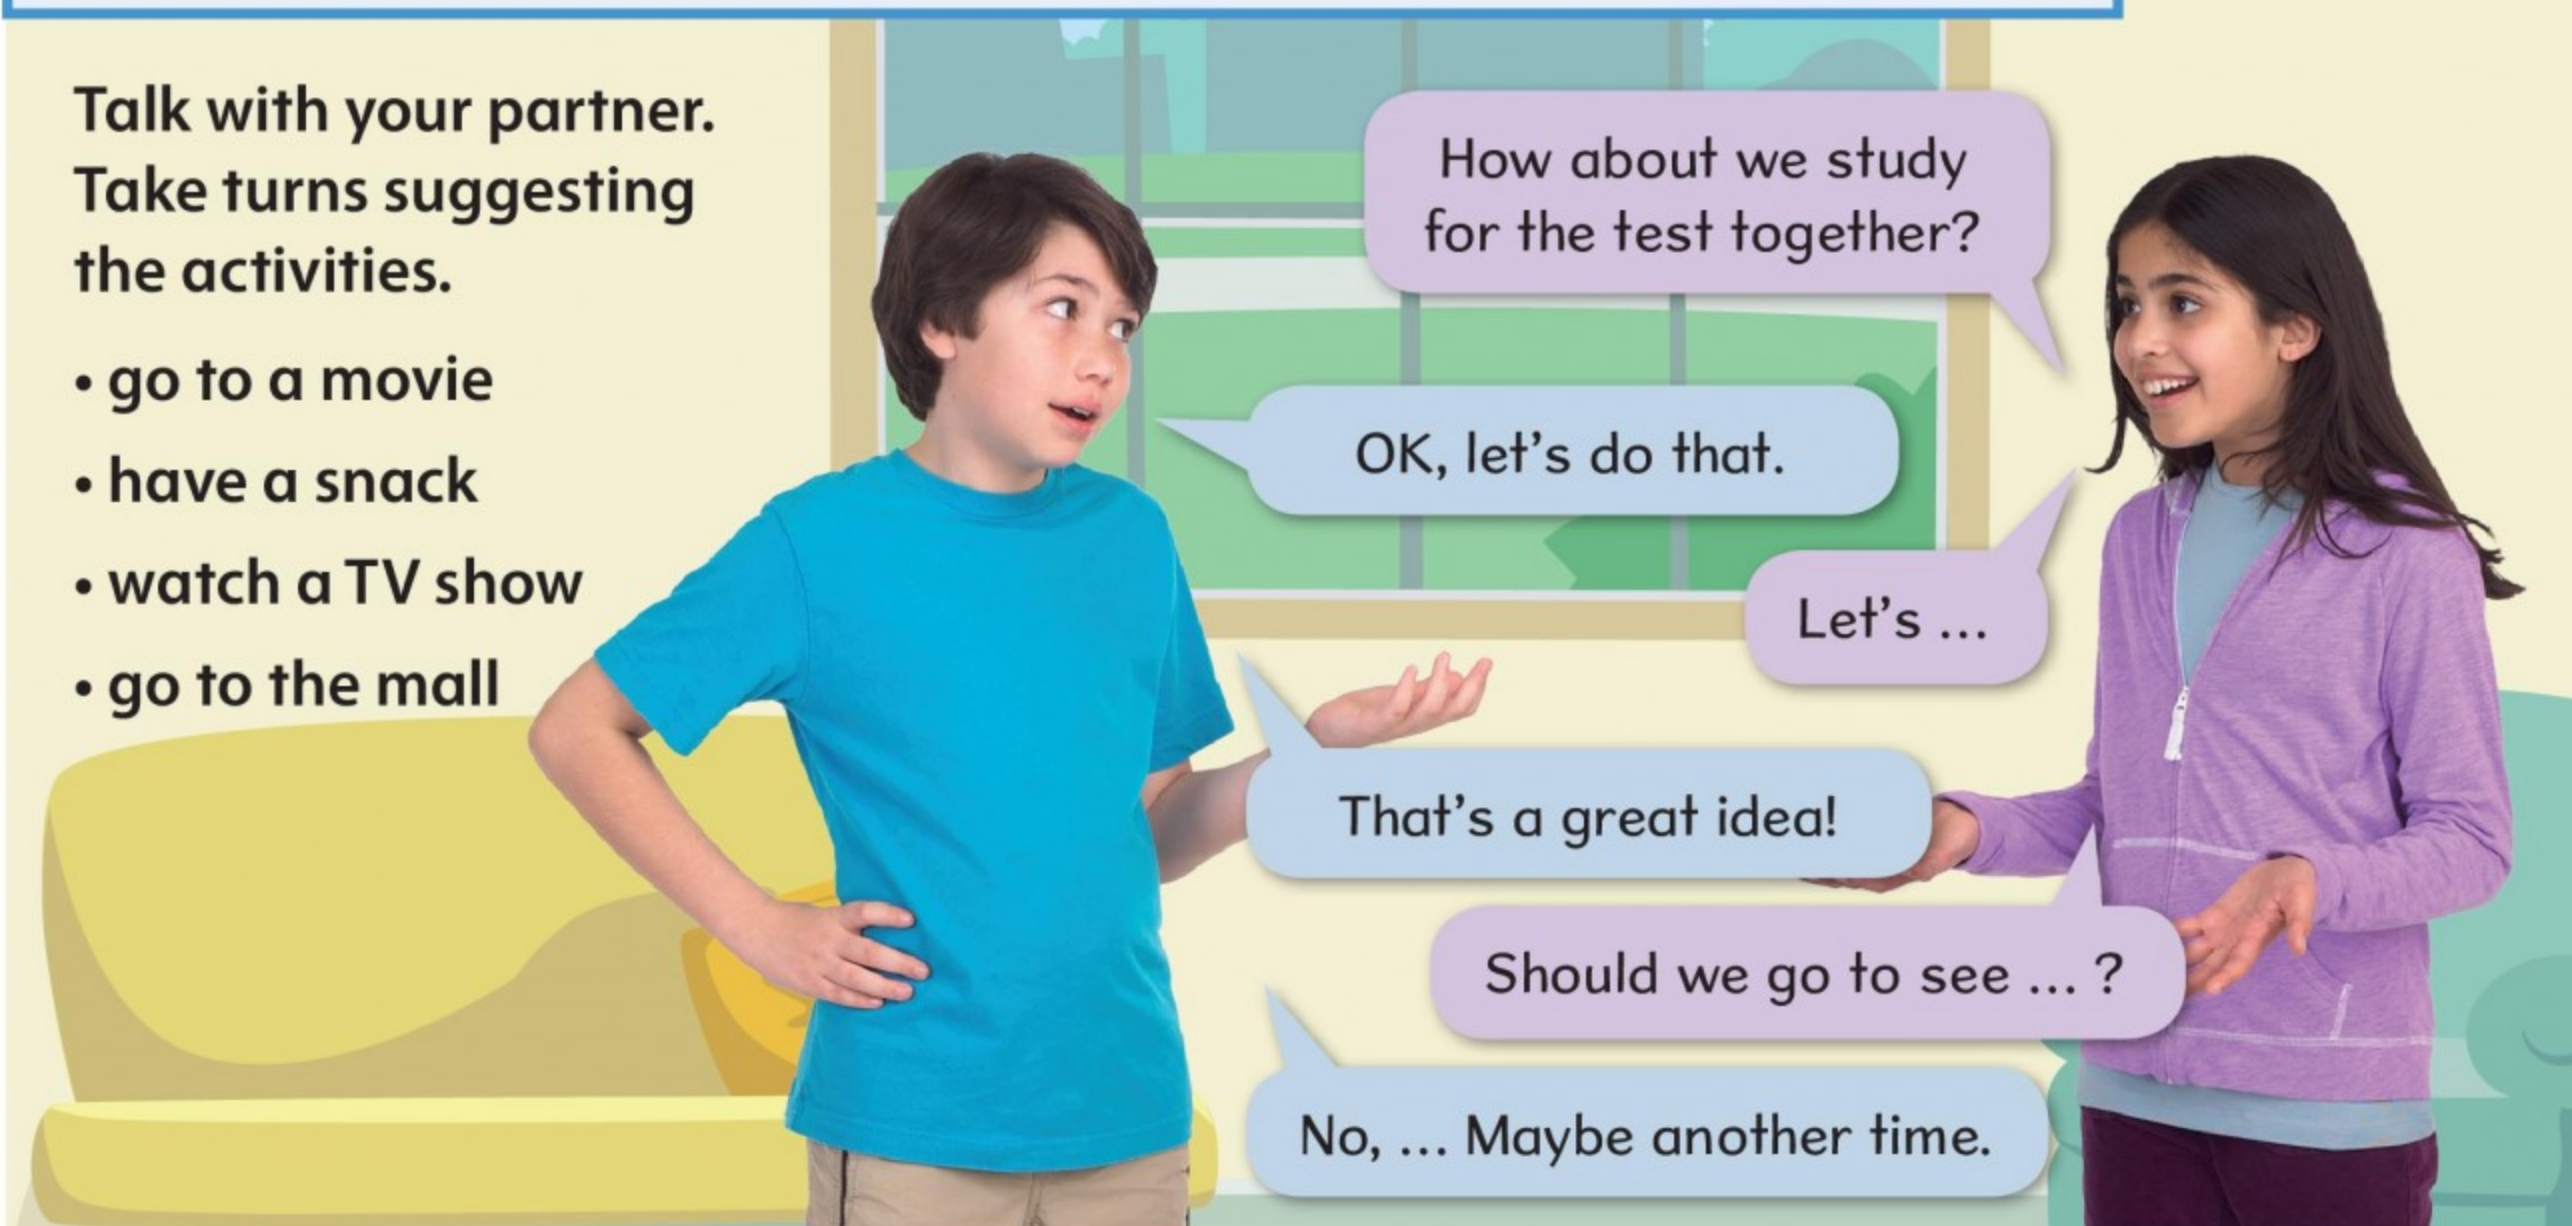

C **Learn** Making Suggestions

When you make suggestions, use **Why don't we ... ?**; **Should we ... ?**; **Let's ...**; **How about ... ?**

To respond, say **That's a great idea**; **OK, let's do that**; or **Yes, I'd love to**.
Or **No, that's OK**; **No, thanks**; **Not this time**; **Maybe another time**.

Talk with your partner.
Take turns suggesting
the activities.

- go to a movie
- have a snack
- watch a TV show
- go to the mall

Word Study

D Learn Suffix -ous

Remember: A *suffix* is added to the end of a word. The suffix **-ous** can change a word from a noun to an adjective. This changes the meaning of the word.

fame + **ous** = famous

The man standing before her was the **famous** Jean Neuhaus.

Listen, say, and number the words. 2:29

_____ adventurous

_____ envious

_____ carnivorous

_____ venomous

_____ spacious

_____ mountainous

_____ humorous

_____ marvelous

E Work with your partner. Write a noun for each adjective in **D**. Write sentences with the nouns and adjectives.

Writing Study

F Learn Giving Examples

Use **for example**, **for instance**, and **such as** to explain your ideas. Notice where the commas are placed.

There are many ways to keep fit, **for example**, swimming, jogging, or playing a sport.

I can play several instruments, **for instance**, the guitar, the piano, and the recorder.

We learn many things at school, **such as** music, art, and history.

Correct the punctuation in the sentences.

- 1 Maria can play many team sports such as basketball, baseball, and soccer.
- 2 I like many different vegetables for example peas, cabbage, and carrots.
- 3 My aunt has a lot of interests such as reading, singing, and traveling.
- 4 They visited several places for instance Korea, Turkey, Jordan, and Mexico.

Write Now practice writing in the **Workbook**. page 97

Writing

A Read the travel brochure.

Welcoming message

Visit Brazil! It's a fantastic country full of sights, culture, and great food.

Things to See and Do

First point

First, you can visit the Amazon forest, in the north of Brazil. It's the biggest tropical forest in the world. It's nine times bigger than Italy! In the Amazon, there are snakes, jaguars, crocodiles, and sloths. There are many species of birds, too, including the toucan.

Second point

Next, you can visit some of our famous cities, like Rio de Janeiro or São Paulo. Many people think Rio is the most beautiful city in Brazil. It's mountainous, but it also has beaches. The people are very friendly. You'll love it!

Third point

Then why don't you explore some Brazilian culture? We have beautiful buildings. Portuguese people built many of these buildings 300 years ago. You can also see Brazilian art and listen to Brazilian music.

Conclusion

Finally, you can discover some Brazilian traditions and customs. The most famous tradition is the carnival in Rio. People dress in amazing costumes and dance in the street. Or you can go to Boi-Bumbá in Parintins. It's a festival with parades, shows, and Brazilian food. Don't forget to taste the coconut milk. It's delicious!

See you soon in Brazil!

B Answer the questions.

- 1 How does the writer start the travel brochure?
- 2 How does the writer organize the information about Brazil?
- 3 What different things does the writer describe?

C Learn Writing a Travel Brochure

- Start your travel brochure with a welcoming message that makes people want to visit.
- Use transition words (*first, next, then, finally*) to organize what you want to say.
- Describe as many things about the country you've chosen as you can. Talk about the wildlife, cities, customs, traditions, and food.

 **Write** Now go to the **Workbook** to plan and write your own travel brochure. page 99

D Make and present your travel brochure.

- 1 Choose a location you'd like to visit. Then write your brochure.
- 2 Draw some pictures to illustrate your travel brochure.
- 3 Glue your brochure to a large piece of paper.
- 4 Display the large piece of paper on your classroom wall.
- 5 Present your travel brochure to a small group.
- 6 Remember: You want your classmates to visit your country, so make it sound exciting and fun!

BIG QUESTION 5

What do different cultures give to the world?

- A Watch the video. What things do you see from different countries? 
- B What are some answers to the Big Question? Talk about them with your partner.
- C Complete the **Big Question Chart**. Then discuss it with the class.

Big Question Chart

What do different cultures give to the world?

What I do you know?	What do you want to know?

UNITS
11-12

BIG QUESTION 6

Why are mountains important?

In these units you will:

WATCH
a video about mountains.

READ
a story and an article about mountains.

PRESENT
your story to the class.

LEARN
how mountains give us many things.

WRITE
a story of your own.

- A** Watch the video. Then talk about it with your partner. ▶
- B** Look at the picture and discuss it with your class.
- 1 What lives in the mountains?
 - 2 What is it like at the top or at the bottom of a mountain?
- C** Think and answer the questions.
- 1 Where are the world's biggest mountains?
 - 2 Which mountains are nearest to where you live?
 - 3 What can you do in the mountains?
 - 4 Why do you think people climb mountains?
- D** Discuss this topic with your class. Fill out the **Big Question Chart**.

Big Question Chart

Why are mountains important?

What do you know?	What do you want to know?	What did you learn?

Words

A Listen and say the words. Then read and listen to the sentences.  3:02

- glacier mountain range peak altitude valley steep
slope hill terrace effective water cycle vapor

- 1 When **glaciers** melt, they produce water.
- 2 The Himalayas are an example of a **mountain range**.
- 3 The **peak** of Mount Everest is 8,848 meters above sea level.
- 4 Sometimes it's hard to breathe at high **altitudes**.
- 5 We hiked from the **valley** to the top of the mountain.
- 6 The mountain was **steep** and difficult to climb.
- 7 The girl skied quickly down the **slope**.
- 8 From the top of the **hill**, we could see our house.
- 9 To plant rice, farmers carved **terraces** into the mountains.
- 10 To be **effective**, mountain-climbing ropes must be strong.
- 11 In the **water cycle**, water evaporates and clouds produce rain.
- 12 When water boils, we see **vapor**.

B Look at the picture and number the words.

- _____ mountain range
- _____ peak
- _____ slope
- _____ valley
- _____ glacier
- _____ terrace
- _____ hills

C Circle *T* (True) or *F* (False)?

- | | | | | | |
|----------------------------------|----------|----------|----------------------------------|----------|----------|
| 1 Stairs can be steep. | T | F | 4 Altitude equals height. | T | F |
| 2 Clouds are in the water cycle. | T | F | 5 Some medicines are effective. | T | F |
| 3 A cold soda makes vapor. | T | F | 6 Valleys are higher than peaks. | T | F |

Before You Read

Think Do you eat rice or potatoes? Do you know where they grow?

D Learn Cause and Effect

When you read, think about cause and effect. The reason why something happens is the **cause**. What happens as the result of the cause is the **effect**. You can use a cause-and-effect organizer like the one below to help you.

It was raining. I got wet.
 cause effect

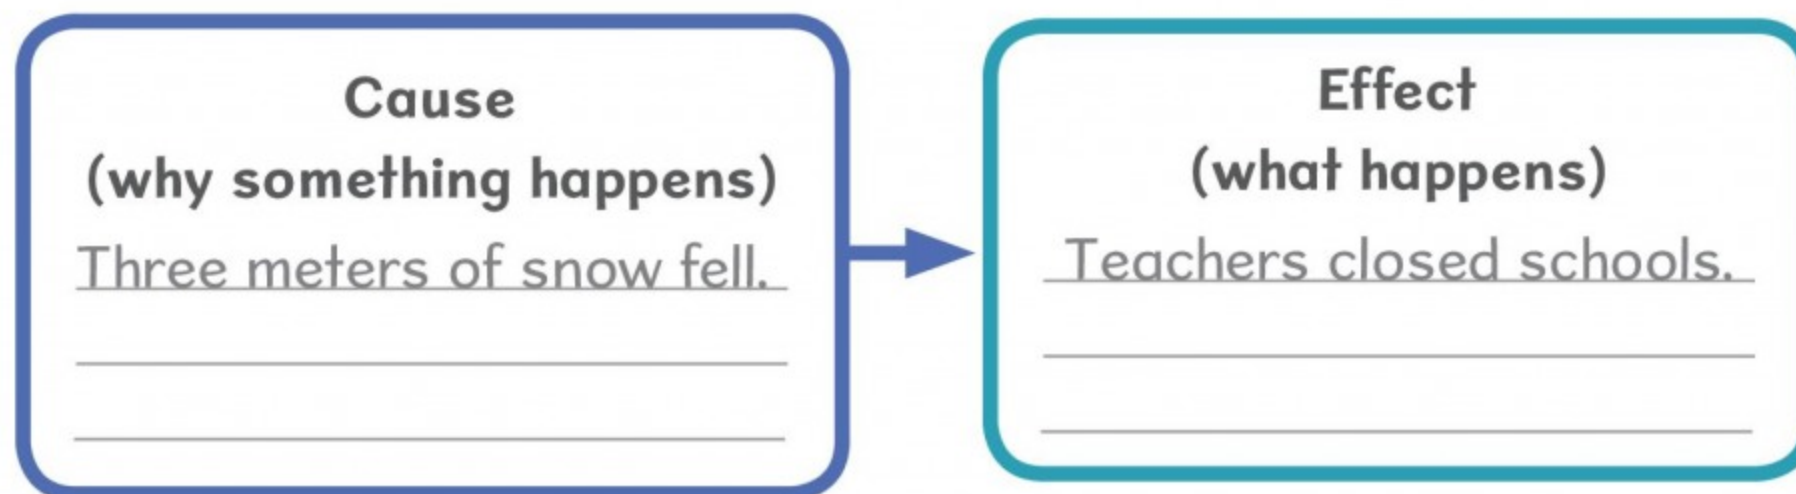

Read the article. Then fill in the organizer.

Cause and Effect Times

Farmers were very pleased in Australia today. Just the right amounts of rain and sun resulted in an enormous harvest of grain and vegetables. It was the biggest harvest on record.

Meanwhile, in sports, soccer fans were sad to hear that Bucky Goals retired today. Sports experts blamed his injuries from last season for his decision to stop playing.

In the weather, Norwegian teachers closed schools today because 3 meters of snow have fallen there in the past week. Shall we go sledding?

E Words in Context Scan the text on pages 112–113 and circle these words. As you read, try to guess what the words mean.

transformed condenses released flows storing resources

F Turn to pages 112–113, and read the headings. What do you think you'll learn about mountains?

What's So Good About Mountains?

In this *informational text*, the author explains why mountains are important for people and animals. An informational text gives information and presents facts. You can find informational texts in books, magazines, and on the Internet. As you read, look for causes and effects to help you understand why mountains are important.

Earth Science

What's So Good About Mountains?

Water!

When you're thirsty, you drink water. When you want to take a shower, you turn on a faucet. But did you ever think about where all the water comes from? One reason mountains are important is that they provide fresh water for over half of all the people in the world. That's about three-and-a-half billion people! Can you imagine how much water is used by all those people?

When the sun warms water in rivers and oceans, the liquid is transformed into water vapor that rises into the air. When enough water vapor cools, it condenses, and small drops of water are formed. The drops of water turn into clouds. In the clouds, small drops of water join to make larger drops. When those drops become too heavy, they are released as rain or snow. Some rain soaks into the ground, and some of the rain runs over the ground into streams, rivers, lakes, and the ocean. This process is called the **water cycle**.

Mountains can affect the water cycle. The size and shape of a mountain pushes the water vapor up toward the mountaintop. When water drops fall on mountains, most of the water is stored as snow, and as ice in **glaciers**. When the snow melts in the spring, the water flows down the **slopes** into streams, waterfalls, and rivers. Mountains are **effective** in storing water and are sometimes called the "water towers" of the world.

All of the big rivers on Earth start in the mountains. For example, in India, the Ganges River starts in the Himalayan **mountain range** and flows for 2,500 kilometers into the Bay of Bengal and the Indian Ocean. Another example is the Rio Grande, which begins in the Rocky Mountains in the United States and flows all the way down to the Gulf of Mexico.

Think Why does rain fall?
What happens before rain falls?

Animals!

Mountains are also important because they provide homes to many animals that don't exist anywhere else on Earth. You can find mountain gorillas in the mountains of East Africa and special bears called *spectacled bears* in the Andes. There are also snow leopards in the Himalayas.

Mount Cameroon is a mountain that is also one of Africa's largest active volcanoes, rising to more than 4,000 meters at its **peak**. It has 210 different species of birds and 70 species of butterflies. Mountains are home to many amazing animals and birds. Unfortunately, some of these animals are becoming rare. This is happening because people are taking more land and using more resources, such as water and wood. They are building farms and roads in the mountains. This means animals have less space to make their homes and find food.

Think Why are some mountain animals becoming rare?

Food!

Did you know that 80 percent of the food we eat comes from just 20 types of plants? Six of these plants are found in the mountains! Do you like French fries? Well, guess what? Potatoes first came from the Andes, the world's longest mountain range, which stretches 7,000 kilometers through South America. Today, farmers in the Andes grow 2,000 different types of potatoes.

In the mountains of Nepal, about 2,000 different types of rice are farmed. Corn is found in the Sierra Mountains of Mexico. And the best quality tea and coffee are grown at an **altitude** of about 1,500 meters. Farmers sometimes build **terraces** into **steep** mountainsides and **hills** to grow crops and help control the flow of water. The terraces made by Inca Indians 500 years ago are still used by farmers in the Andes Mountains in Peru.

Remember how water from rain and snow flows down mountains? With rich soil and a lot of water, mountain **valleys** are often good places to grow fruits, vegetables, and other crops.

Think Why do farmers grow plants in the mountains?

Understand

Comprehension

Think Talk with your partner about three things you learned in “What’s So Good About Mountains?”

A Fill in the organizer with causes and effects from the text on pages 112–113.

Cause (why something happens)	Effect (what happens)
_____	_____
_____	_____
_____	_____
_____	_____

B Circle the correct answer.

- In the mountains, where is the water?
 - in the trees
 - in snow
 - in rocks
 - in a tower
- How many species of birds are there on Mount Cameroon?
 - 70
 - 2,000
 - 210
 - 4,000
- What grows in the mountains?
 - oranges
 - palm trees
 - seaweed
 - potatoes
- Why are mountains important?
 - animals
 - food
 - water
 - all of the above

C **Words in Context** Look again at the words you circled in the text. Write them in the correct sentences.

- The River Thames _____ through London.
- Computers are great for _____ big files, like videos and photos.
- Oil and coal are mineral _____.
- The cloud _____ water as rain and snow.
- The old school has been _____ into a community center.
- When water _____, clouds get heavy and it rains.

Grammar in Use

D Listen and read along. Then circle *True* or *False*.  3.04

People call mountains water towers. Mountains are called water towers.

These sentences mean the same thing. **True** **False**

E Learn Grammar **Passive**

We can say the same thing in two different ways by making active or **passive** sentences. Using the passive is a good idea if you don't know exactly who or what does something.

Active	Passive
People find corn in the mountains.	Corn is found in the mountains.
Do farmers grow potatoes in the Andes?	Are potatoes grown in the Andes?

Write the missing word to change the sentences to the passive.

- 1 People eat potatoes all over the world. Potatoes are _____ all over the world.
- 2 Mr. Bezana grows the strawberries in a greenhouse. The strawberries are _____ in a greenhouse.
- 3 Do people climb mountains in South America? Are mountains _____ in South America?

F Choose three sentences and rewrite them in the passive. Then say them to your partner.

Pizza is eaten in many countries.

People eat pizza in many countries.	Do people grow apples in Korea?
Farmers grow corn in the Andes.	People make French fries from potatoes.
People don't grow rice in England.	

Listening

Think Do you think the weather is the same on all of the mountains in the world?

A Learn Listening for Key Words

Sometimes you need to listen for key information. For example, you may need to fill out a form or a chart. Look at **B**. Read the chart before you listen, and identify any key words that you might need to listen for.

Listen. What is the woman talking about? Check (✓) the correct box.  3.05

mountain weather mountain sports famous mountains

B Listen again and complete the chart.  3.06

Location	Plants	Animals	Weather
peak of the mountain	no plants	no _____	very _____
high up the mountain	some _____ plants	a few _____	cold, _____, and windy
near the bottom of the mountain	many _____ and trees	_____ animals	warm, with some snow in _____

Speaking 3.07

C Take turns interviewing each other about living in the mountains.

- top of the mountain
- bottom of the mountain
- activities
- weather

Word Study

D Learn Prefixes *in-* and *im-*

Remember: A prefix is added to the beginning of words to make new words. The prefixes **in-** and **im-** make the new words negative.

I don't like to wait. I'm **impatient**.

Exercise! You shouldn't be **inactive**.

Listen and say the words. Write the words by adding *in-* or *im-*. Write sentences in your notebook with the words you made by adding prefixes.  3:08 

1 correct _____

5 patient _____

2 possible _____

6 direct _____

3 perfect _____

7 expensive _____

4 active _____

8 polite _____

Writing Study

E Learn Colons

To add a list to an independent clause, use a colon (:) before your list.

We bought food for the party: cake, ice cream, chips, and fruit.

Complete the sentences with your own lists. Use a colon and include at least three things.

1 I like to play these sports _____.

2 I saw these animals on TV _____.

3 I like to do these activities for fun _____.

 **Write** Now practice writing in the **Workbook**.  page 109

BIG QUESTION 6 Why are mountains important?

A Watch the video. 

B Think about the Big Question. Talk about it with a partner.

Mountains are important because they provide fresh water.

What are some other ways that mountains are important?

Words

A Listen and say the words. Then read and listen to the sentences.  3:09

endless

stammer

awestruck

jagged

pointy

miniature

stern

arch

mutter

squirm

scowl

stretch

- 1 The mountain is so big; it looks **endless**.
- 2 I **stammered** when I spoke because I was so nervous.
- 3 The view was so impressive that we felt **awestruck**.
- 4 The **jagged** rocks were uneven and looked sharp.
- 5 Some foxes have long, **pointy** ears.
- 6 Look! It's a **miniature** tree. It's much smaller than a normal one.
- 7 My teacher looked very **stern** when I forgot my homework.
- 8 There is a curved **arch** over the doorway.
- 9 I can't hear what you're saying when you **mutter**.
- 10 Nick **squirmed** in his seat because it was uncomfortable.
- 11 You look angry when you **scowl**!
- 12 I need to **stretch**. I've been sitting down a long time.

B Circle the one that doesn't belong.

- | | | | |
|------------|---------|--------------|------------|
| 1 tiny | huge | miniature | very small |
| 2 stern | serious | cheerful | severe |
| 3 smile | frown | look unhappy | scowl |
| 4 infinite | endless | continuous | limited |
| 5 mutter | listen | talk quietly | whisper |
| 6 sharp | pointy | rounded | peaked |

C Choose the best word to complete each sentence.

- 1 The rocks at the peak of the mountain are _____.
- 2 At the lake, we were often _____ by the beauty of the sunsets.
- 3 Cats like to take naps. When they wake up, they need to _____.
- 4 There is a big stone _____ at the entrance to the library.
- 5 Don't _____ in your seat. Please sit still.

squirm
awestruck
stretch
jagged
arch

Before You Read

Think What sort of person would be a good explorer? Discuss the answer with your partner.

D Learn The Five Ws

When you read a story, think about the **five Ws** (**who**, **what**, **where**, **when**, and **why**). You can use a chart like the one below to help you follow the story.

Read the story. Then fill in the chart.

A Race for Mom

Ana just needed to lace up her sneakers and then she and her older brother would leave for the stadium. She couldn't believe the day had finally arrived. It was a cold morning, but Ana wasn't going to let that bother her. She'd been cold before. At 8:00 a.m., she was going to run in her very first marathon. Her mother wouldn't be there to see her cross the finish line, but that was exactly the point. Ana was running in memory of her mom. She smiled just thinking of how proud her mom would have been.

Who?	
What?	
Where?	
When?	
Why?	

E Words in Context Scan the story on pages 120–121 and circle these words. As you read, try to guess what the words mean.

silhouette shielded teasing folded embarrassed distant

F Now turn to pages 120–121. Read the title and look at the pictures. What do you think the story is about?

The Lost Explorer

In this story, you'll read about a boy and a girl who meet an old man in the mountains. This story is a *fictional narrative*, which means it was invented by an author. The story didn't happen in real life. A fictional narrative has characters, a plot, and a setting. As you read, think about the five Ws.

Susannah Appelbaum is the author of the critically acclaimed children's series *The Poisons of Caux*. She comes from a long line of doctors and philosophers, but alas, no explorers.

The Lost Explorer

“Listen, a waterfall!” Samantha said.

Her brother Robert listened. There was the tinkling, musical sound of water from somewhere up the path. The dark silhouette of Entwhistle Peak, a jagged mountain in the Andes range, towered above them against the sky.

Samantha looked for her parents, who were picnicking in the field below, and then dashed off after Robert. They stopped beside an outcrop of pointy rocks and a beautiful, deep pool. From high above, a thin stream of water tumbled, catching the light.

“It’s so beautiful here,” Samantha sighed.

Robert shielded his eyes, scanning the sky. Miniature birds circled the summit of the mountain.

“There’s an old stone tower up there,” Robert said. “I bet it’s Sir Geoffrey Entwhistle’s secret fort.”

Samantha knew the mountain was named for the famous explorer, but she also had read her nature guide back at the lodge.

“It’s hardly a secret on top of the mountain,” Samantha said, teasing.

“Besides, it’s an old weather station.”

“We’ll see about that,” Robert muttered.

“Wait!” she called, but he was gone.

The thin path disappeared around a rocky bend, and when Samantha finally scrambled up, her brother was nowhere to be seen. The open sky was slate gray and filled with clouds; a storm was rolling in. Behind her, the descent to the valley was very steep.

Think Which of the five Ws can you answer?

My brother and his crazy ideas, she thought.

A stick snapped and Samantha jumped. Robert was bounding out from beneath some trees. She **scowled** at her brother and folded her arms across her chest. “You scared me!”

“I told you it was his secret fort!” Robert said, pointing.

A set of stone stairs was carved into the side of the mountain beneath a gated **arch**. The steps twisted around the peak.

“This is it!” he called over his shoulder. Samantha scrambled after him, and they emerged before a **stern**-looking tower. “The explorer’s hiding place!” Robert said, triumphant.

“The weather station,” Samantha corrected.

As she spoke, the tower door swung open, and a kind-looking old man stood in the doorway.

“Hello there,” the man said. “It’s not often I get visitors.”

“Who—who are you?” Robert **stammered**.

“I am a scientist. The mountain is a great place to observe nature and weather patterns. For over twenty years, the weather forecasts that were shown on TV were mine.” He smiled at the pair.

“And who are you?”

“I am Samantha,” she said. “And this is my brother Robert.”

Robert scowled; his face was flushed and embarrassed.

“Don’t mind him. He thought you were a lost explorer. Sir Geoffrey Entwhistle.”

“Lost, is he? He must not be a very good explorer,” the old man said. “Well, Samantha and Robert, come in for a cup of hot cocoa. The storm will clear soon.”

Inside there was a crackling fire, and shelves held old books and strange metal objects.

“I have the best job in the world,” the old man said. “This mountain is not only a scientific outpost, it is a place of great beauty. I’ve been here for many years.”

Just then, the sun peeked out from behind the storm clouds. The view was breathtaking; the mountain range **stretched** out in all directions and the sky was reflected in a distant lake. Samantha and Robert marveled at the sight.

“I’ll show you the way home,” the old man said, opening the door. “If you trust me to not get lost.” He winked at Robert.

“Wait,” Samantha said. “We haven’t learned your name!”

“Ah,” he said. “My friends call me Geoffrey.”

Think Which of the five Ws can you answer?

Understand

Comprehension

Think Talk with your partner about the characters in the story. Who was your favorite character in "The Lost Explorer"? What did you think about where the story was set?

A Re-read the story and fill in the chart. Then compare answers with your partner.

Who?	
What?	
Where?	
When?	
Why?	

B Circle the correct answer.

- Geoffrey Entwhistle had a secret _____
 - castle.
 - hiding place.
 - fort.
 - treehouse.
- Samantha and Robert's parents were _____
 - at the hotel.
 - having a picnic.
 - visiting relatives.
 - home.
- Mr. Entwhistle is a _____
 - scientist.
 - doctor.
 - writer.
 - teacher.
- Robert's face flushed when Samantha introduced him because _____
 - he was afraid.
 - he was hungry.
 - he was crying.
 - he was embarrassed.

C **Words in Context** Look again at the words you circled in the story. Write them in the correct sentences.

- Joey _____ his arms and looked angry.
- I was very _____ when I broke the window with my ball.
- It's dark, but I can see a _____ of a person through the window.
- The sun was too bright, so I _____ my eyes.
- We heard a _____ noise that sounded like an animal.
- Please stop _____ your little sister. It isn't nice.

Grammar in Use

D Listen and read along. Then circle *True* or *False*.  3-11

Mount Everest was climbed in 1953.

Sir Edmund Hillary and Tenzing Norgay climbed Mount Everest in 1953.

These sentences mean the same thing. **True** **False**

E Learn Grammar **Past Passive**

Remember: You can use the active or the passive to say the same thing in two different ways. You can also do this in the past tense.

Active	Passive
Someone broke my mom's favorite vase.	My mom's favorite vase was broken .
Someone showed the weather forecasts on TV.	The weather forecasts were shown on TV.

Read the story. Circle all the verbs you can find.

Last year, people organized a big party in my town. People put up decorations. People cooked food and played music. Children played games. Adults gave children gifts. People ate a lot of candy and cakes. Restaurants prepared ice cream and sodas. People lit fireworks! It was a fantastic party!

Last year, a big party was organized in my town.

F Work with your partner. Take turns re-telling the story using the passive.

Listening

Think Do you listen to or watch weather reports? How can a weather report help you plan your day?

- A** Listen. Who is speaking?  3-12
- B** Listen again and circle the correct answer.  3-13

- 1 In the early morning, it will be **cloudy and breezy** / **sunny and calm**.
- 2 By noon, people will be able to **go skiing** / **go hiking**.
- 3 People should take **a sweater** / **an umbrella**.
- 4 After 4:00 p.m., people should **go home** / **keep hiking**.
- 5 On the upper slopes, there will be **fog and heavy rain** / **clouds and sunshine**.

Speaking 3-14

C **Learn** Asking for Advice

You can ask someone to give you advice by using **Do you think ... ?** and **Would it be a good idea to ... ?**

Do you think I should go hiking today? **Would it be a good idea to** take some climbing equipment?

Work with your partner. Take turns asking and giving advice about these situations.

- You are going to the beach on a very hot day.
- You are going to the mountains on a cold and snowy day.

I'm going to the mountains. Do you think I should ... ?

Yes, I think you should ... / No, I don't think ...

Would it be a good idea to ... ?

Yes, that sounds like a good idea.

I'm going to the beach. Do you think I should ... ?

Yes, I think you ...

Word Study

D Learn More Synonyms

Remember: **Synonyms** are words that mean almost the same thing. They help you write in a more interesting way.

The room was **large**. He had never seen such a big room.

I'm big.

He's large!

Listen and say the words. Match each word with its synonym. Work with your partner to write sentences for four words and their synonyms.

- | | | | | | | | |
|---------|----------|--------------|----------|------------|-----------|------------|-----------|
| 1 shine | 2 ill | 3 frightened | 4 clever | 5 gigantic | 6 weird | 7 cautious | 8 swift |
| • | • | • | • | • | • | • | • |
| • | • | • | • | • | • | • | • |
| a sick | b afraid | c careful | d smart | e huge | f sparkle | g quick | h strange |

Writing Study

E Learn Irregular Past Participles

Remember: Some verbs in the past tense are irregular. They have **irregular past participles**.

Present	Past	Past Participle
choose	chose	chosen
fly	flew	flown

He **chose** to go out in the snowstorm.

The birds **have flown** away.

Circle the correct verb form.

- 1 He **break** / **broke** / **broken** through the ice with a big stick.
- 2 A book was **written** / **wrote** / **write** about the mountain climber.
- 3 After many years, the name of the explorer was **knew** / **know** / **known**.
- 4 Robert **give** / **given** / **gave** Samantha a path to follow.
- 5 The climber broke his leg. He was **took** / **taken** / **take** to the hospital.

Write Now practice writing in the **Workbook**. page 117

Writing

A Read the story.

MOUNTAIN HIKE

When — It was a **cold January afternoon**
Who — and **Silvia and Marco** were
Where and why — scared. They'd left home early that morning to **go for a long hike in the mountains**. They'd walked several kilometers uphill in beautiful sunshine, and on the way, they'd seen gazelles, rabbits, and hawks.

At lunchtime, they'd stopped in a valley by a clear mountain stream to eat their sandwiches and play a game of ball. But now, in the late afternoon, clouds were appearing over the peaks, and rain was beginning to fall. To their surprise, the sky became very dark, almost as dark as night. Silvia and Marco realized they were lost.

Why — Suddenly, a loud noise far away made both children jump. Snow was sliding off a jagged mountain, causing an avalanche. Silvia and Marco knew that **avalanches were very dangerous**. Sometimes people were
What — trapped in the falling snow. The children began to **run back down the slope** to safety, as fast as their legs would carry them. Luckily, the avalanche was much higher up the mountain. In the distance, they could see the bright, welcoming lights of their hometown, so they ran faster and faster, hoping that the sun would soon come out from behind the endless clouds to light their way.

B Answer the questions.

- 1 Where does the story take place?
- 2 Who are the characters?
- 3 When is the story happening?
- 4 Why are Silvia and Marco on the mountain?
- 5 What do the children do?

C Learn Writing a Story

Remember to give details to answer these questions when you write a story.

- **Characters:** Who will be in your story? What are their names?
How do they know each other?
- **Setting:** Where and when does the story take place?
- **Problem:** What happens in the story? What problem do the characters have?
- **Solution:** How is the problem solved? How does the story end?

Write Now go to the **Workbook** to plan and write your own story. **page 119**

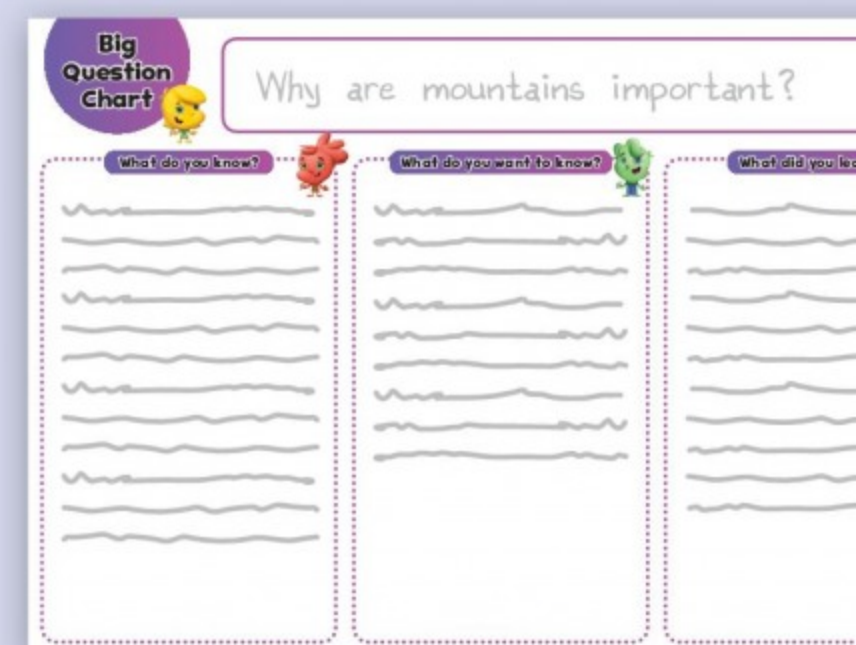

D Practice presenting your story.
Then share your story with the class.

- 1 Practice reading your story aloud.
- 2 Decide where you can add gestures to the important parts of your story.
- 3 Practice using expression in your voice.
- 4 Read your story to the class.
- 5 Have fun! If you're having fun, the class will, too!
- 6 Ask your classmates what they like about your story.
- 7 After everyone has read their story, talk about the stories that you enjoyed.

BIG QUESTION 6 Why are mountains important?

- A** Watch the video. How are the mountains you see important? 
- B** What are some answers to the Big Question? Talk about them with your partner.
- C** Complete the **Big Question Chart**. Then discuss it with the class.

Reading and Writing

- A** Read the article. Are sentences 1–5 *right* (a) or *wrong* (b)? If there is not enough information to answer *right* (a) or *wrong* (b), choose *doesn't say* (c). Circle your answer.

Sometimes, people and animals behave in similar ways. Most animals and people will fight to defend their young. Animals and humans will collaborate with members of their own species to find food or shelter. When it comes to expressing ourselves, humans use speech, sound, and body movement. Animals aren't much different; they use sound and body movements, too. However, humans don't always succeed in communicating with each other, and neither do animals!

- 1 Animals are better than humans at collaborating to find food and shelter.
a right b wrong c doesn't say
- 2 Humans and animals communicate in very different ways.
a right b wrong c doesn't say
- 3 Humans often use computers to communicate with members of their own species.
a right b wrong c doesn't say
- 4 Animals sometimes use body movement to communicate.
a right b wrong c doesn't say
- 5 Members of the human species will fight to defend their children.
a right b wrong c doesn't say

- B** Write a postcard in your notebook. Invite your friend Charles to come to an amusement park with you. Write 25–30 words.

You might include:

- where and when to meet
- what Charles should bring
- who else is coming
- what you plan to do there

Tip

Use transition words to organize your writing (*first, then, next, and finally*).

Listening

C You will hear a short conversation. You will hear the conversation twice. After the conversation, match the pictures and words.  3:16

Tip

Before listening to the conversation, look at the pictures and read the words.

1

● a creamy

2

● b nutty

3

● c great

4

● d spicy

● e crunchy

● f delicious

● g smooth

Speaking

Part 1 Work with a partner. Ask and answer questions about your daily life.

- 1 What time do you usually get up in the morning?
- 2 What time do you usually leave your house for school in the morning?
- 3 How do you get to school?
- 4 What are your favorite foods to have for lunch?
- 5 What do you usually do after school?
- 6 What time do you go to bed on school nights?

Part 2 Your teacher will give you a sheet of paper with some information on it. One of you will get questions and one of you will get answers. Ask and answer with your partner.

BIG QUESTION 7

Why do we use money?

In these units you will:

WATCH
a video about money.

READ
a folk tale and learn about the history of money.

PRESENT
your summary to the class.

LEARN
about how money is used.

WRITE
a summary.

- A** Watch the video. Then talk about it with your partner. ▶
- B** Look at the picture and discuss it with your class.
- 1 Why are there different kinds of money?
 - 2 Why do we have money?
- C** Think and answer the questions.
- 1 What is money?
 - 2 What do you use money for?
 - 3 What can people do with money?
 - 4 What is the money in your country called?
- D** Discuss this topic with your class. Fill out the **Big Question Chart**.

Big Question Chart		
Why do we use money?		
What do you know?	What do you want to know?	What did you learn?
<hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/>

Words

A Listen and say the words. Then read and listen to the sentences.  3•17

terrifying

nervously

rudely

politely

fierce

aggressively

delicate

bravely

greedy

shyly

wise

calmly

- 1 The big thunderstorm last night was **terrifying**.
- 2 "What have I done wrong?" I asked **nervously**.
- 3 "Go away!" the boy shouted **rudely**.
- 4 "May I help you?" the waiter asked **politely**.
- 5 The lion looked very **fierce** with its huge teeth and claws.
- 6 People sometimes behave **aggressively**. They attack others.
- 7 Vases are very **delicate**. They can break easily.
- 8 The firefighters **bravely** went into the burning house.
- 9 **Greedy** people always want more of everything.
- 10 He smiled at me **shyly** because he didn't know me.
- 11 **Wise** people make good decisions.
- 12 Tom reacted **calmly** to the bad news. He wasn't upset.

B Match. Then write another answer to each question.

- | | | | |
|-------------------------------------|---|---|-----------------|
| 1 What word describes a shy person? | ● | ● | a bear |
| 2 What things are delicate? | ● | ● | b thunderstorm |
| 3 What weather can be fierce? | ● | ● | c quiet |
| 4 What animal is terrifying? | ● | ● | d taking a test |
| 5 What makes students feel nervous? | ● | ● | e flowers |

C Which words have a positive meaning? Which are negative? Fill in the chart.

rudely politely greedy calmly aggressively bravely wise

Positive		Negative	

Before You Read

Think Answer the questions.

- 1 What is a thief?
- 2 What kinds of things do thieves steal?

D Learn Summarizing

Summarizing means re-telling the most important parts of a story or an article. Imagine that you're going to tell a friend what you've read. What is the text about? What are the important events?

Use a chart like the one below to help you summarize.

Re-read "Choco Choco Boom Boom!" on pages 100–101. Write the important events from the story in the chart. Then complete the sentences to summarize the story.

Title:	
Main character:	
Main idea:	
Important event:	
Important event:	
Important event:	

A girl named _____ visits _____ and wants to taste the best _____. She finds a _____ where the shopkeeper gives her a special _____. When she eats half of the chocolate, she feels dizzy. She opens her eyes to see that she's in a _____ where a man is making chocolates. He is _____, the inventor of the praline. He teaches her how to make _____, and then it's time to go. Akiko eats the other half of the praline and ends up back in the store in Brussels.

E Words in Context Scan the story on pages 134–135 and circle these words. As you read, try to guess what the words mean.

muscles growling stirring mouth-watering tempting staring

F Look at the pictures on pages 134–135. Which character do you think is rude and aggressive? How do you know?

The Sound of Money and the Smell of Soup

This story is a Turkish *folk tale* about a boy who is accused of stealing something. *Folk tales* are stories that have been passed down through generations. They usually contain a valuable lesson that the reader can learn from. As you read, think about the setting, the characters, the problem, and the solution. This will help you summarize the story.

The Sound of Money

Many more years ago than anyone can remember, there was a young man named Erman who lived in a village in the Kingdom of Atinka, a country far away from everywhere.

Erman had little money. In fact, he only had three gold coins. One day, Erman went on a journey to find a job. He traveled over land and sea, through deserts and forests, across rivers and mountains, until he arrived in a city. As he looked around, he was fascinated by the sights, sounds, and smells of the market. There were people selling jewels, spices, leather, delicate vases, and clothes. There were donkeys, sheep, goats, and camels. There were musicians banging drums and playing flutes. Surely here Erman would find a job!

Erman saw a sign: ROOM TO RENT. Very nervously, he knocked at the door. A terrifying man with huge muscles opened it.

“What do you want?” the man hollered rudely.

“A room, please, sir,” answered Erman politely.

“Three gold coins!” replied the man. He looked fierce. Erman began to shake.

“But, but ... ,” said Erman.

“Three gold coins!” repeated the man aggressively. Erman had no choice. Handing the man the only three coins he had, he went up to his room.

The next morning, Erman woke up early. He was starving! What was that delicious smell? It was a tasty mixture of chicken, carrots, spices, herbs, and garlic. Erman’s stomach made a growling noise like a tiger. He galloped down the staircase, following the smell with his nose in the air.

In the kitchen, the rude man was stirring a pot of soup as big as a bathtub with a wooden spoon. Several people were waiting to pay for their lunches. Erman turned to the man bravely and said, “May I have some of that mouth-watering soup?”

Think What is the setting for the story? Who are the characters so far?

and the Smell of Soup

“And you want to be paid for the smells?” asked the Hodja.

“Yes, I do!” bellowed the man.

“Then I will pay you,” said the Hodja calmly. He took three gold coins from his pocket and, one by one, he threw them into a metal bowl.

“Three gold coins,” yelled the man threateningly.

“But, but ...,” said Erman. He didn’t have any gold coins left, so he went back up to his room. He pulled a chair onto his balcony. From there, he could smell the soup with all its tempting flavors.

Sniff, sniff, sniff. Erman sucked in the air and imagined he was eating the greedy man’s soup.

“What are you doing?” yelled the man. He was standing on the street, staring up at Erman.

“Nothing,” said Erman shyly. “I was just smelling your delicious soup.”

“You are a thief!” screamed the man. “You have stolen my smells! I will take you to court and make you pay for the smell of my soup!”

He dragged Erman down the staircase, along the street, and straight into the law court.

In the court, the Hodja, who was a wise man and a judge, was reading a newspaper, as he often did. Everybody asked him to decide who was right and who was wrong. That was the Hodja’s job. The Hodja looked at Erman, and then he looked at the terrifying man.

“What’s the problem?” he asked.

“This boy has stolen my smells!” screamed the man. His face was purple with anger.

Think What is the problem?

“There you are,” said the Hodja, returning to his newspaper. “You can leave now.”

“But ... but ... where’s my money?” cried the man. The Hodja looked at the man over the top of his newspaper.

“I have paid you for the smell of soup with the sound of money,” the Hodja said fiercely. “Now, go away!”

Comprehension

Think In your opinion, who was right in the story? Was it the Hodja or the soup maker? Talk about it with your partner.

A Fill in the chart with information from the story. Then write a summary of the story in your notebook.

Title:	
Main character:	
Main idea:	
Important event:	
Important event:	
Important event:	

B Write answers to the questions in your notebook. Discuss them with your class.

- 1 Why did Erman leave his home in the Kingdom of Atinka?
- 2 What did the rude man think Erman was stealing?
- 3 Did Erman think he was stealing?
- 4 How did the Hodja solve the problem?
- 5 What lesson can we learn from this folk tale?

C Words in Context Look again at the words you circled in the story. Then write them in the correct sentences.

- 1 A man with huge _____ lifted the giant weight.
- 2 The hungry wolf was _____ loudly somewhere in the forest.
- 3 Please stop _____ at me. It's impolite.
- 4 The cook took a large spoon and began _____ a big pot on the stove.
- 5 The smell of the delicious cookies was _____.
- 6 Jen was so hungry that just the thought of a delicious meal was _____.

Grammar in Use

D Listen and read along. Then circle the correct answer.  3.19

Which sentence tells you more about the soup?

- a** He cooked some soup. **b** He cooked some delicious soup.

E  **Learn Grammar** Adjectives and Adverbs

Remember: **Adjectives** tell you more about nouns.

A **terrifying** man with **huge** muscles opened the door.

Adverbs tell you more about verbs. An **adverb of manner** tells you how something happens.

“Three gold coins!” repeated the man **aggressively**.

An **adverb of frequency** tells you how often something happens.

The Hodja was reading a newspaper, as he **often** did.

Use the adjectives and adverbs in the box to improve the sentences.

hungrily nervously quickly often

- 1 I ran _____ up the stairs.
- 2 “What’s for dinner?” asked Sam _____.
- 3 Police officers _____ chase thieves.
- 4 “Are you OK?” the man asked _____.

The little boy
greedily ate all
the grapes.

My sister can
paint beautiful
pictures.

F Think of sentences for each word and say them to your partner.

**beautiful sometimes greedily
noisily fierce always**

Listening

Think Do you save money? Do you think it's easier to spend money or save it?

A Listen to the conversation. Circle *True* or *False*.  3-20

- | | | |
|--|-------------|--------------|
| 1 The money bank has five separate slots. | True | False |
| 2 The money bank is transparent. You can see the money in it. | True | False |
| 3 Saving money is for things you want to buy in many years' time. | True | False |
| 4 Investing money is for things you want to buy in many years' time. | True | False |
| 5 You cannot get your money out of the money bank. | True | False |
| 6 <i>Donating</i> doesn't mean the same as <i>giving</i> . | True | False |

B Listen again. What is the difference between saving and investing money? What would you donate money to? Discuss your answers with the class.  3-21

Speaking 3-22

C **Learn** Future Plans

Use **want to** and **need to** when talking about future plans.

I **want to** save money for a new soccer ball.

I **need to** invest money for a new computer.

Ask and answer with your partner about the topics.

Things I want now:

- game
- magazine
- sneakers
- T-shirt

Things I need later:

- education
- computer
- home
- car

Word Study

D Learn Phrasal Verbs

Some verbs are used with prepositions such as **across, down, for, in, off, out, up,** and **with**. These two-part verbs are called **phrasal verbs**. The word that comes after the verb changes the meaning.

Phrasal Verb	Meaning	Example
break down	stop working	The car broke down on the road.
break into	enter a building by force	A man broke into our house.
break off	remove a part of something	Break off a piece of chocolate for me.

Listen, say, and number the words. Then work with your partner to use each phrasal verb in a sentence. 3-23

- _____ hand in _____ take off _____ break down _____ break into
 _____ put on _____ take out _____ stand up _____ break off

Writing Study

E Learn Adverbs of Degree

Some adverbs make adjectives and other adverbs stronger. These are called **adverbs of degree**. They include **very, really, absolutely,** and **extremely**.

Pia finished her work **extremely** quickly. These noodles are **absolutely** delicious!

└───┬───┘ └───┬───┘
 adverb adverb adverb adjective

Choose an adverb from the box above to complete each sentence.

- That singer is _____ good.
- The driver drove _____ fast.
- You are _____ right!
- You make cakes _____ well.

Write Now practice writing in the **Workbook**. page 129

BIG QUESTION 7 Why do we use money?

- Watch the video.
- Think about the Big Question. Talk about it with a partner.

The man in the story used money to rent a room.

What are some other ways we use money?

Words

A Listen and say the words. Then read and listen to the sentences.  3•24

- bank
- currency
- coins
- barter
- copy
- bill
- spend
- pay
- borrow
- exchange
- owe
- lend

- 1 People save money by putting it in a **bank**.
- 2 **Currency** is the system of money that a country uses.
- 3 I counted all my **coins**, and I had enough to buy a candy bar.
- 4 When people **barter**, they exchange goods without money.
- 5 You can **copy** an essay or a drawing on a photocopier.
- 6 I don't have any **bills** in my wallet, only coins.
- 7 I don't want to **spend** too much money. I like to save it.
- 8 Let's **pay** for our milkshakes. How much do they cost?
- 9 Can I **borrow** some money from you? I don't have enough.
- 10 I'd like to **exchange** this T-shirt for a different one. It's too big.
- 11 How much do I **owe** you for the book you bought for me?
- 12 Can you **lend** me a little bit of money?

B Look at how the words are used in **A**. Then write them in the correct category.

Things You Can See	Things You Can Do

C Answer the questions as a class. Say as many of your ideas as you can.

- 1 What things do people pay for?
- 2 What's the difference between paying for something and borrowing something?
- 3 What things do you lend to your friends? What things do you borrow?

Before You Read

Think What have you learned about money so far?

D Learn Compare and Contrast

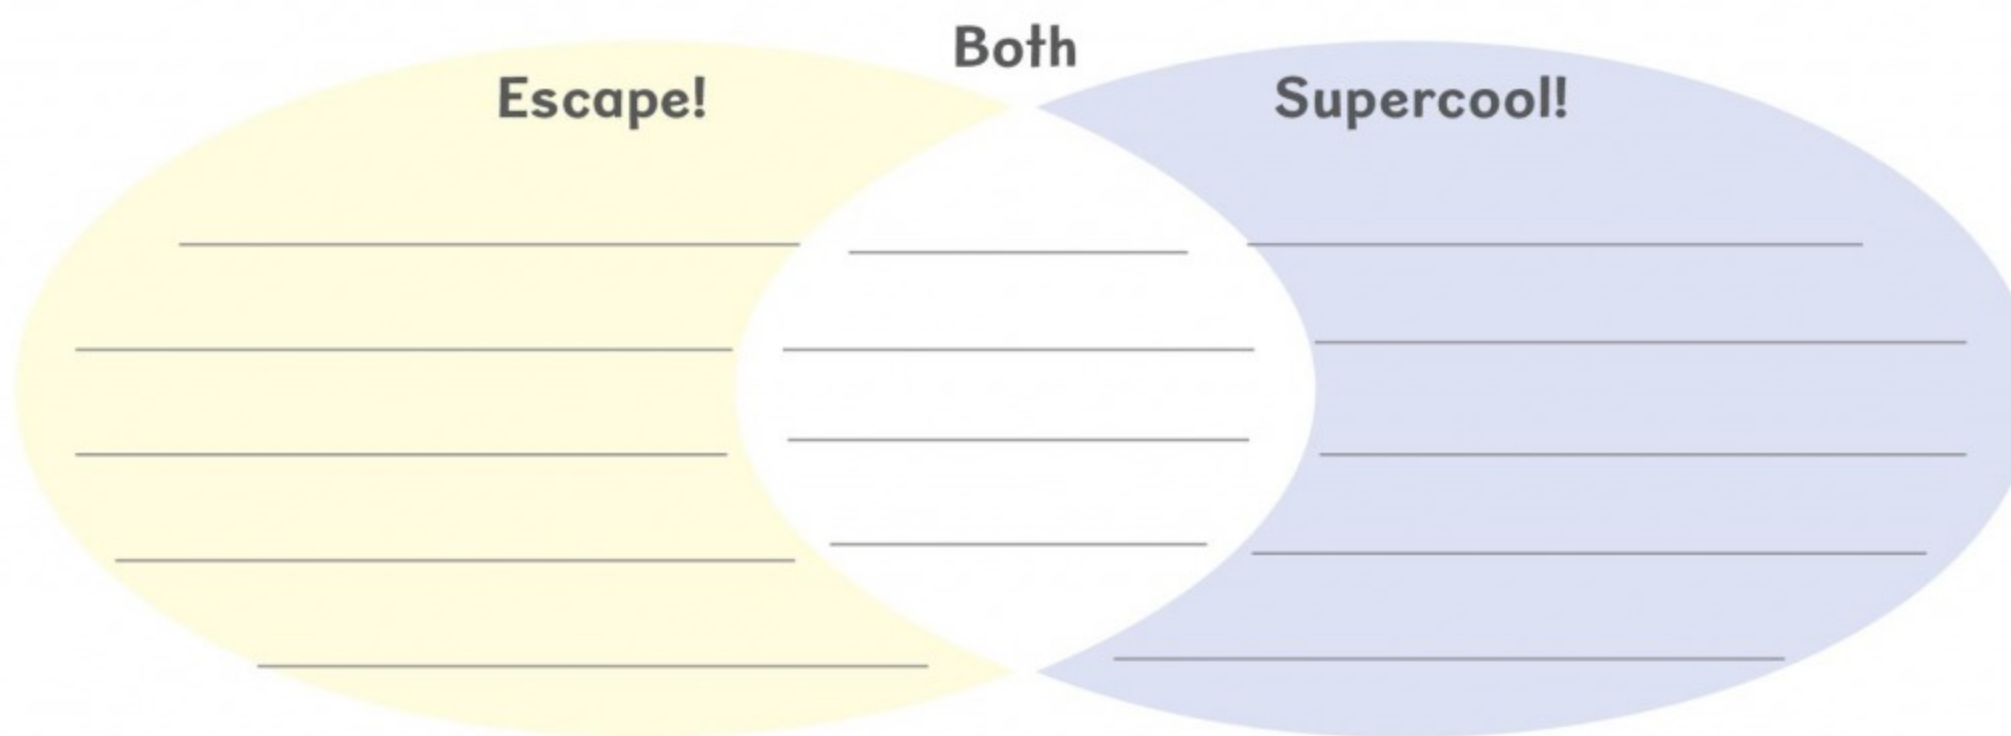

When you read, try to **compare and contrast** the information. *Comparing* means thinking about ideas that are alike. *Contrasting* means thinking about ideas that are different.

Read the text. How are the games different? How are they alike? Fill in the diagram.

Video Games: Which Should You Buy?

There are two new games available this month. *Escape!* is an adventure game set in a castle. *Supercool!* is a mystery game set in a jungle. Both games cost \$9.99, and both can be played on a computer.

Both games have simple instructions and are very easy to play. However, *Escape!* has five levels of difficulty, and *Supercool!* has only three. For more challenge, buy *Escape!*

E Words in Context Scan the article on pages 142–143 and circle these words. As you read, try to guess what the words mean.

crops shells valuable silver print portraits

F Look at the article on pages 142–143. Where do you think the text comes from? How do you know? Share your ideas with the class.

THE HISTORY OF MONEY

In this *website article*, you'll learn about the history of money and different forms of money. A website can provide a lot of information about a topic. It often has links that you can click on to find out more. As you read, compare and contrast the information.

Social Studies: History

Elizabeth Cody Kimmel is an author of over 30 books for children. Her books have been translated and published in countries across the globe.

THE HISTORY OF MONEY

WHEN DID IT ALL START?

Between 11,000 and 6,000 years ago (no one is completely sure when), people started exchanging cows, sheep, camels, and crops to get the things they needed. This is called **bartering**. People barter one thing for another thing. Here's how it worked in the beginning:

FROM SHELLS AND FEATHERS TO COINS

Around 3,000 years ago, people decided that shells were a good form of money. But why? The answer is simple. Shells are beautiful, they're hard, and they don't break easily, so they last a long time. You can't find shells everywhere, and that makes them precious, so shells became valuable. If people wanted something, they would give shells for it. Other people did the same thing with feathers.

Next, about two hundred years later, the first coin was invented in China. The coins were made out of metal. Nowadays, we have small, round coins, but back then, they were made into different shapes in different countries.

Later, people used precious metals, like gold and silver, to make coins. In Lydia, which is now part of the country we call Turkey, a mixture of silver and gold was used to make coins. But guess what? Coins are heavy! If you had a lot of coins in your pocket all the time, they would make a hole!

▲ Before coins, people used feathers or seashells as money.

Think What has changed? Are ideas about money the same or different now?

◀ This is one of the earliest coins ever made.

PRINTED MONEY AND PAPER MONEY

About 1,200 years ago, the Chinese started to print money, but it wasn't paper money. They used leather from animals' skins. It wasn't until the seventh century that they decided to use paper. At last the world had its first paper **currency**. Paper is light and easy to carry. If you had paper money, you wouldn't need so many coins. Strangely enough, it took many more centuries for other countries around the world to start using paper money.

One of the problems with paper money was that it was easy to **copy**. Early banknotes, or **bills**, were printed in black and white. People who could draw well could easily copy them. Now bills are colorful. They have complicated designs, which are often pictures or portraits of people, and metal threads – long, thin lines that go across the bill. That makes them very difficult for anyone to copy.

INVISIBLE MONEY

We still have paper money and coins, but now we also **pay** for things electronically. Many people do their shopping online because now you can buy almost anything you want on the Internet. To **spend** money electronically, we can use cell phones and plastic cards, such as credit and debit cards. Using one of these ways tells the **bank** to pay another person, store, or restaurant for goods or services. We can **borrow** money from the bank this way, too. The bank **lends** us money for a certain amount of time, and we pay back what we **owe** them later. Maybe one day we won't need coins and bills at all!

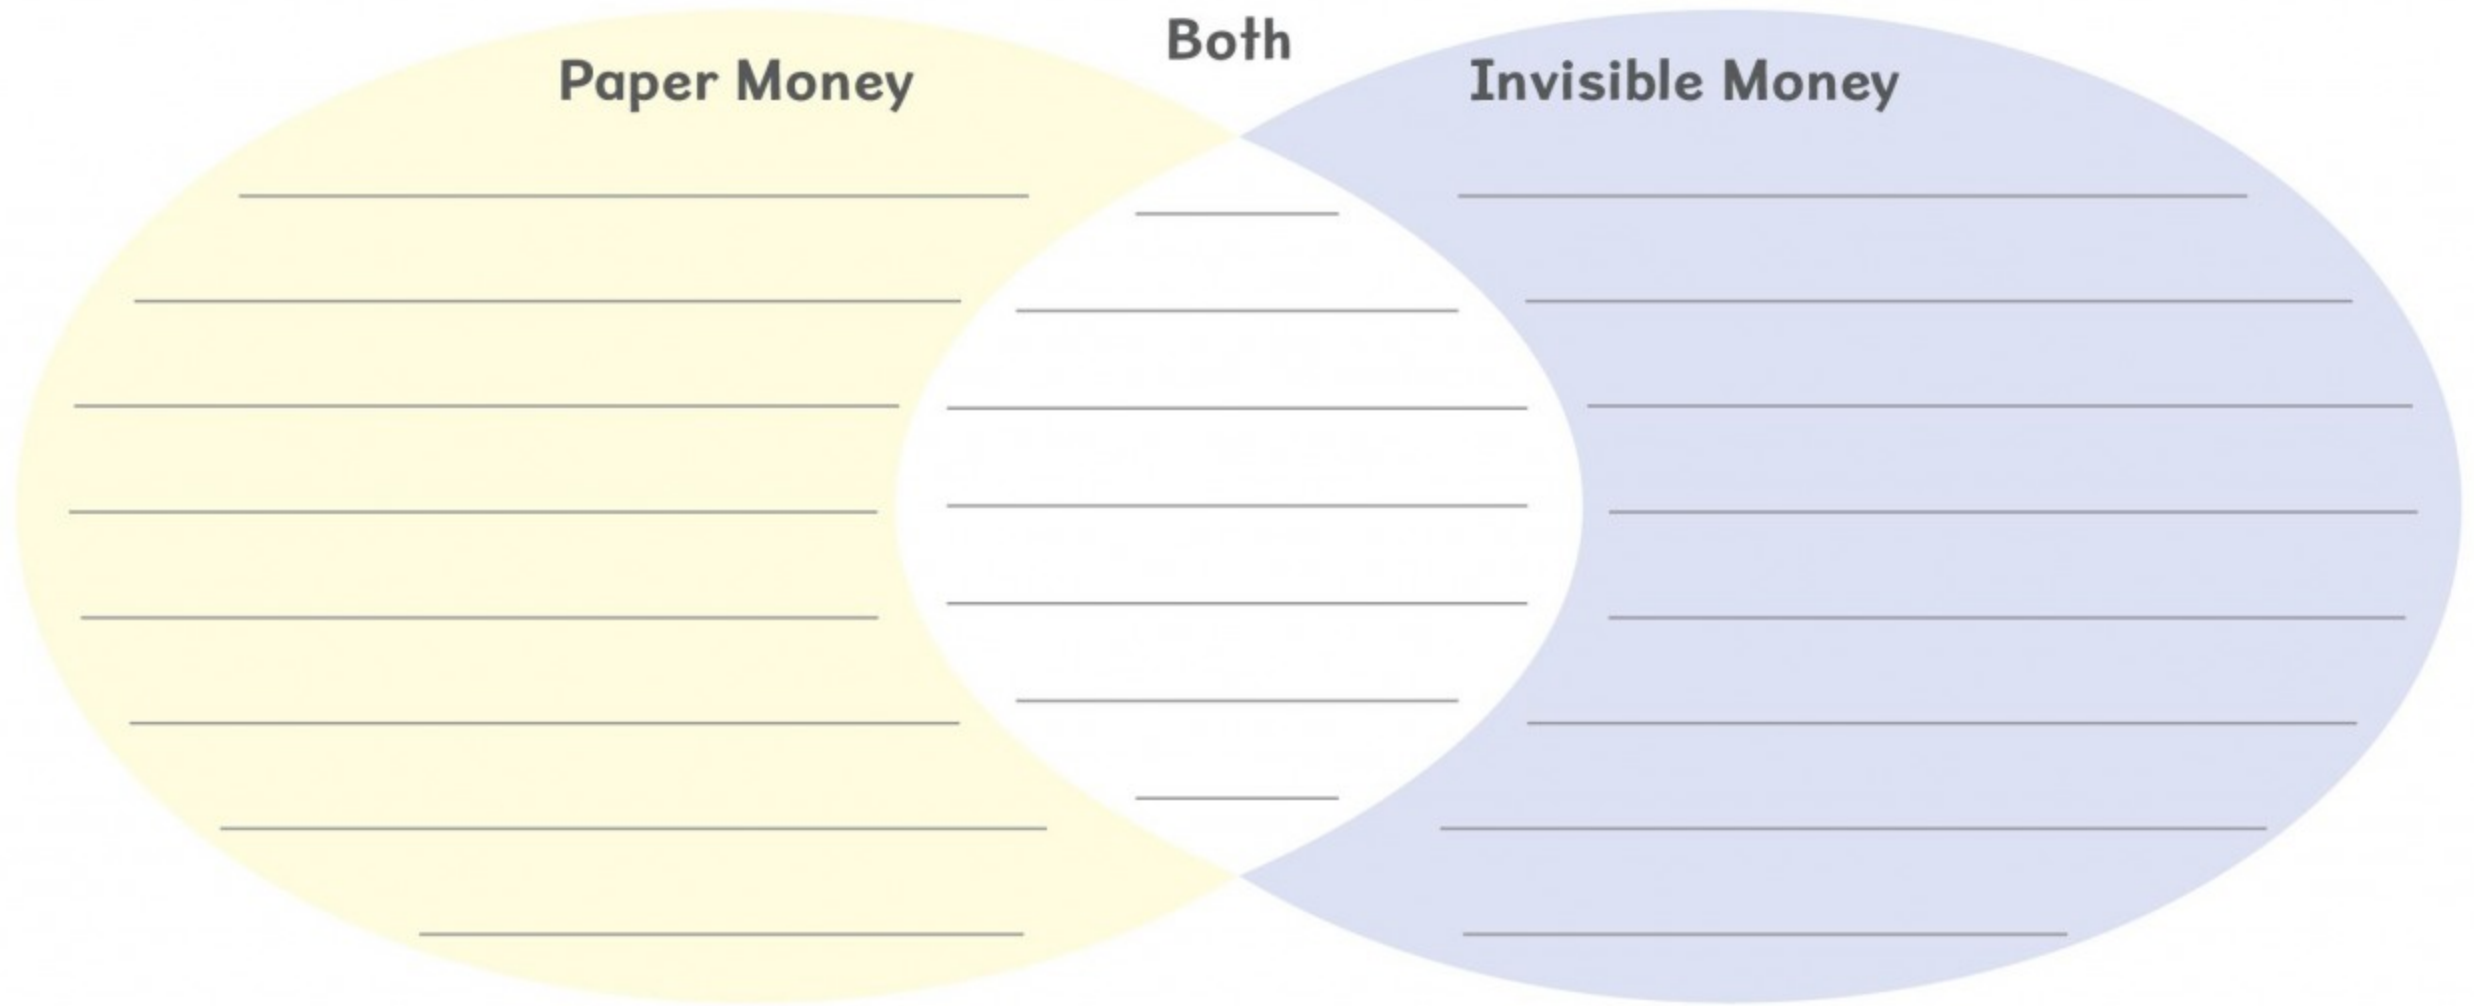

Think What has changed? How are ideas about money the same or different now?

Comprehension

Think Talk with your partner about three interesting facts from the website article. Were you surprised by the information?

A Fill in the diagram using information from the website. Compare your diagram with your partner's.

B Write answers to the questions in your notebook. Then discuss them as a class.

- 1 Before coins were invented, what two things did people use as currency?
- 2 What were the first coins made of?
- 3 Where did people mix silver and gold to make coins?
- 4 What did the Chinese use first to print their money on?
- 5 Why are banknotes colorful, and why do they have complicated designs?
- 6 What two ways can we use to pay for things electronically?

C **Words in Context** Look again at the words you circled in the article. Write them next to the correct descriptions.

- 1 a precious metal _____
- 2 worth money _____
- 3 pictures of people _____
- 4 to make an image with ink _____
- 5 eggs have these _____
- 6 plants that are grown for food _____

Grammar in Use

D Listen and read along. Then circle Yes or No.  3-26

Does Sonya have a plane?

Yes No

E  **Learn Grammar** Unreal Conditional

Use the **unreal conditional** to talk about things that aren't possible now.

If I had a plane, **I would fly** to Peru.

Check (✓) the correct sentence in each pair.

- 1 If I have a bike, I would get to school quicker.
 If I had a bike, I would get to school quicker.
- 2 If my friend could fly a plane, we would go to the North Pole.
 If my friend could fly a plane, we will go to the North Pole.
- 3 If I won a prize, I would be very happy.
 If I win a prize, I would be very happy.

If I could drive a car, I'd drive around the world!

F What would you do? Tell your partner.

If I could drive a car ...
If I had some money ...
If I went to another country on vacation ...
If I didn't have to go to school next week ...
If I met someone famous ...

Listening

Think Why might people give their money away?

A Learn Listening for Speakers

When you listen, listen carefully to identify the speakers. Ask yourself:

- Who is speaking first?
- Who is answering?
- How many people are speaking?

Listen to the conversation. How many people are speaking? 3-27

B Listen again. Read the questions and check (✓) the correct answers. 3-28

1 Who would buy something for someone else?

- Sami Ravi Satomi

3 Who would invest some money?

- Sami Ravi Satomi

2 Who would donate some money?

- Sami Ravi Satomi

4 What job is mentioned?

- lawyer teacher doctor

Speaking 3-29

C You have 100 dollars to donate. Who will you help? Take turns asking and answering with your partner.

- hospital
- school
- children's charity
- animal clinic

Word Study

D Learn Suffix *-ive*

The suffix **-ive** can be added to the end of some verbs.
It changes the verb into an adjective.

act + **ive** = active

create + **ive** = creative

Listen, say, and number the words. 3-30

_____ attractive

_____ possessive

_____ collaborative

_____ active

_____ decorative

_____ protective

_____ cooperative

_____ creative

E Work with your partner to write a paragraph using at least four of the adjectives in **D**.

Writing Study

F Learn Similes

You can make your writing more interesting by comparing things with **as** and **like**.

It's **as** cold **as** ice in here!

You're **as** brave **as** a lion!

My bedroom is **like** a nest, all cozy and warm.

My little brother eats very quickly, **like** a shark!

Finish the sentences with your own similes. Use *as ... as* and *like*.

1 Our home is like _____.

2 I'm as happy as _____.

3 You're as talented _____.

4 He plays the flute _____.

5 The train took forever. The train _____.

6 I ran quickly to catch the bus, _____.

Write Now practice writing in the **Workbook**. page 137

Writing

A Read the summary of “Chatterboxes” from pages 80–81.

Title

Chatterboxes

Short introduction

Many animals communicate. They communicate for different reasons.

Most important details

Animals have certain reasons for communicating, including warning of danger. An example of this is a rabbit thumping its back legs. Some animals communicate to scare away predators. Others communicate to attract a mate, or to find food.

Short examples

There are different types of animal communication: communication between animals of the same species (for example, monkeys communicating with each other), communication between animals of different species (for example, the honey badger and the honeyguide), and communication between animals and humans (for example, dolphins and people).

Short conclusion

Animals use a wide variety of sounds and movements to communicate.

B Answer the questions.

- 1 What does the writer put at the beginning of the summary?
- 2 Does the writer have an introduction?
- 3 What kind of details does the writer include?
- 4 Does the writer give short or long examples?
- 5 Does the writer use his or her own words or the author’s words?

C Learn Writing a Summary

- Start your summary by telling the name of the article, story, or other text that you're summarizing.
- Include a short introduction. This should be about the main idea of the whole text.
- Include details from the text. Write only the most important things.
- Include very short examples if necessary.
- Remember to write the summary in your own words. Don't copy the author's words. Think about what you would tell a friend if they asked what the text was about.
- When you've finished your first draft, go back and read it again. Take out any information that is not absolutely necessary.

Write Now go to the **Workbook** to plan and write your own summary. [page 139](#)

D Present your summary.

- 1 Working in small groups, present your summaries to each other. Listen closely to each summary.
- 2 As a class, discuss the questions.
 - Why do you think each person's summary is slightly different?
 - What makes some summaries more effective than others?
 - How does writing a summary help you understand the reading better?

BIG QUESTION 7

Why do we use money?

- A Watch the video. How do you see people using money?
- B What are some answers to the Big Question? Talk about them with your partner.
- C Complete the **Big Question Chart**. Then discuss it with the class.

A worksheet titled "Big Question Chart" with the question "Why do we use money?". The chart is divided into three columns. The first column is labeled "What do you know?" and has a yellow smiley face icon. The second column is labeled "What do you want to know?" and has a red gear icon. The third column is labeled "What did you learn?" and has a green leaf icon. Each column contains several horizontal lines for writing.

F.04

BIG QUESTION 8

How do we express ourselves?

In these units you will:

WATCH
a video about self-expression.

READ
a play and learn about unusual art.

PRESENT
your scene to the class.

LEARN
about different art forms.

WRITE
a scene from a play.

- A** Watch the video. Then talk about it with your partner. ▶
- B** Look at the picture and discuss it with your class.
- 1 What kind of picture is this?
 - 2 What are the people doing?
- C** Think and answer the questions.
- 1 How many ways do people express themselves?
 - 2 What feelings do people express?
 - 3 How do you express yourself?
 - 4 What do people express when they speak or write?
- D** Discuss this topic with your class. Fill out the **Big Question Chart**.

Big Question Chart		
How do we express ourselves?		
What do you know?	What do you want to know?	What did you learn?
<hr/> <hr/> <hr/>	<hr/> <hr/> <hr/>	<hr/> <hr/> <hr/>

Words

A Listen and say the words. Then read and listen to the sentences.  4:02

Before You Read

Think Answer the questions.

- 1 What's a sculpture?
- 2 Where would you expect to see one?

D Learn **Taking Notes**

As you read, underline the things you think are important in the article. Make some notes on a separate piece of paper. Notes don't have to be whole sentences. You can just write a few words to help you remember what you've read.

Read the passage. Underline four important things. Fill in the chart.

Korky Paul is an artist who illustrates children's books. He was born in Zimbabwe, Africa, and now lives in Oxford, England. He has won several awards for his illustrations, including the Children's Book Award. Korky's illustrations are done in pen, ink, and watercolor paints, and they are known for being very strong and detailed. His work has been compared to Tom and Jerry cartoons, but it's full of jokes and details. Korky's books have sold millions of copies.

Where?	

E Words in Context Scan the text on pages 154–155 and circle these words. As you read, try to guess what the words mean.

cease magnified algae applies provides crustaceans

F Look at the pictures on pages 154–155. What do you think is special about this type of art?

One Man's Self-Expression

In this *informational text*, you'll read about an artist who makes very special sculptures. An informational text includes facts. You often see this kind of text in schoolbooks, magazines, and on the Internet. As you read, underline the things you think are important and take some notes. This will help you remember the information.

The Arts

One Man's Self-Expression: The Mysterious Underwater World of Jason deCaires Taylor

Humans never cease to find innovative ways of expressing themselves. From the early cave paintings that our ancestors drew to the present day, there are millions of examples of self-expression, ranging from music to painting, poetry to dance. They express our feelings as we explore what it means to be human.

Imagine swimming in the sea and suddenly, beneath you, seeing a sculpture of a man sitting at a desk with a typewriter! If you went to Grenada, in the West Indies, that's exactly what you'd see. It's just one of the remarkable ideas that has come out of the mind of Jason deCaires Taylor.

Jason deCaires Taylor

Think What notes can you make about what you've read so far?

Taylor is a sculptor, but a sculptor with a difference. Instead of putting his sculptures in a park or an art gallery, he puts them underwater and creates "living" sculptures. Taylor chooses areas of the world where there is clear, shallow water. His underwater exhibitions can be seen in Mexico, Grenada, and the United Kingdom. Scuba divers, snorkelers, swimmers, and tourists in glass-bottomed boats can all see this mysterious world that Taylor has created. Underwater, everything is magnified (it looks bigger) and colors change because the only light underwater is from the surface.

One of Taylor's most ambitious exhibitions is *The Silent Evolution*, a permanent artificial reef in Mexico that occupies an underwater space of 420 square meters. It's made up of 400 life-size sculptures of people.

The amazing thing about Taylor's work is that, over time, his sculptures become "living." Algae, a type of ocean plant, begins to grow on the figures, as does coral. Fish swim in between the sculptures; starfish cling to them. The surface of the sculptures changes. At first they look smooth, but later they look bumpy and rough. Different colors emerge as the marine plants settle on their new, man-made habitat. Effectively, the exhibition turns into an artificial coral reef.

Taylor's art is a combination of art and science. He works with marine biologists to create habitats for specific species of marine animals. Each sculpture is made from environmentally friendly materials that promote coral growth, and is designed to last for hundreds of years. In an interview, Taylor said, "The coral applies the paint. The fish supply the atmosphere. The water provides the mood. People ask me when it's going to be finished. This is just the beginning."

Vicissitudes

The Lost Correspondent

Think What are the most important things you need to make notes about?

So, what is Taylor's self-expression? His work looks at humans and nature, loss, and hope. Human activity has destroyed some of the largest, most beautiful coral reefs in the world. In just a few decades, 40 percent of them have disappeared, and scientists predict that 80 percent will have vanished by 2050. By creating artificial reefs, Taylor hopes to draw people away from the natural ones and save them. Taylor also feels that modern technology has meant we have lost things that will never return, like the typewriter, which no one uses anymore because we have computers. His *Lost Correspondent* exhibit expresses this loss.

In his exhibition *The Anthropocene*, which lies on the seabed at a depth of eight meters, Taylor used materials to attract crustaceans such as lobsters, crabs, and shrimp. A life-size copy of a Volkswagen Beetle car encloses a "lobster city." The holes in the bottom part of the car act as doors for the lobsters to swim through, while the holes in the windows are suitable for small fish species to enter the car to hide and to breed. Inside the car, there are living spaces for lobsters. And so, this innovative example of human art turns into something that is positive and beneficial to marine life.

Background photo: *The Silent Evolution*

Understand

Comprehension

Think Which of Taylor's exhibitions did you find most interesting? Discuss them with your partner.

A Use the chart to make notes about "One Man's Self-Expression." Then compare your notes with your partner's.

deck saves stage cabins playwright set reacted

- 1 The theater had a beautiful _____ on the _____.
- 2 In the play, the captain _____ his passengers from the storm.
- 3 A _____ decides what a play will be about.
- 4 Some of the play takes place in the ship's _____, where people sleep.
- 5 I left my cabin and went to the ship's _____ for some fresh air.
- 6 Mom thought the play was funny. She _____ by laughing.

Before You Read

Think What do you think it's like to be on a ship in a storm?

D Learn Making Connections

When you read, think about what you already know about the subject. Think about your own experiences. Have you been in a similar situation? Can you make connections between what you're reading and other texts you've read? Use a chart like the one below to help you.

What do you know about fashion? Fill in the first two columns of the chart. Then read the text and fill in the last column.

Clothes have many different uses. They cover your body and they keep you warm or cool, but they also communicate things about you. Many people express things about themselves through the clothes they choose to wear. For example, if someone likes a particular type of music, they might wear clothes that are similar to the clothes that other followers of that music wear. People who are very confident may wear bright, bold colors, while people who are shy may wear darker or softer colors.

What I Know	What I Want to Know	What I Learned

E Words in Context Scan the play on pages 162–163 and circle these words. As you read, try to guess what the words mean.

aid massive petrified crew elderly preventing

F Look at the picture on pages 162–163. What do you think the play is about?

The Tempest

This scene is adapted from a play by William Shakespeare (1564–1616), who was a famous English playwright. In this scene, you'll read about a storm at sea. *Drama* is fiction specially written to be performed by actors on a stage. It's usually written in dialogue. As you read, make connections with things you already know. Have you ever been in a storm?

The Tempest

Drama is another form of self-expression, but it can only happen with the aid of different people. First, a playwright writes a play. A play expresses the playwright's feelings about a topic or about life in general. Next, actors perform the play. They bring the playwright's words to life. Actors perform on a stage, and set designers decide how the stage will look. Finally, an audience watches the play. The audience reacts to the words the playwright has written, but also to the way the actors are performing the play.

One man, who was both a poet and playwright, became the most famous writer in the English language: William Shakespeare. His plays have been performed all over the world, and in many languages.

One of Shakespeare's plays is called *The Tempest*. A tempest is a violent storm. At the beginning of the play, a ship is sailing from Tunis, in North Africa, to Italy. The ship is carrying some extremely important people. When a massive storm starts at sea, everybody on board is petrified that the waves and wind will break up the ship and throw the passengers and crew into the water. The captain and all the sailors are doing their very best to save the ship and its passengers from the storm.

Think What do you already know about plays? What do you want to know?

Cast of *The Tempest*:

Alonso
*King of Naples
(a city in Italy)*

Ferdinand
Alonso's son

Sebastian
*Alonso's son
and brother
of Ferdinand*

Antonio
*Duke of Milan
(another city in Italy)*

Gonzalo
*an elderly man who
is an advisor to the king*

Sailors

Act 1, Scene 1

Loud noises of thunder and lightning can be heard because of the terrible storm.

A ship's captain and a sailor walk onto the stage.

CAPTAIN: Sailor!

SAILOR: I'm here, captain. How can I help you?

CAPTAIN: Oh, good! Please go and talk to the other sailors. We're in trouble. Talk to the sailors; get them ready. Hurry, before the ship runs into the rocks! Hurry! Go!

The captain leaves the stage, fast. More sailors enter the stage.

SAILOR: Come on, sailors! Good job! Quickly, quickly! You need to take in the big sail. And listen carefully to the captain's orders. Blow until you burst, wind, but leave enough room for us!

Alonso, Sebastian, Antonio, Ferdinand, Gonzalo, and some others enter the stage.

ALONSO: Watch out, good sailor! Where's the captain? Make sure the other sailors do their work.

SAILOR: Please go back under the deck, Sir!

ANTONIO: Sailor, where's the captain?

SAILOR: The captain is busy giving people orders. Can't you hear him? You're preventing us from doing our work. Go back to your cabins. You're helping the storm, not us!

GONZALO: Calm down, good sailor!

SAILOR: It's difficult to calm down in a storm! I'll calm down when the sea calms down! Now go! These big waves don't care about kings and their advisors. Go to your cabin and keep quiet! Don't add to our problems.

GONZALO: I'll do what you say, but just remember, you have important people on board.

SAILOR: The most important person on board is me! If you're so important, then order the storm to stop. If you can calm this weather, and make the sea peaceful, we can put down our ropes and rest. If you cannot, then be grateful for your long life, go to your cabin, and get ready for the worst. Come on, men! Now get out of our way.

The sailor leaves the stage.

GONZALO: That sailor makes me feel better. He'll never die on a ship at sea. We're lucky to be here with a terrible villain like him. If he survives this storm, we all will.

Gonzalo and the other king's advisors leave the stage.

Understand

Comprehension

Think If you could play a part in *The Tempest*, which character would you be? Talk about it with your partner.

A What did you know before you read *The Tempest*? What did you want to know? What have you learned about how we express ourselves? Fill in the chart.

What I Know	What I Want to Know	What I Learned

B Write answers to the questions in your notebook. Then discuss them as a class.

- 1 Why is the captain worried?
- 2 What does the captain think might happen to his ship?
- 3 Who is told to take in the big sail?
- 4 Where does the sailor tell Alonso and Gonzalo to go?
- 5 Why does he tell them to go there?
- 6 Why is the sailor angry with Gonzalo?
- 7 Why does the sailor make Gonzalo feel better?

C Words in Context Look again at the words you circled in the play. Match each definition to its word.

Wrap Up

Writing

A Read the scene from a play.

Scene and
setting

[Sailors 1, 2, 3, and 4 are standing on deck, looking out to sea. The captain is steering the ship and looking at his / her map.]

Stage
direction

Sailor 1: [Stretches out his / her arms and looks very happy.]

What a beautiful day! The sun is hot, and there's a good wind for our sails. I wonder where our ship will take us today.

Sailor 2: I'm sure the captain knows. Let's ask him.

Sailor 1: Captain, where are we heading today?

Captain: [Smiles.] You'll find out in an hour or so. You're going to love it!

Character lines

Sailor 3: Cool! Maybe we'll find a harbor in a big city.

Sailor 4: Yes! Or maybe we'll see mountains and rivers.

Sailor 2: [Looks very excited and jumps up and down.]

Or maybe, just maybe, we'll land on a desert island ...

Sailor 1: Oh, yes! With palm trees and coconuts!

Sailor 3: And a sandy beach and clear blue water to swim in!

Sailor 2: Hey! Watch out for that big wave! Get your ropes!

Captain: All crew on deck, please!

[All sailors run to the deck and pick up their ropes.]

Captain: Pull in the main sail. We're turning.

[All sailors pull hard on the ropes to turn the ship away from the waves and into the wind.]

Sailor 1: Look! Look! An island. It's fantastic. It's like a dream!

B Answer the questions.

- 1 Where does the playwright set the scene?
- 2 How do the actors know what to do?
- 3 Who speaks in the scene?

C Learn Writing a Scene from a Play

- Choose a setting for your play. This could be anywhere you feel like writing about: a beach, a shopping mall, a school, a park, on a plane, or on a boat.
- Give directions for the director and actors. Write them in the present tense.
- Include lines for several actors. The actors' lines keep the story moving. To keep the play exciting, several actors can say things, not just one or two.

Write Now go to the **Workbook** to plan and write the first scene of a play. page 159

D Practice performing your scene. Then perform your scene for the class.

- 1 Form small groups. Practice reading your lines aloud.
- 2 Decide if you need any props (objects).
- 3 Before you begin, have one cast member tell the class where your scene takes place.
- 4 Start the scene. Remember to pay attention to stage directions.
- 5 When it's time to say your lines, say them in a loud, clear voice.
- 6 Use gestures, and exit and enter on time.
- 7 Enjoy yourself! If you have fun, the audience will, too!

BIG QUESTION 8

How do we express ourselves?

- A Watch the video. How do you see people expressing themselves?
- B What are some answers to the Big Question? Talk about them with your partner.
- C Complete the **Big Question Chart**. Then discuss it with the class.

A "Big Question Chart" worksheet with the title "How do we express ourselves?". It features three columns for notes, each with a small icon and a question: "What do you know?" (with a lightbulb icon), "What do you want to know?" (with a magnifying glass icon), and "What did you learn?" (with a leaf icon). The columns are filled with horizontal lines for writing.

- 7 Judges and lawyers go to the **courthouse** every day.
- 8 She went to the **theater** to see a new play.
- 9 The musicians will perform in the **concert hall** tonight.
- 10 Many business people work in an **office**.
- 11 He's showing his paintings at an **art gallery** next week.
- 12 The new car was displayed in a **showroom**.

B Complete the chart. Some words can go in more than one column.

stadium lighthouse tower skyscraper warehouse palace
courthouse theater concert hall office art gallery showroom

Buildings for Sleeping	Buildings for Working	Buildings for Entertainment

C Talk with your partner. Answer the questions.

- 1 What buildings do you go to for fun?
- 2 What buildings do you go to when you want to learn something?
- 3 What buildings do you think are most useful?

Before You Read

Think Who designs buildings?

D Learn Sequence of Events

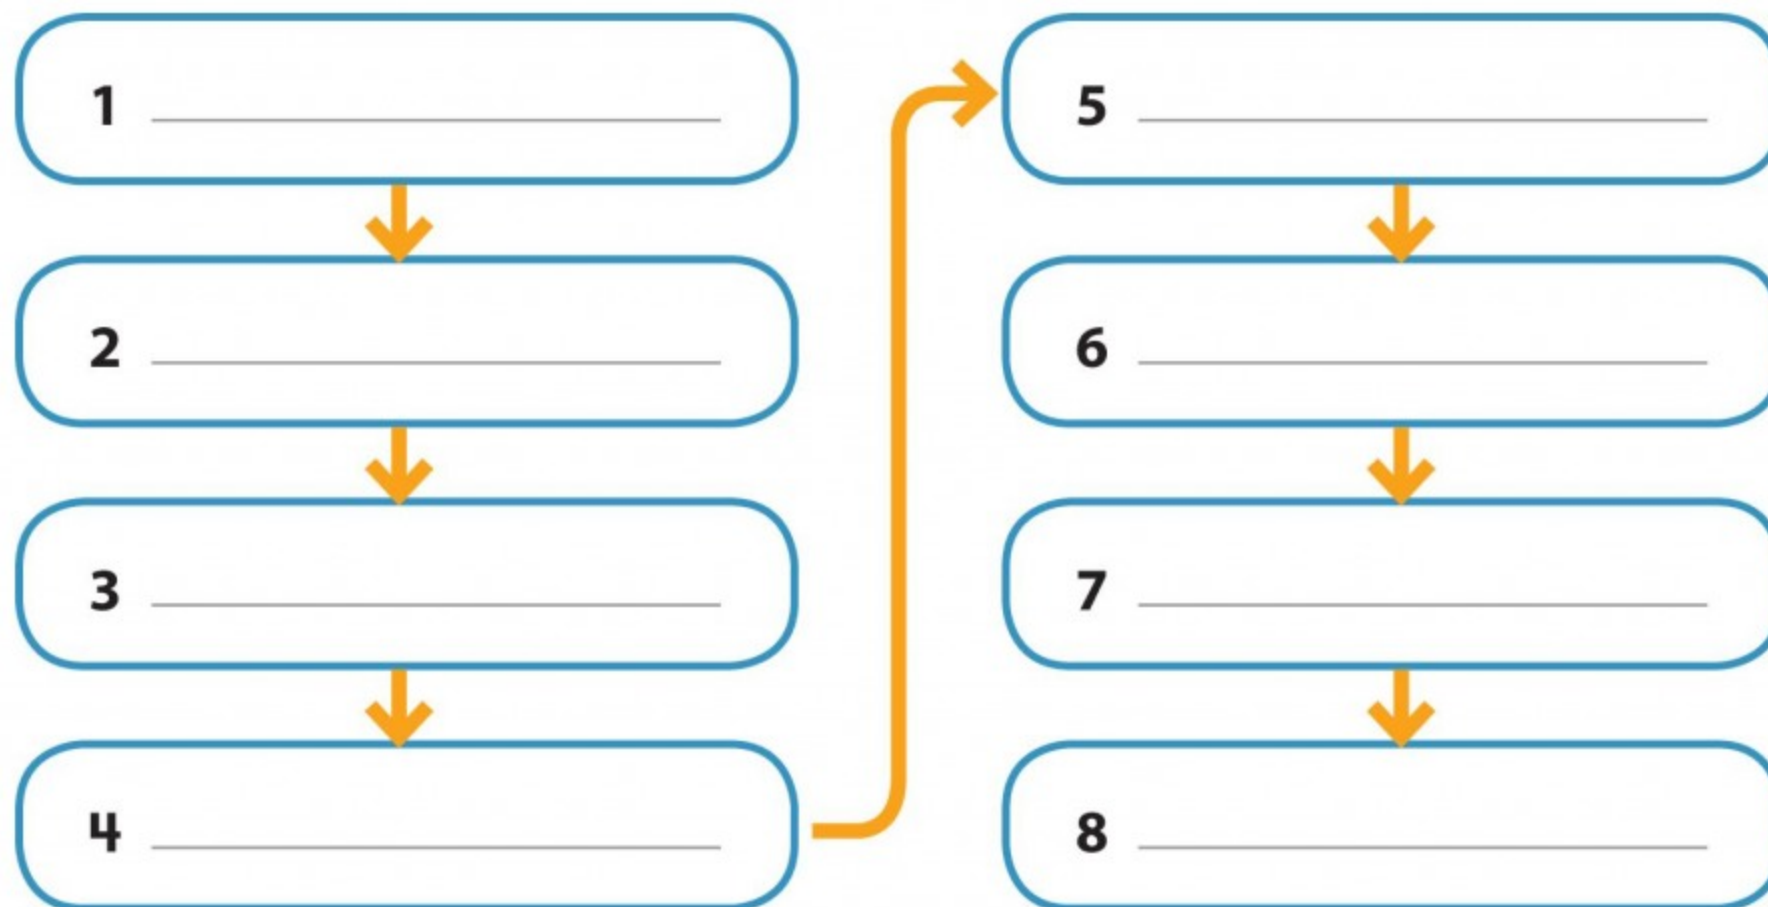

When you read, think about the order in which things happen.

- What happens first? What happens next?
- Why does one event happen before another?
- What's the result of these events?

Use an organizer like the one below to help you sequence the events.

Read the paragraph. Think about the sequence of events. Then fill in the organizer.

To build a tree house, you need to choose a strong and healthy tree. Then list what materials you will use to build the tree house. Now you can draw a plan to show what your house will look like. Will it have a roof and windows? When the plan is finished, you can buy the materials and then build, starting with the floor. Next, add the walls and roof. Now it's time to add a ladder so you can get into the house. Finally, it's time to move in!

E Words in Context Scan the article on pages 174–175 and circle these words. As you read, try to guess what the words mean.

architect function steel construction countless aquatics

F Look at the pictures on pages 174–175. Which building would you most like to live or work in?

The World's Most Extraordinary Buildings

In this *magazine article*, you'll read about interesting buildings around the world. Magazine articles usually give you information about a subject. They often include illustrations, photos, and diagrams. As you read, think about the sequence of events. This will help you understand how people make buildings.

Social Studies: Technology

The World's MOST EXTRAORDINARY Buildings

So, a building is just a building, right? Wrong! Buildings have many different purposes. People use buildings for living, for working, for manufacturing, and also for going to school or to the movies. Here are some of the key reasons we build buildings.

Buildings for Shelter

Everybody needs a place to sleep, eat, and keep themselves protected from the weather, so we build houses, apartments, and hotels. Have a look at a few exceptional ones from around the world.

The Palais Bulles (Bubble Palace) is a “palace” that’s used for conferences and other big events. It reminds people of caves; there aren’t any straight lines at all.

There’s a hotel in Finland that’s made entirely of glass igloos where guests can sleep under the stars.

And take a look at this hotel in the Maldives. Its bedrooms are almost 5 meters underwater!

Buildings for Work

People have jobs, so they need places where they can work. People work in factories, warehouses, lighthouses, offices, schools, hospitals, courthouses, restaurants, airports, barns, showrooms, libraries, skyscrapers, and bus, train, fire, and police stations.

This is the headquarters of the Longaberger Company in Ohio, which manufactures wooden baskets.

Here’s an office with a difference! It recycles water and uses the power of the sun. There are even trees growing on a terrace on one of the floors.

Buildings for Leisure and Fun

Everyone likes to have fun, so we need buildings for that purpose, too, whether we want to listen to a concert, go to a play, or play some sports. Shopping malls, movie theaters, and museums are all buildings that we use for having fun.

This incredible museum is built in the shape of a saucer. It's set on a cliff top above a beach in Niterói, Brazil.

What Do Architects Do?

Before a building can be built, an architect needs to design the shape of the building and plan exactly how it will be used. First, the architect has to consider how many people will need to work or live inside the building, and what activities these people will be doing. This is called the *function* of the building. Then the architect draws detailed plans and makes a model of the building so that clients can see what the finished structure will look like. This also helps the architect decide how much steel will be needed. When the planning is finished and approved, construction can begin.

Think What is the sequence of events?

Zaha Hadid, Architect

Zaha Hadid was an architect who designed countless buildings: concert halls, theaters, towers, museums, art galleries, stadiums,

ski jumps with cafés ... you name it! Here are some of Zaha's most famous buildings:

The Dorobanti Tower, in the heart of Bucharest, Hungary, is an apartment block that was designed using diamond shapes and stands 200 meters tall. It's visible from several kilometers away, and has been designed to be extremely strong, since Bucharest is located in an earthquake zone.

In 2010, construction of the Sheikh Zayed Bridge in Abu Dhabi, UAE, was completed. Zaha designed the arches of the bridge to look like wavy sand dunes in the desert.

By night, the bridge is lit with colored lights that change little by little, giving an amazing impression of movement. Standing 64 meters above the water, the bridge is one of the most complex ever built. Zaha was also the architect for the London Olympics Aquatics Centre, where all the swimming and diving competitions took place.

Check this out! It's part of the Dongdaemun Design Plaza and Park, designed by Zaha to bring inspiration to the people of Seoul, South Korea. It has a design museum, a library, and lecture theaters. It's surrounded by a 30,000-square-meter park laid out in the traditional Korean way, with reflecting pools, lotus ponds, and bamboo plants.

Understand

Comprehension

Think Which building in the magazine article was your favorite? Which was your least favorite? Talk about them with your partner.

A Look at the sequence of events in the “What Do Architects Do?” section of the article. Then fill in the organizer.

1 _____	4 _____
↓	↓
2 _____	5 _____
↓	↓
3 _____	6 _____

B Answer the questions. Then discuss them as a class.

- 1 What is an architect’s job?
- 2 What things does an architect need to think about before designing a building?
- 3 How many key reasons are given for building buildings? What are the reasons?
- 4 What do you think of Zaha Hadid’s designs?
- 5 What kind of building would you like to build? What would it look like?

C Words in Context Look again at the words you circled in the article. Then write them in the correct sentences.

- 1 Protecting people from the weather is an important _____ of a building.
- 2 _____ is used to make many things, including doors and window frames.
- 3 There are _____ ways to design buildings.
- 4 Most buildings are designed by an _____.
- 5 _____ are sports that take place in or on water.
- 6 Before _____ begins, engineers study the architect’s plan.

Grammar in Use

D Listen and read along. Then circle the correct answer.  4•18

Why does Charlie say “the” pool?

- a** There are many pools. **b** There is only one pool.

E Learn Grammar *A, An, The, and No Article*

Use **a** or **an** the first time you talk about something. Use **the** when you talk about it again.

Before a building can be built, the building needs to be designed.

Use **a** or **an** with things that aren't special.

It's a shark. (This one isn't special.)

Use **the** when the person you're talking to knows what you're talking about.

It's in the pool. (The person knows which pool.)

Don't use an article to talk about sports, meals, most countries, and school subjects.

I play tennis. I saw Jim at lunch. We went to Spain. They like math.

Correct the sentences. Add a, an, or the if you need to.

- Do you like swimming? Yes, I do. I go to ^{the} pool every weekend.
- Can I have apple, please? Sure, there's apple in fridge.
- What's that? It's elephant.
- What are you eating for lunch? I'll have sandwich.
Sandwiches my mom makes are great.

Do you like swimming?

Yes, I do. I go to the pool every weekend.

F Look at **E**. Ask and answer the questions with your partner.

Listening

Think Do you know what lighthouses are used for? Why are they important?

A Listen and circle the correct answers.  4.19

- 1 Bob was a lighthouse keeper for **thirty-two years** / two years / thirty years.
- 2 One function of a lighthouse is to warn sailors of **whales** / bad weather / dangerous rocks.
- 3 A lighthouse also helps ships find their way home **in the daytime** / at night / in good weather.
- 4 Lighthouses show ships the way back to **their towns** / the hotel / the harbor.

B Listen again and discuss as a class. Do lighthouses use lighthouse keepers now? What are lighthouses used for today?  4.20

Speaking 4.21

C Take turns asking questions and talking about the place where you'd like to live. Support your reasons with phrases like *I believe*, *I think*, or *What I like about*.

- lighthouse
- apartment
- palace
- house
- skyscraper

I'd like to live in an apartment.

Why?

I think it's because I want to ... People in cities live in ...

I'd like to live in a ...

Why do you ... ?

What I like about the ocean is ...

Word Study

D Learn More Phrasal Verbs

Some verbs are used with words such as **across, way, down, for, in, off, out, up,** and **with**. These two-part verbs are called **phrasal verbs**. The word that comes after the verb changes the meaning.

Phrasal Verb	Meaning	Example
go on	continue	The lesson went on for an hour.
go back	return	I want to go back home now.
go up	increase	The price of movie tickets went up last month.

Listen, say, and number the phrasal verbs. Then write a sentence using each one. 4-22

- _____ go on _____ go back _____ go up _____ lie down
 _____ put down _____ catch up _____ pick up _____ fall off

Writing Study

E Learn Run-On Sentences

A run-on sentence is two complete sentences that run together.

I don't like tall buildings they scare me.

You can fix a run-on sentence by separating the clauses with a semicolon or a period, or by adding a conjunction.

I don't like tall buildings; they scare me.

I don't like tall buildings **because they scare me.**

Write **S** (Sentence) or **R** (Run-on sentence).

- The enormous glass-and-steel skyscraper moves slightly when the wind is very strong. _____
- Lighthouses are extremely important they protect sailors and their ships. _____
- It's going to be a hot day put on some sunscreen so you won't get a sunburn. _____

Write Now practice writing in the **Workbook**. page 169

BIG QUESTION 9 Why do we make buildings?

A Watch the video.

B Think about the Big Question. Talk about it with a partner.

People make buildings to live in.

What are some other reasons that people make buildings?

Words

A Listen and say the words. Then read and listen to the sentences.  4-23

turrets

stables

gatehouse

moat

drawbridge

hall

courtyard

ramparts

mumble

stiffen

missing

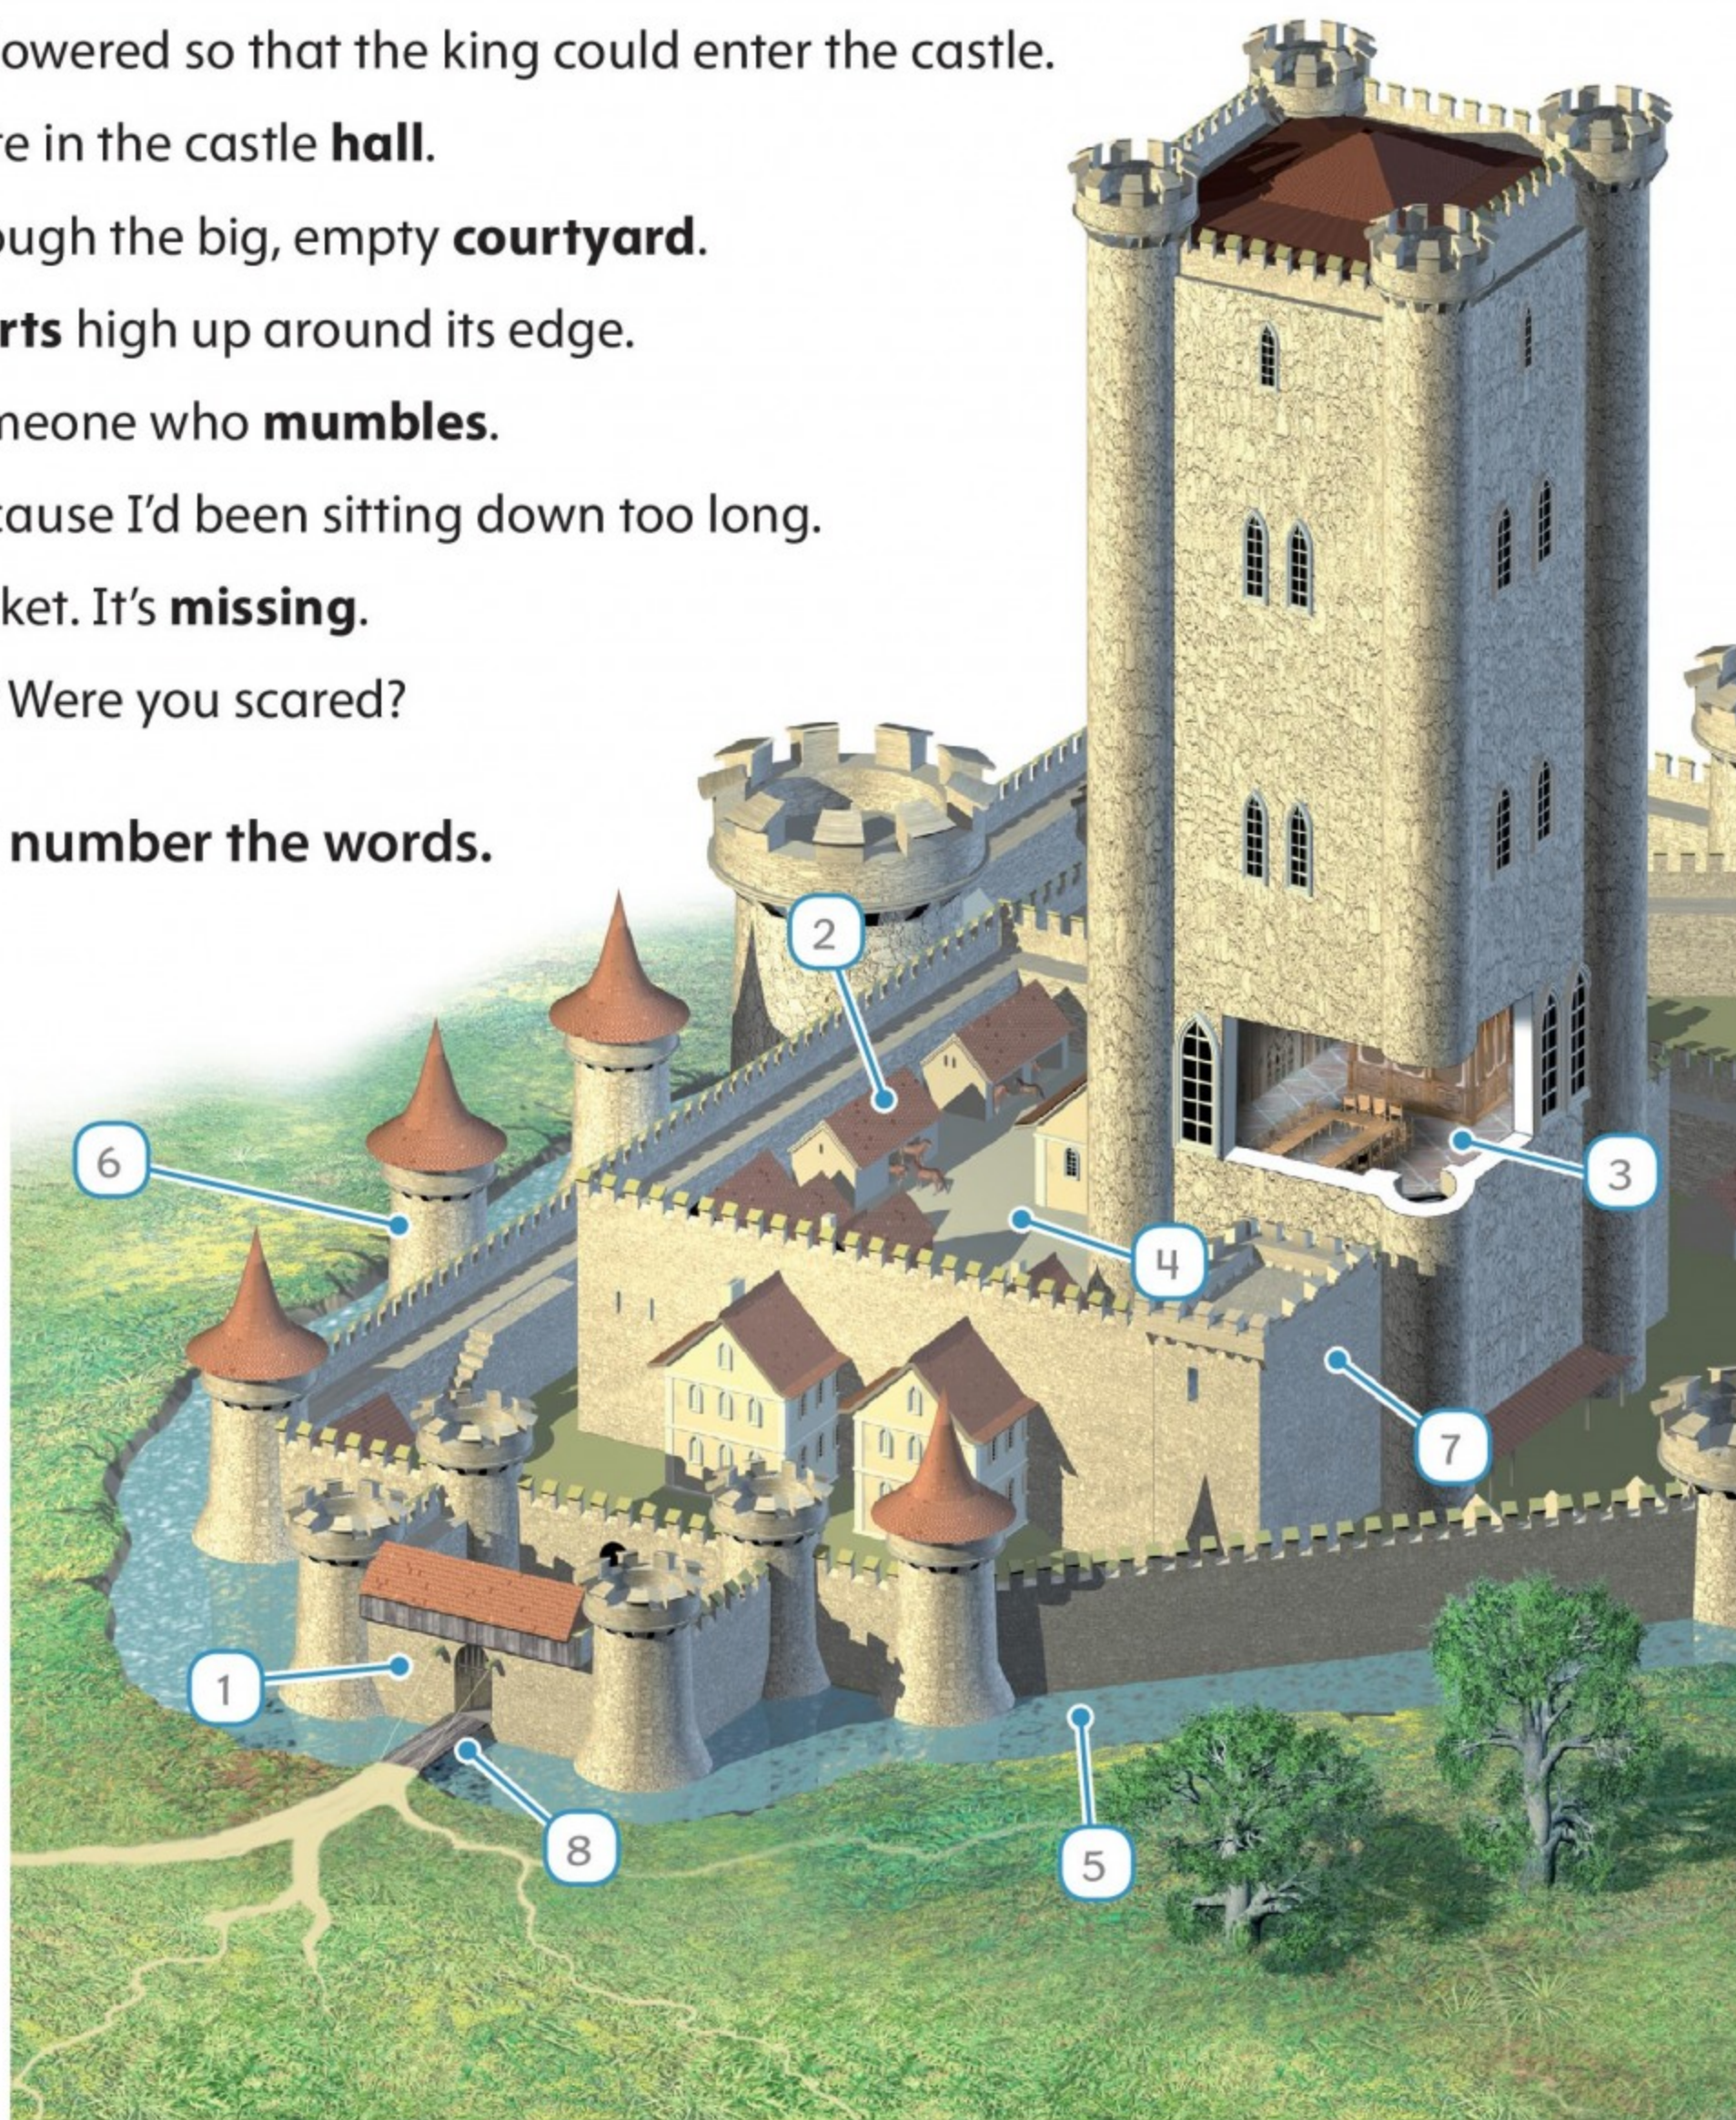

tremble

- 1 Do you see those tall **turrets**? They look like towers.
- 2 The horses live in the **stables**.
- 3 To get into a castle, people have to pass by the **gatehouse**.
- 4 The **moat** was deep and filled with water.
- 5 The **drawbridge** was lowered so that the king could enter the castle.
- 6 The king and queen ate in the castle **hall**.
- 7 A chilly wind blew through the big, empty **courtyard**.
- 8 The castle had **ramparts** high up around its edge.
- 9 It's difficult to hear someone who **mumbles**.
- 10 My back **stiffened** because I'd been sitting down too long.
- 11 I may have lost my jacket. It's **missing**.
- 12 Why did you **tremble**? Were you scared?

B Look at the picture and number the words.

- _____ turrets
- _____ stables
- _____ gatehouse
- _____ moat
- _____ drawbridge
- _____ hall
- _____ courtyard
- _____ ramparts

C Write sentences using the words *stiffen*, *mumble*, and *tremble*.

Before You Read

Think Have you ever read a mystery story? What was it about?

D Learn Making Predictions

When you read a story, think about what will happen next. What clues are there in the story? What do you already know? Make a **prediction** about what will happen and then see if your prediction is right.

Use an organizer like the one below to help you make predictions.

Read the story and make a prediction. How will the story end? Fill in the predictions organizer.

There was the smallest bump and then a horrible noise. Was it metal ripping away from the ship? Or was it an animal groaning in pain? The crew of the ship had never heard such a noise. The captain hadn't, either. Whatever it was, it was extremely unusual. He glanced at the control panel. Everything seemed to be normal. Suddenly, there was laughter coming from the passenger deck below. Passengers had gathered to play with huge pieces of ice. "Where did those come from? Oh no, it can't be!" the captain thought.

Story Clues	What I Know	My Prediction

E Words in Context Scan the story on pages 182–183 and circle these words. As you read, try to guess what the words mean.

solve surrounded gazed padlock mysterious vanished

F Turn to pages 182–183. Look at the pictures. What do you think the story is about? Make a predictions organizer and fill it in as you read the story.

The Mystery of Peril Castle

In this *mystery* story, a boy has a problem to solve. A mystery is a story about something that happened that is difficult to explain. It has characters, a setting, a plot, and clues. The answer to the mystery is what the characters and readers have to discover. As you read, try to predict what will happen next.

The Mystery of Peril Castle

Think What's Thomas going to do? How do you know?

PERIL CASTLE WAS BUILT IN THE 15TH CENTURY to defend Hellenbore City, but now it was deserted. It had been empty for over a hundred years. The local people didn't dare go near it. Its **turrets** looked terrifying against the evening sky.

"Thomas!" shouted Thomas's uncle Robert from the attic, where he'd been looking through old boxes.

"What is it?" asked Thomas.

"Look! It's proof that Peril Castle belongs to us!" replied Uncle Robert. "Here's the first half of our name!" In his **trembling** hand was half a gold coin with the letters D-A-W clearly visible on it. Thomas and Robert's last name was Dawson. Also on the coin was half of an eagle's body, with its left wing spread wide. Thomas had known all his life that Peril Castle was his family's castle, but without proof, Uncle Robert couldn't claim it.

"We need the other half of the coin. Let's see if we can find it," said Uncle Robert urgently. They ran out of the house and up the hill toward Peril Castle.

Thomas felt nervous, but they had to solve the mystery of the **missing** half-coin. His knees were trembling as he walked toward the deep **moat** that surrounded the castle. It was filled with green algae. Robert pulled a lever and the **drawbridge** swung down, making Thomas jump.

They scurried across the drawbridge. Thomas and Uncle Robert searched the **gatehouse** and the **stables**, but they found nothing.

Then they went into the **hall**. Hurriedly, they checked every corner, searching for clues that would bring them closer to their goal.

Where shall we look now? thought Thomas, staring at the **courtyard**. He gazed at the gray stones of the walls and looked up at the **ramparts**. Then he spotted an ancient metal ladder.

Thomas climbed quickly, listening to his heart thumping. Pulling himself onto the ramparts, he saw a box with a rusty padlock on it.

"I've found a box!" shouted Thomas, shaking the lock. As his uncle scrambled up the ladder, the lid sprang open. At first the box looked empty, but on closer examination, Thomas saw a secret drawer. He slid it open and found an old map of the castle.

Uncle Robert and Thomas studied the map, which showed the castle as it had originally been built.

“Look!” yelled Thomas. “There’s a secret passageway behind the ramparts. It goes right inside the eleventh turret.”

As they walked round the ramparts, Thomas noticed a magpie flying back and forth from the eleventh turret. His heart started to thump again, and his body stiffened with anticipation.

Halfway along the ramparts, the pair saw a mysterious crack in the wall. Uncle Robert reached into his bag and took out a hammer. He hit the crack several times, and suddenly a narrow door swung open. As Thomas was watching Uncle Robert, the magpie returned and vanished through a small hole above their heads.

“It’s the passageway!” said Thomas, squeezing through the narrow door.

“I can’t hear you. Don’t mumble! What do you see?” asked Uncle Robert anxiously.

“Nothing. It’s too dark!” replied Thomas.

He fumbled around for several minutes until he felt something. It was a pile of objects of different shapes and sizes. Thomas filled his pockets and crawled back out.

“Look at these shiny things the magpie has collected!” he shouted.

There was a key, a Roman coin, a piece of silver, a ring, a spoon, and a tiny mirror.

“What’s this?” said Thomas, brushing dirt off a lump of metal.

“Wait! I don’t believe it!”

Thomas turned the metal over, and there, clear as day, were the letters S-O-N and an eagle’s right wing. Uncle Robert passed Thomas the other half of the coin that he’d found in the attic. The two halves clicked together as if they’d never been parted. DAWSON!

This was the proof they needed!

For a year, Uncle Robert and Thomas proudly restored the fortress. Once the job was done, they renamed it Peril-Dawson Castle. Flying the family flag from the eleventh turret, they invited all the local people to celebrate Hellenbore’s ancient castle with them.

Think What’s going to happen next? Why do you think that?

Comprehension

Think What two things did you enjoy about “The Mystery of Peril Castle”? Talk with your partner.

A Look at the predictions organizer you completed as you read. Copy its contents here. Then discuss your predictions with the class.

Story Clues	What I Know	My Prediction
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

B Read each set of three sentences. Circle the sentences that are true.

- a** Thomas wanted to solve a mystery about an eagle.

b Thomas wanted to know why Peril Castle was empty.

c Thomas wanted to find the other half of a coin.
- a** Thomas climbed onto the castle ramparts.

b Thomas didn't go into the gatehouse.

c Thomas jumped into the moat.
- a** The magpie collected the other half of the coin.

b The magpie flew into the hall.

c The magpie opened the box.

C Words in Context Look again at the words you circled in the story. Then write them in the correct sentences.

- 1 One moment it was there, and then it _____.
- 2 Tall trees _____ the old house.
- 3 We _____ at the beautiful sunset.
- 4 We couldn't figure out where the map was hidden. It was _____!
- 5 Can you _____ this puzzle? I can't!
- 6 I put a _____ on the gate so no one could open it.

Grammar in Use

D Listen and read along. Then check (✓) the correct answer.  4.25

What are Sonya and April going to do now?

play video games

play soccer

E  **Learn Grammar** Review of Tenses and Future Forms

Remember: Use different tenses and future forms to describe different times.

Past	I needed to find the coin. They had to solve the mystery.
Present	I like castles with turrets. We need the other half of the coin.
Future	Are you going to explore Peril Castle? I will see the castles of Wales someday.

Read the situations. Circle the best answer for each one.

- You're telling someone what you do every day. What do you say?
a I was eating breakfast every day. **b** I eat breakfast every day.
- You see big black clouds in the sky. What do you say?
a It will rain. **b** It's going to rain.
- You're telling a friend what you did yesterday. What do you say?
a I went to the mall. **b** I had gone to the mall.

I played a video game.

F Talk with your partner. Take turns asking and answering questions about *yesterday*, *today*, and *tomorrow*.

Listening

Think Do people all over the world live in the same kinds of houses?

A Listen. What kind of house is the man describing?  4.26

B Listen again. Circle *True* or *False*.  4.27

- 1 People who live in traditional Japanese houses don't have beds.
- 2 A *futon* is a type of cushion.
- 3 People often remove their shoes before coming into the house.
- 4 A *tatami* is a special type of floor.
- 5 Rice straw is used to make *tatami* mats.
- 6 The Japanese have been using *tatami* for about 700 years.
- 7 A *tatami* mat is cool in the summer and warm in the winter.

C Learn Accepting or Refusing Invitations

To accept invitations, say:

- **Thanks! That sounds fun.**
- **Sure. Thank you for the invitation.**
- **Yes, I'd love to!**

To refuse invitations, say:

- **No, thank you.**
- **Thanks, but I'm busy that day.**
- **I can't. I'm sorry.**

Work with your partner. Take turns inviting and accepting or refusing an invitation to one of the events.

- a party
- a tennis game
- a boat ride

Word Study

D Learn Adjectives Ending in *-ing*

Make adjectives from verbs by adding **-ing**.

bore → **boring**

terrify → **terrifying**

That movie is **terrifying**. It will **terrify** you.

Listen and say the words. Write the words by adding *-ing*. If a verb ends in an *e*, cross out the last letter. 4.29

1 dare _____

5 embarrass _____

2 please _____

6 surprise _____

3 fascinate _____

7 confuse _____

4 charm _____

8 frighten _____

E Work with your partner to write a paragraph using at least four of the adjectives in **D**. Read your paragraph to the class.

Writing Study

F Learn Order of Adjectives

If you use more than one adjective in a sentence, you need to put the adjectives in a special order.

Opinion	Size	Age	Shape	Color	Origin	Material	Purpose	Noun
beautiful		old			Chinese			vase
	huge		round			metal		bowl
	small			yellow			paint	

Put the adjectives in the correct order.

1 big horrible black cloud

3 brown round leather basketball

2 Indian old beautiful building

4 golden scary enormous eagle

Write Now practice writing in the **Workbook**. page 177

Writing

A Read the magazine article.

The Mirrorcube

Hook

Check out this cool building!
It's a tree house!

Details

Have you ever wished you could live in the forest, admiring nature by day and night? Well, now you can! This remarkable tree house is available for anyone to buy or rent. Designed by Scandinavian architects, the Mirrorcube is an amazing sight to see ... but you can't see it! It's a box of glass that reflects back everything around it: the trees, the grass, and paths through the forest. "Doesn't that make it dangerous for birds? Won't they fly into it?" you might ask. No! These guys have thought of everything. A clever sheet of film that's invisible to us but visible to birds and animals is hidden inside the glass.

The Mirrorcube looks as if it's hanging in the air. But in fact, it's built around living trees and held on the ground by strong wires. A wooden ladder leads up to the door. How would you like to spend a night here? It's an environmentally friendly dream!

Mirrorcube Facts

Name:

The Mirrorcube

Architects:

Tham and Videgård

Materials:

**glass, aluminum,
and wood**

Number of windows:

six

Number of beds:

one

Facts

B Answer the questions.

- 1 What does the article begin with?
- 2 How is the box of facts useful?
- 3 What kinds of details does the article include?

C Learn Writing a Magazine Article

- Start your article with a hook. A hook is an interesting sentence that will quickly get the reader interested in your article.
- Choose a topic that is interesting to you. If you're interested in your topic, it'll be fun!
- Research your topic and make a list of things you find interesting. What would the reader most enjoy reading about?
- Gather a short list of facts and display them in your article in a separate section. This could be a caption to a picture or just a box of facts.

Write Now go to the **Workbook** to plan and write your own magazine article. page 179

D Plan your presentation. Then share your magazine article with the class.

- 1 Once you've written your article, think of what you can do to illustrate it. Add captions or labels for your illustrations.
- 2 Show your illustrated article to the class before you read. Explain why you chose your topic.
- 3 Read your article.
- 4 After you've read it, ask the class what they found interesting.
- 5 Do your best to answer any questions your classmates have.

BIG QUESTION 9 Why do we make buildings?

- A** Watch the video. What kinds of buildings do you see?
- B** What are some answers to the Big Question? Talk about them with your partner.
- C** Complete the **Big Question Chart**. Then discuss it with the class.

What do you know?	What do you want to know?	What did you learn?

Reading and Writing

- A** Read the article. Are sentences 1–4 *right* (a) or *wrong* (b)? If there is not enough information to answer *right* (a) or *wrong* (b), choose *doesn't say* (c). Circle your answer.

Hello! My name is Minoru. I was born in Japan, but I have lived in Germany since I was two years old. I've seen remarkable changes here during my life. In 1955, we only had a theater, a bakery, and a clothing store. Now we have so much. We have a department store, electric buses, a small university, and many new apartment buildings. We even have a skyscraper! Our money has changed, too. We used to use the Deutsche Mark. Now we use the Euro.

- 1 Minoru was born in Denmark.
 a right b wrong c doesn't say
- 2 Minoru's town used to have a restaurant.
 a right b wrong c doesn't say
- 3 There aren't any tall buildings in Minoru's town.
 a right b wrong c doesn't say
- 4 Minoru uses the Euro as money.
 a right b wrong c doesn't say

- B** Read the invitation from your friend Sam.

It's my birthday! Please come to a party at my house on Sunday, July 30, at 4:00 p.m. We will have snacks and ice cream. There will be fun games, too.

Please write back by July 25.

Sam

Tip

Use adverbs of degree in your response, such as *very*, *really*, *extremely*, and *absolutely*.

Write a note in your notebook and thank Sam for the invitation. Tell him if you will go to the party or not. Write 25–30 words.

Listening

C You will hear a girl talking about a party. You will hear the recording twice. Then fill in the blanks below.  4:30

- 1 Katy was _____.
- 2 Sarah spoke _____ and _____.
- 3 Emma spoke _____. She was _____.
- 4 Julia spoke _____ at first.
- 5 The conversation was _____.

D Listen to a conversation. You will hear the conversation twice. There are two questions. Put a check (✓) by each right answer.  4:31

1 What is Luke's English class going to do?

2 Where is there a small stage?

Speaking

Part 1 Work with a partner. Ask and answer questions about activities in your free time.

- 1 What is your favorite sporting activity?
- 2 What kinds of music do you enjoy?
- 3 Would you rather read a book or go for a bike ride? Why is that your choice?
- 4 What free-time activities do you think you'll do in the future?

Part 2 Your teacher will give you a sheet of paper with some information on it. One of you will get questions and one of you will get answers. Ask and answer with your partner.

Tip

When it's your turn to answer the questions, try to say as much as possible.

Questions

Answers

Definitions based on the *Oxford American Dictionary for Learners of English*

A

accurate *adj.* careful and exact; without mistakes

achievement *noun* something that is done successfully, especially through hard work or skill

active *adj.* able and willing to do things; full of energy

adjustable *adj.* that can be moved to different positions or changed in shape or size

adjusted *verb* changed something slightly, especially because it was not in the right position

adorable *adj.* very attractive and easy to love

advanced *adj.* highly developed

adventurous *adj.* liking to try new things or have adventures

advisor *noun* a person who gives advice to a student, company, government, etc.

aggressively *adv.* in a way that shows you are ready to fight or argue

agreement *noun* a contract or decision that two or more people have made together

aid *verb* to help someone

alarm *verb* to make someone or something feel suddenly afraid or worried

algae *noun* very simple plants that grow mainly in water

altitude *noun* the height of something above sea level

ambitious *adj.* having a strong desire to be successful, to have power, etc.

ancient *adj.* [1] belonging to or connected with the distant past [2] having existed for a long time

antibiotic *noun* a medicine that is used for destroying bacteria and curing infections

apologize for *verb* to say that you are sorry for something that you have done

applies *verb* puts or spreads something onto a surface

approach *verb* to come near or nearer to someone or something

aquatics *noun* sports that take place in water

arch *noun* a structure made with two columns joined over the top in a curve

architect *noun* a person whose job is to design buildings

art gallery *noun* a room or building for showing works of art, especially to the public

artificial *adj.* not genuine or natural, but made by people

ask for *verb* to say that you want someone to give you something

assessment *noun* the act of judging or forming an opinion about someone or something

atmosphere *noun* the mixture of gases that surrounds the Earth or any other star, planet, etc.

attract *verb* to cause someone to like or be interested in someone or something

attractive *adj.* pleasant to look at; that pleases or interests you; that you like

avoidable *adj.* that can be prevented; unnecessary

awestruck *adj.* feeling very impressed by something

axle *noun* a bar that connects a pair of wheels on a vehicle

B

bank *noun* an organization that keeps money safely for its customers; the office or building of such an organization

barter *verb* to exchange goods or services for other goods or services, not for money

beamed *verb* smiled happily

behave *verb* to act in a particular way

belong to *phrasal verb* to be owned by someone

beneficial *adj.* improving a situation; having a good or useful effect

benefit *verb* to have a good or useful effect

bill *noun* a piece of paper money

biologist *noun* a scientist who studies biology

blurry *adj.* not clear

booming *adj.* (of a sound or voice) loud, deep, and hollow

borrow *verb* to take or receive something from someone that you intend to give back, usually after a short time

bravely *adv.* in a way that shows you are not afraid

break down *phrasal verb* (used about a vehicle or machine) to stop working

break into *phrasal verb* to enter a building by force, usually in order to steal something

break off *phrasal verb* to suddenly stop doing or saying something

break up *phrasal verb* to separate into parts

bright *adj.* intelligent; able to learn things quickly

C

cabin *noun* a small wooden house in the country

calmly *adv.* in a calm way

canine *noun* one of the four pointed teeth in the front of a person's or animal's mouth

care for *phrasal verb* [1] to help someone who is sick or old and do things for him/her [2] to like or love someone or something

carnivore *noun* any animal that eats meat

carnivorous *adj.* (of an animal) meat-eating

catch up *phrasal verb* to reach someone or something who is ahead of you

cautious *adj.* taking great care to avoid possible danger

cavity *noun* a hole in a tooth

cease *verb* to stop or end

centigrade *adj.* another word for Celsius; the name of a scale for measuring temperatures in which water freezes at 0 degrees centigrade and boils at 100 degrees centigrade

centimeter *noun* a measure of length. There are 100 centimeters in a meter.

centipede *noun* a small animal like an insect, with a long, thin body and many legs

ceremony *noun* a formal public or religious event

charming *adj.* very pleasing or attractive

chuckled *verb* laughed quietly

circumstance *noun* the facts and events that affect what happens in a particular situation

civilization *noun* a society that has its own highly developed culture and way of life

clever *adj.* showing skill or intelligence

coins *noun* pieces of money made of metal

collaborate *verb* to work together (with someone), especially to create or produce something

collaboration *noun* the act of working with another person or group of people to create or produce something

collaborative *adj.* involving, or done by, several people or groups of people working together

comfortable *adj.* allowing you to feel relaxed

communicative *adj.* willing to talk or give information

complete *adj.* having or including all parts; with nothing missing

concert hall *noun* a building in which concerts are held

condenses *verb* changes or makes something change from a gas to a liquid

confusing *adj.* difficult to understand

connection *noun* an association or a relationship between two or more people or things

conservation *noun* the protection of the natural world

construction *noun* the act or method of building or making something

contribution *noun* something that you give or do together with others; the act of giving your share

cooperative *adj.* helpful; doing what someone asks you to do

copy *verb* [1] to write down something exactly as it is written somewhere else [2] to make a copy of a video, computer file, etc. [3] to do or try to do the same as someone else

cough *verb* to send air out of your throat and mouth with a sudden, loud noise

countless *adj.* very many
